As a Sun of the Sun, I exist across all time and within all space!

I AM a 'Sun of the Sun' and I AM 'all Suns in Divine Alignment'!
This is the Gathering of Ascended Humanity, and I AM that I AM!

VICTORY IS OURS!
And SO IT IS, BELOVED I AM!

ASCENSION CONCEPTS

Beloved Ones, our collective memory dates back to the original coming of Beloved Sanat Kumara and how those serving him built his ***City of the Sun*** …***Shamballa*** …for his eventual coming. It was built and torn down (by the forces of imbalance) three times before it was to stand eternally, in Victory. So it is now with our

Light Service …we build and ***let nothing stand in our way*** along the Path of Victory. But rather than building an edifice or icon, we are builders of the Divine …Building Divine Self, Building Divine Consciousness, and Building an Eternal Life in the Light!

And now the next phase of building is the Immortality of Spiritual Freedom …with the Feminine Ray *infusing, unifying, gathering with* the Seventh Ray Dispensation of Spiritual Freedom! I AM the Gathering of the emerging Feminine Ray (and all that includes) with the Seventh Ray of Violet Fire (and all that entails) …Co-creating the New Golden Age of Sacred Fire, Illumined Ascension and the opportunity for Spiritual Limitlessness! This is my Sacred Purpose!

Spiritual Freedom …is Spirituality Liberated …is Spiritual Limitlessness! Think of it …the Eternal Flame which I AM, is Energy, Vibration and Consciousness anchored directly from Father / Mother God. This Flame of Immortality radiates Infinite Light, which is the same Energy, Matter and Intelligence that created the Universe …as in '***Let there be Light***'! And here I AM continually Co-creating the Universe with (and as!) Father / Mother God!

What I think and feel I bring into form …***what my attention is upon, that I become*** and ***what my attention is upon, there I AM, for I AM my Consciousness***! I AM this Cosmic Law in action …in the ongoing development of Spiritual Limitlessness and Eternal Spiritual Freedom! All of this Divine Potential pulsates within the Star of Spiritual Freedom, anchored and initiated now in Humanity!

The Gathering of Ascending Humanity is one with the Gathering of all Ascended Masters and Cosmic beings come to assist our sweet Earth …One with the Gathering of all Angels and Elementals Forces ready to assist Humanity in her Spiritual Potential. This Divine Gathering is like an orchestra or choir in which we all play our Divine Instrument. Sometime we wonder if our instrument is too small or too quiet to be noticed or make a difference …or if we put our instrument down, will the rest of the orchestra keep playing …as sometimes the horn section is not playing while the strings play on …and the flute or piccolo wonders if their tones are ever heard at all …until there is a flute solo and it's the most beautiful song ever heard! This is true for each of our Divine Instruments …each a section in the choir, or in the orchestra …each a note in the great Cosmic Symphony, that would not be perfect unless we played our Divine Instrument into the Indivisible Flowing Wholeness of it all.

This is the Gathering of Ascending Humanity!
This is Indivisible Flowing Wholeness!
This is what I AM!

And SO IT IS, BEOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ***Cosmic Holy Spirit*** :

Beloved Ones: Let us speak of Fundamental Forces. Physicists might speak of the fundamental forces of nature and physics.[1] But on a spiritual level we speak of the Fundamental Spiritual Forces of the Divine Instrument. It begins with the One Ray of the Mighty I AM Presence anchored as our Eternal Flame in the world of form. The Immortal Victorious Three-fold Flame thus anchored radiates the Holy Triumvirate of Love, Wisdom and Power that govern Co-creation (the Governing God Intelligence of Divine Love). Next comes the Seven Forces of Holy Spirit (manifest as the Seven Chakra Suns) that build the Holy Christ Self, the 'Anointed of Holiness' on Earth. And then comes the Twelve Houses of the Sun that come forth with Solar Christ Self …a Sun of the Sun …those forces that are Building the Eternal Cosmic Self, Building of Infinite Solar Consciousness and Building of an Eternal Life in the Light!

The Star of Spiritual Freedom manifests these Fundamental Spiritual Forces. This Forcefield is a Temple of the Sun, brought by Beloved Saint Germain to Earth after his sojourn in the Central

---

[1] The four fundamental forces within the study of physics (and their corresponding spiritual concept) include the 'strong nuclear force' (the force between nuclei) which binds particles together to form substance and matter, creating atoms and other building blocks of creation. It is by far the strongest forcefield (during the Outbreath of Universal I AM). The 'weak nuclear force' causes decay of particles …the etherealization and transformation into smaller component particles (during the Inbreath back to Source). On a sub-atomic level, *building and etherealization of form* takes place continuously, all in the name of constant transformation. The third force is the 'electromagnetic force' and is the basis of 'like attracts like' and 'opposites repel'. The electromagnetic force contains the 'electric' action of energy …and the greater that force, then the greater the attraction. The 'magnetic' portion is the attraction force in manifestation. The electromagnetic force is carried in photons and *thus the greater the Light the greater the electromagnetic force*. And the fourth fundamental force is 'gravity', which is the force binding two objects of mass or energy and is felt to occur only within time and space (actually bends the time / space continuum). The Ascension undoes gravity, as one has moved beyond time and space as an Individualized God Presence and into the Indivisible Flowing Wholeness of Universal I AM.

Sun, to invoke the Divine Dispensation of Spiritual Freedom. The Energy, Vibration and Consciousness of this Spiritual Star now radiates within all persons, places, conditions and things …just as its Infinite Radiant Light pours forth the Energy, Matter and Intelligence of Spiritual Freedom into manifestation …from within every person, place, condition and thing. See, feel and deeply accept this Vision!

When Beloved Jesus said "I leave you now so that Holy Spirit may come among you, he wanted each Disciples of Holy Spirit to discover their own ***Spiritual Agency*** …as the ***Eternal Flame*** anchoring all Energy, Vibration and Consciousness necessary for a New Age …and then expand its ***Infinite Radiant Light containing all the Energy, Matter and Intelligence*** necessary to manifest that Divine Potential. Holy Spirit will raise into Higher Frequency all the Creative Faculties of thoughts, feelings, words and deeds so that the Fundamental Forces of the Sun Seventh Ray Dispensation is expanded far and wide. We are all Disciples of Holy Spirit going forth across the globe, spreading the Energy, Vibration and Consciousness of this Truth.

The Nature of Cosmic Holy Spirit now comes through the Star of Spiritual Freedom. This Force empowers the mind to accept this Truth and illumines the feelings to align their power with it! Spiritual Agency comes from becoming only the Eternal Flame (of Energy, Vibration and Consciousness) and then manifesting that Divine Potential through the Energy, Matter and Intelligence of its Infinite Radiant Light. This manifests the Divine Potential …individually and for the entire world!

AFFIRMATION:
As Disciples of Holy Spirit, we affirm:
"I AM a Keeper of the Flame …a direct source of Energy, Vibration and Consciousness from Father / Mother God. This is my Eternal Flame. I serve as a Temple of the Sun within the Great, Great Silence …as I expand and project its Infinite Radiant Light of Energy, Matter and Intelligence into the world …to Co-create the world I desire …that of Ascended and Free Humanity, on her Ascended and Free Earth, in her Ascended and Free Orbit! And SO IT IS!

And this very day …whether this 24-hour day or a Great Cosmic Day (in the cycles of Cosmic Days and Cosmic Nights, the Inbreath / Outbreath Activity) …on this very day …I AM the Gathering of Ascending Humanity …gathered with the Royal Kingdoms of Angels and Elementals …gathered within the Cohesive Power of

Divine Love, uniting all life in her Ascended State …living Ascended and Free in my Eternal Spiritual Freedom!"

And SO IT IS, BELOVED I AM!

Visualization

In the calm Breath of the Great Solar Quiet, I focus on Becoming the ***One*** (Ray of the Mighty I AM Presence); then the ***Three*** (-fold Flame of Immortality); then the ***Seven*** (Chakra Suns along my Solar Spine); then the ***Twelve*** Aspects of Deity of Solar Christ Consciousness (as a true Temple of the Sun) and then again the ***One*** (Indivisible Flowing Wholeness of Universal I AM)! I AM all of it, all together, all at once!

Here I AM Ascended and Free, together, standing in the Light! Here I AM the Gathering of Ascending Humanity, of all the goodness in the world and all Ascending Energies within daily life! Here, I AM One with all Angels and Elementals serving our sweet Earth! Here I AM the Fundamental Spiritual Forces within the Solar Year Thoughtform …of both the Cosmic Maltese Cross converging on Earth, sustaining ***the Cohesive Power of Divine Love*** …as well as the Mystic Ring of Violet Fire expanding out from the Earth, ***uniting all life in her Ascended State***! I AM every aspect of that Theme and Thoughtform! For this now opens the Eye of Divine Liberty into Solar Consciousness …which in turn reveals the Star of Sanat Kumara …which then in turn initiates the Star of Spiritual Freedom within Humanity, in every heart. And now I AM a True Representative of the Solar Year Theme and Thoughtform, manifesting my Temple of the Sun …as a Sun of the Sun!

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED LADY VENUS …on the Spirit of the Solar Year, the Feminine Ray …and its nature of Divine Love:

The Star of Spiritual Freedom is:

the Star of Divine Potential!
the Star of Spiritual Agency!
the Star of the Divine Presence!
the Star of Spiritual Fulfillment!
the Star of Spiritual Limitlessness!

Beloved Friends of Freedom …I too serve on the Feminine Ray and its expression of Divine Love …just a Beloved Kwan Yin serves the Feminine Ray on the Seventh Ray of Mercy, Compassion and Forgiveness. Let us explore further, the Nature of this Solar Year and our part in it …together, standing in the Light. Here we honor the Holy Triumvirate at Shamballa and especially the Lord of the World, in the overall development of the Theme and Thoughtform, furthering the Cause of Harmony and Balance in the world. We focus on their presence at Shamballa, a replica of the City of the Sun on Venus and the Home of our Beloved Sanat Kumara …to again infuse itself into the Consciousness of Humanity, as it did when he first came …but now again to unite the Flame at Shamballa with every human heart …for this *precise Cosmic Moment*!

The Solar Year Theme within the Star of Spiritual Freedom captures the full Immaculate Concept for Earth and Humanity when it was first conceived in the Heart Flame of Father / Mother God, Helios and Vesta. It was passed on to them by their Great God Parents, Alpha and Omega. On Venus we had the same Divine Potential manifest within our Root Races but conceived in the Heart Flames of Beloved Krishna and Sophia, Father / Mother God for our Solar System. So now, during the Great Cosmic Inbreath, the magnetic draw of Venus as the Star of Divine Fulfillment, will draw forth the emergence of the Star of Spiritual Freedom within Earth and her Humanity.

This is done through the Cohesive Power of Divine Love that we have developed on Venus! This Forcefield unites all life in her Ascended State. This Forcefield is now focused on our sister planet Earth …drawing her into our Orbit of Divine Love …as we Ascend into our Higher Orbit within the Great Cosmic Inbreath. I see the Star of Spiritual Freedom as a ***center of glistening diamond brilliance, radiating piercing Rays of gleaming Light in all directions***, each with a specific Cause that forwards Spiritual Liberty within Humanity and the Elemental Kingdom. Others may see it as a Violet / Pink Rose, spiralling slowly as it unfolds its limitless Cosmic Petals, enfolding all life in the Cohesive Power of Divine Love that magnetizes all life towards its Divine Potential. We may all see this visualization in our own unique fashion, in our own Crystal Vision!

Let us visualize that the Star of Spiritual Freedom within us expands …projecting its Light Rays across the room, then across the city, then across the nation and then across the globe …to any person, place, condition or thing that we may feel desirous of

assisting into its Spiritual Freedom! And thus together, standing in the Light, we enfold our entire Earth in a bouquet of Light Rays of Spiritual Liberty and its Ascension Process …together, standing in the Light of our Star of Spiritual Freedom!

Let us see the opportunity the Karmic Board has given us, each one in this embodiment. Affirm: I AM here in my Energy, Vibration and Consciousness to empower the advent to the Feminine Ray …as it emerges in all its aspects of inclusion, equality, circularity, opportunity, justice, and finally to the Spiritual Liberty of achieving one's Divine Potential. I AM serving through the Star of Spiritual Freedom Forcefield, as it contains my Energy, Matter and Intelligence. For this Star of Spiritual Freedom within me was initiated by the Star of Sanat Kumara. And therefore, IT IS DONE!

Claiming our full Spiritual Agency includes the Voice of the Great I AM, the Solar Chakra Sun at the throat. This becomes a beacon of Energy, Vibration and Consciousness, radiating its Energy, Matter and Intelligence into the atmosphere …like a lighthouse whose Illumination guides those who are 'lost at sea'. The Light that shines upon them contains the Energy, Matter and Intelligence to get home safely. Imagine your Light reaching into 'all who are lost' …and assisting them to see the way Home to their own Eternal Flame and its Infinite Radiant Light …hearing their own ***powerful Voice coming from within*** …which they accept as their guide, their own God Presence activated! The Star of Spiritual Freedom activated and Initiated brings *internal spiritual disclosure* …the Revelation of Truth from within. And SO IT IS!

Spiritual Limitlessness includes the limitlessness of time, space and self. Imagine there is 'a space'. From the outside it appears it would hold a certain amount of people …yet once inside you realize there is limitless space (within that space) and it may hold limitless people …in fact whatever our desire is for it to hold. The whole world could fit in this 'space'. It may be a new way to think of 'space' craft. Space just unfolds according to our Consciousness …our desire …and the coordinates set by our Energy and Vibration.

The limitlessness of space is *many worlds within this world*. There is as much space within us as outside of us …down through to every cell, atom and electron. The building block of matter, the atom, is 99.9 % space and the particles involved are barely detectable. Inner and outer space is all one continuum. And seeing this Truth, I realize my True Identity is a spectrum across all of this continuum of space. My physical, etheric, mental and emotional

bodies in this embodiment are a Divine Potential within that spectrum of space …and thus becomes the 'where, when and how' there is individualization of my Eternal Flame.

It is the same with time. Imagine you had never heard of the concepts of past, present and future …that this splitting of time into fragments was completely unknown to you. You would imagine within a 'moment of time' that there is 'limitless time' (as if time stood still), across endless dimensions of time, beyond the concepts of past, present and future. *Within this very moment, we may fit all time*. The limitlessness of time is that there is all time within this time …the Eternal Moment of now is everything from all time, here and now. The timelessness of True Identity is that I AM an Eternal Flame …I AM eternally Flame! Truly knowing this is my Eternal Peace!

And across the concept of self, there are limitless Dimensions, Realms, and Spheres of self, across limitless time and space coordinates. This embodiment is but one of many potentials for individualization …but from it we may claim the best of our 'selves' …from not only other embodiments on Earth but all other experiences we have had within other Ascended and Free Planets and those civilizations. This combined Divine Potential is already a 'wholeness' or Oneness Consciousness pulsating within our Causal Body. The limitlessness of self is every aspect of self from all Dimensions, Realms, Spheres of Light …*all here, all now*. Our Causal Body reflects Spheres of Light as different colors, as the wavelength (of the Light sent forth) determines its color and its qualities …along the Seven Rays of the Holy Christ Self on Earth and the Twelve Rays of Solar Consciousness.

Let us think of the term '*gathering'* as Oneness Consciousness …the ***Coherently Connected Divine Consciousness*** of ***all 'time, space and selves' in this Eternal Moment of now***. Then the Gathering of Ascending Humanity individually is all aspects of our Divinity. The Gathering of Ascending Humanity globally is the Oneness Consciousness of all the goodness in the world …the Oneness Consciousness of all Ascending Energies. Imagine the Gathering of Angels and Elementals within the Oneness Consciousness of Humanity. Here we are (I AM) attuned to the service of all Angels and Elementals across all time and space within all Dimensions, Realms, and Spheres of Light! And thus, Ascended and Free Earth is the 'gathering', or Oneness Consciousness, of all of this …in total! Meditate on this!

And the Power behind this Reality is the Cohesive Power of Divine Love, uniting all life in her Ascended State! This Divine Love is the atmosphere we breath on Venus! It is the basis of our Spiritual Liberty in daily life. This gives you some small idea of the Spiritual Liberty beyond the restrictions now understood about time and space and self! The Mighty I AM Presence sends our limitless Rays of Light into the Cosmos and this embodiment in the world of form is but one of them. Imagine the time and space coordinates of all the others and how the Mighty I AM Presence may present itself in those many other Dimensions, Realms, Spheres of Light. These are all aspect of Self …of our Presence …of our Eternal Flame and its Infinite Radiant Light! This is a summary of the ***limitlessness of our full Spiritual Agency*** across Universal I AM.

I AM ***empty of self*** and the restrictions or limitations of self.
I AM ***empty of time*** and the restrictions or limitations of time!
I AM ***empty of space*** and the restrictions or limitations of space.

And thus ***my Spiritual Freedom is to see, feel and deeply accept that I AM connected, attuned and in Oneness Consciousness with all aspects of time***, ***space and self*** …in all its ***limitlessness*** …all that I have ever experienced in any of the endless Dimensions, Realms, Spheres of Light …right here and now in this present embodiment! It is all present here and now! This is what I AM! I AM my full Spiritual Liberty …my complete Spiritual Agency …in conscious command of the Eternal Flame's Energy, Vibration and Consciousness and a Divine Director of its Infinite Radiant Light! This is my Divine Instrument and my True Identity …my Spiritual Limitlessness. And SO IT IS!

Our Eternal Flame is pure Energy, Vibration and Consciousness. The vibration of the Light sent forth determines its wavelength and thus its expression. The Vibrational Tone of the Three-fold Flame sets the wavelength of that Energy …determined by the level or state of the Consciousness involved. Then the Light sent forth as Energy, Matter and Intelligence forms the universe we then abide in …physical and spiritual …the 'particle-function' or 'wave-function' of that Light …of that Energy, Matter and Intelligence.

Within the Flame of Immortality,
I AM existing within all space,
I AM abiding across all time,
Beyond, all time and space!

"Gone, gone, gone beyond …gone altogether beyond.

Oh, what an awakening; all Hail"[2]

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED KENICH AHAN …Guardian of the Temple of the Sun at Yucatan.

Beloved Ones entering Solar Christ Consciousness: welcome into the Temple of the Sun at my Retreat at Yucatan. I greet you as a Sun of the Sun. And further I greet you as an individual Temple of the Sun in your own Divine Right …as your own True Identity. This is your newfound Solar Christ Consciousness developing …first as an 'infant temple' discovering the Quantum State Qualities of your own Flame of Immortality to offer our sweet Earth …and then beyond into our Solar System of Helios and Vesta …and then into its Galaxy under our Beloved Alpha and Omega.

Let us see, feel and deeply accept that, as a Temple of the Sun, I AM also an Elemental expression …just as the original Shamballa was the ***City of the Sun*** *expressed in form* …for the coming of Beloved Sanat Kumara. In my own Temple of the Sun, I AM its Co-creation into form through the Infinite Radiant Light of my Eternal Flame, expressing its Energy, Matter and Intelligence. This then manifests as Health / Wellness, Harmony / Balance and Simplicity / Symmetry in form. I AM the Elementals of earth, air fire and water in perfect Harmony and Balance through the Governing God Intelligence of my Seven Chakra Suns, and my 12 Solar Meridians …radiating through every cell, atom and electron of my manifest form. My Elemental Vehicles perfectly reflect the Higher Frequencies of my Divine Instrument. I AM a Temple of the Sun …made manifest! And I AM the Hierarch of this manifest Sacred Temple …standing within the Eternal Flame upon its Altar!

Then, once this aspect of True Identity is set in my mind …in the timelessness of Solar Consciousness …I AM expanding this to *all the attributes of any Sacred Fire,* of any Ascended Master Retreat that I place my attention on. For example, I AM the timeless God Illumination focused within the Retreat at Uxmal[3] and all God Illumination that has ever poured through that Focus since the beginning of time. Or, I AM the timeless Healing Powers of many Ascended Master Retreats and all Healing Energies that have ever

[3] Mayan for 'thrice built'

been Focused therein. Or, I AM the timelessness of the Ascension Retreat at Luxor and all the aspects of Energy, Vibration and Consciousness that have been focused therein and all the Ascended Masters that have graduated from that Focus since its inception.

Thus …I AM a Temple of the Sun, in Divine Alignment with every other Ascended Master Retreat, beyond any restrictions of time and space. I AM all Suns in Divine Alignment! I AM the Transmission of the Flame from any Ascended Master Retreat into my Eternal Flame …and on the return current, back from my Divine Instrument into that Focus. In my True Identity, I AM all Cosmic Momentum gathered on Earth since the birth of the Great Light Brotherhood. Beyond the restrictions of space, there is no distance or separation between my Presence on Earth and the Temples of the Sun or any Ascended Master Retreat and the Sacred Fire within. ***I AM all of it, all the time, all at once!*** For this is the gift of Solar Consciousness and its Spiritual Liberty!

AFFIRMATIONS:

I AM inbreathing and absorbing the
timelessness of the Eternal Healing Flame.
I AM expanding and projecting it into …
(the area of the body, mind or emotions requiring healing)

I AM the Flame of God Illumination! I AM directing it into
those persons, places, conditions and things requiring it,
free of any criticism, condemnation or judgment.

I AM charging, *charging* ***charging*** the Elementals of earth, air, fire
and water comprising my vehicles, with my Flame of Immortality.
I AM accelerating them into their Higher Divine Potential,
expressing the Perfection Patterns of my Light Body!

I AM all other Sacred Fires, such as the 3rd Ray of Loving
Adoration and Gratitude, the 7th Ray of, Mercy, Compassion and
Forgiveness …or the 5th Ray of Constancy / Perseverance …into
any and every area of daily life I wish to serve this day.

I AM a Divine Director of Sacred Fire!

CEREMONY

The purpose of daily Ceremony is achieving ***Divine Order*** …of *settling inner order first*, so that 'outer order' will follow through the day of my affairs …and through the night of my sleep and rest.

So, in this new Solar Year, I AM committing to my spiritual practice with *diligence, perseverance and concentration* …so that my days and nights proceed in Divine Order …becoming One with the Way in the natural flow of life on this plane of existence. This includes all the Transformational Events in Consciousness that await us in the Next Life Wave Coming to Earth …'the Way' *transforming itself*, as well as transforming *the expression of all things*, in this New Age of Spiritual Freedom.

In ***Solar Christ Consciousness*** there is a certain Peace awaiting us. This is the natural tendency to perceive the Transformations we achieve during the Ascension Process ***without effort***, ***without strain***. This is the essence of God Illumination. One has insight and knowingness about the process and what is occurring individually and on a global scale. One observes one's transformations with a calm poise. One immerses oneself within Solar Christ Consciousness …where the binary nature of yin/yang no longer prevails and the Oneness Consciousness of Indivisible Flowing Wholeness is the guiding principle. Here, ***the Twelve-fold aspects of the Deity exist as one!*** In contrast, during the development of the Seven-fold nature of the Holy Christ Self, the binary nature of Yin / Yang is accepted, and each Ray of Holy Spirit is developed individually… as in "which Ray do I belong to". ***In Solar Consciousness, it is all One, all the time***!

As we steadily enter the Age of Solar Christ Consciousness and the Next Life Wave Coming, there is aways the expectation of *something more to develop into* and a *constant joy of anticipation of such steady transformation* …always expecting what is 'just beyond'. This is the ***Tranquil Joy*** that is the gem to be discovered within God Illumination and Enlightenment. This is our Teaching at our Retreat of the Sun, and we invite the Gathering of Ascending Humanity to join us at any moment of meditation or repose. We welcome you into our Cosmic Gathering!

And SO IT IS, BELOVED I AM!
