ASCENSION CONCEPTS

Beloved Ones, let us see ourselves graduating to greater service. Let us see the Gathering of Ascending Humanity now serving with the Lord of the World, Beloved Lord Gautama. He holds the Electronic Pattern of our sweet Earth. Here he serves in the Great, Great Silence ...completely empty of self and of the world ...holding the Immaculate Concept of the I AM Race evolving on her Ascended and Free Earth. He also sees karmic patterns that need resolving ...and then does so *in a way that forwards spiritual evolution*. Let us join him in meditation, aligning with his Focused Silence, at the Jewel in the Heart of the Lotus. We are transported here through our *Flame of Immortality ...the Jewel at the Heart of our Lotus*.

Serving within our own Electronic Pattern, we may hold true to the Electronic Pattern of Earth, as seen through the Crystal Vision of Lord Gautama. Here we serve the planet with the full Momentum of our True Identity ...serving our vows to forward this planet into full inclusion in the Divine Progression of the Solar System ...the Great Cosmic Inbreath! Here we serve not only with the Lord of the World, but also with the Regent at Shamballa, our Beloved Sanat Kumara. It is his great purpose to have the Earth rejoin the Gathering of Ascending Planets. Here we serve the Theme and Thoughtform of this Solar Year as well as the entire Spiritual Hierarchy ...who live but to serve the Holy Triumvirate at Shamballa ...the Lord of the World, the Regent Sanat Kumara and the Cosmic Christ and planetary Buddha, Lord Maitreya.

We are aware that the return of the Star of Sanat Kumara brings transformation ...the leading edge of Endings and New Beginnings! The Great Love Star returns as part of the Next Life Wave Coming! We have affirmed that we are (I AM) open and receptive to this Cosmic Momentum, by restoring our True Identity within daily life. Here we *renew our vows* ...I AM empty of self, and ***I AM Flame!*** I AM empty of time and space, and I AM an ***Eternal Flame*** as well as its ***Infinite Radiant Light!*** I AM the ***Star of Sanat Kumara!*** I AM a ***Sun of the Sun! I AM that I AM!***

In this service with the Lord of the World, it is also our opportunity to rediscover the *Bliss of our Flame of Immortality*. Let us become empty of self and of the world ...existing only as the Flame of Immortality. This allows elevated Cosmic Service, even as we live our daily life. This makes us invaluable to the Lord of the World, as the Spiritual Hierarchy requires the Gathering of Ascending Humanity to take on some portion of the responsibility of this office ...in order that the Seventh Ray Dispensation become a *permanent Golden Age*. It is *an opportunity that we petitioned the Karmic Board for* ...to see the effect of our Electronic Pattern, *unleashed from within embodiment*, on the outcome of our sweet Earth in her journey of Restoration and Ascension.

Therefore, let our daily practice include sitting in the Great, Great Silence with the Lord of the World. Seated within the Jewel in the Heart of the Lotus, we may feel ourselves as the Five-Pointed Golden Love Star of Sanat Kumara. Here we open the Eye of Divine Liberty and its Forcefield of Solar Consciousness. Here we feel the *Twelve Houses of the Sun pouring through the veil* and through us into the world. Here we affirm *'I AM Inbreathing, Absorbing, Expanding and Projecting our sweet Earth into this Multi-dimensional Star of Love!'* Here we see, feel and deeply accept

ourselves as the 'Secret Love Star' ...one with Humanity and one with the Spiritual Hierarchy. With every breath and with all the Power of our Creative Faculties, we affirm ...*here I AM assimilating all Liferforce on Earth into this Forcefield!*

Dwelling with the Lord of the World, I AM the Pagoda of Seven White Ascension Doves ...and I AM holding all Liferforce on Earth in the Star of Sanat Kumara. Here all levels of my Divine Instrument are aligned in this service ...my Ascended and Free True Identity ...*the One* (Ray of the Mighty I AM Presence on Earth), *the Three* (Three-fold Flame of Immortality), *the Seven* (Chakra Suns and the River of Kundalini Fire), *the Twelve* (Houses of the Sun all in Divine Alignment through me) ...and again *the ONE* (Universal I AM)! And here I AM the Solar Christ Self, the Mighty I AM Presence, my Causal Body Energies and my supreme White Fire Being ...all in service to our sweet Earth.

Here I AM the Indivisible Flowing Wholeness of my Electronic Pattern. This Reality is how I AM known throughout Universal I AM! This is my Cosmic Signature through Eternity! And as I AM aligned with this True Identity, I see, feel and deeply accept the Cosmos functioning through me, in my Light Service of the Redemption of our sweet Earth. Here, I AM One with Beloved Sanat Kumara, One with the Lord of the World, one with the Cosmic Christ and Planetary Buddha, and One with the entire Spiritual Hierarchy!

Here I AM the Gathering of Ascending Humanity, empowering the Forcefield of all the goodness in the world with my Flame of Immortality. Here I witness this *Forcefield of all goodness* further empowered by its Union with the Royal Kingdoms of Angels and Elementals ...together now, standing in the Light! Here I AM holding Humanity in her Divine Potential. Here I AM the Cohesive Power of Divine Love, uniting all life in her Ascended State! Here ...I AM that I AM!

Here in the Jewel in the Heart of the Lotus, I let go and let God! Here my Seven Chakra Suns orbit my Eternal Flame, within my Ascended and Free Aura ...just the Suns orbit their Central Sun. Here I AM the Solar System itself ...preparing for the Great Cosmic Inbreath. Here I witness my Chakra Suns orbiting in a circular pattern according to the need of the moment ...as to which of the Seven Rays will heighten my focused Light Service *in this moment*. Here I also see my Chakra Suns aligned along my Solar Spine, representing all Suns in Divine Alignment! And all the God Illumination necessary for this Light Service is within my Flame of Immortality! Here again, I AM the Eternal Flame, and I AM its

Infinite Radiant Light ...all the Divine Energy, Matter and Intelligence necessary for this Victory!

Seated with Lord Gautama at the Jewel in the Heart of the Lotus, I AM the Immortal Victorious Three-fold Flame infusing the Forcefield of all the goodness in the world. Every hopeful, merciful, happy thought, feeling, word and deed that is held in the heart of any of Humanity is now the majority of the Energy, Vibration and Consciousness on the planet. And the Ascension is initiated when 51% of Energy, Vibration and Consciousness is Ascending. My *Flame of Immortality* now makes this Forcefield within Humanity become *Immortal within daily life* ... ever expanding and Eternal!

In the Jewel in the Heart of the Lotus, my Light radiates here, there and everywhere present. I AM the Indivisible Flowing Wholeness of Perfection Patterns within Universal I AM! Here, I AM bathing the Royal Kingdoms of Angels and Elementals in the expanding goodness of the world. This provides opportunity for Transformational Events in Consciousness on a Higher Frequency level ...and brings about *the Brotherhood / Sisterhood of Angels, Elementals and Humanity* ...fulfilling a mandate within the Divine Plan of Earth.

Beloved Ones, as we sojourn in meditation with Lord Gautama, let us invoke his *detachment from the world*. We are very aware of the suffering and injustice in the world ...as complicated karmic patterns arise to be set free. We may also see the pathway of two planets ...one going into its Ascended and Free State ...and one going into a slower developmental trajectory. They are currently in the same time and space continuum ...but soon to proceed more clearly on unique paths. But with all the Compassion of Lord Gautama, we see *all energy returning to Source*, whether it be in the current Ascension Process or within a slower return path ...but with all Energy, Vibration and Consciousness arriving back to Source eventually. Here with the Lord of the World, our Love and Compassion is Limitless and Eternal.

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED KWAN YIN ...Feminine Ray Buddha serving the Seventh Ray Dispensation of Spiritual Freedom ...

Beloved Aspirants of Spiritual Freedom welcome into the synergy of the Feminine Ray and the Seventh Ray. Welcome into the Forcefield of Mercy, Compassion and Forgiveness that I hold for our

sweet Earth. I AM with you now and forever as a place of refuge, especially in your current embodiment of Light Service. For we are at a point of great strain on the energies of Humanity and the Elemental Kingdom.

Karma is the Sanskrit term for 'action' ...as in *the action* of sending forth Energy, Vibration and Consciousness ...as thoughts, feelings, words and deeds ...and then also experiencing *the action* that follows. Action begets action. It is the law of cause and effect. The 'karma of self' is that lower frequency activity generated by lower frequency thoughts, feelings, words and deeds (condemnation, criticism and judgment) ...that only ego self could generate. The Higher (or Original) Self can *only generate Higher Frequency* Energy, Vibration and Consciousness (Love, Wisdom and Power, Mercy, Compassion and Forgiveness) ...that brings about Higher Frequency action, and its results of Spiritual Freedom ...living an Eternal Life in the Light, Ascended and Free. Cause and effect.

The completion of the Law of the Circle is the action of karma ...or the 'action of action'. All Energy, Vibration and Consciousness is in motion, in action, moving towards an outcome! Free will is that Law which gives us the ability to choose the outcome of our Lifestream, becoming *our own Co-creation* ...for better or for worse. Embodiment on Earth is intended to have our Eternal Flame and its Infinite Radiant Light *housed in Elemental Vehicles*. These vehicles (or 'Avatar' for the Mighty I AM Presence) would have their own Creative Faculties of thoughts, feelings, words and deeds to manifest Divine Potential within the density of form.

This allowed an opportunity (found nowhere else in the Solar System) to achieve Mastery of Energy, Vibration and Consciousness in the dense world of matter and substance. And with the 'great fall' in Consciousness, these Elemental vehicles became even heavier and denser than ever intended, along with the resultant suffering (distress, disease and aging) ...all of which were never intended in the Divine Plan. And since the 'great fall', with thousands of generations of returning imbalanced energies now piling upon each other ...the layered complexity of karmic return is what we see all around us.

So now the Lord of the World has allowed that all the layers of karma yet unresolved within Humanity be brought to the surface ...that until now was done on a slower arc of dispersment, spread out over *more time and space*, for the sake of mercy, as smaller, more manageable doses. Therefore, the Gathering of Ascending Humanity as Divine Directors of Sacred Fire, *must equally come into action* to

lessen this burden upon the masses, at this Cosmic Moment. This is the nature of the Seventh Ray Dispensation and its Flame of Mercy, Compassion and Forgiveness. Powerful past imbalances appear now as 'very present' to some ...and distorted versions of the future (based on past karmic patterns) also appear in the mindset of Humanity. But serving with the Lord of the World, we hold to the Divine Plan.

In the Law of the Circle, energy sent forth from its source (our Creative Faculties) returns with more of its kind. It is often said that whatever we send forth returns to us ten-fold. It returns to either be set free from the negative bonds imprisoning it, expressed through difficult circumstances and experiences ...or, it is to be rejoiced, Ascending into our Causal Body, the Momentum of Seven Spheres around our Mighty I AM Presence. Each such moment is our Ascension Process.

The karma of time is interesting. Time is partly a result of needing to dispense a great amount of negative karma but slowly ('over time'), such that it does not prove overwhelming to the next embodiment. This also meant many more embodiments to attain the Ascension than ever intended. This decelerated the cycle of the Root Races, such that there was a tremendous delay in the development of the Fourth and Fifth Root Races ...and thus a delay of the Sixth and Seventh Root Races entering. But this 'time restriction' is now coming to its end (as part of Endings and New Beginnings). And the New Root Races now enter *completely infused with the Next Life Wave Coming!*

Those 'restrictions of time' also caused more attachment to persons, places, conditions and things because of a fear of time limitation ...rather than the *timelessness of spiritual development* everywhere else in the Universe. Let us contemplate *timelessness* ...that everything in creation is but Energy, Vibration and Consciousness ...and thus the *foundations of creation* themselves are timeless ... Eternal and Infinite. The karma of space is that sense of distance we might call exclusion, separation and divisiveness (physical, mental, emotional, economic, cultural and racial distance or separation) ...whereas 'empty of space' is only Indivisible Flowing Wholeness within Universal I AM ...even with individualism and diversity at its core. Contemplate this!

The action of time (the karma of time) is to limit and restrict things into future or past, rather than the *ever-present now*. The karma of 'space' (or distance between things) is the action of separation on our understanding of Multi-dimensional reality, making it difficult to grasp the Indivisible Flowing Wholeness of the Universe. *Karma is*

energy in action! And therefore, our Eternal Flame is our *Ascended and Free karma* (our good karma) ...as its Infinite Radiant Light carries our Perfection Patterns into the world. Our Seven Chakra Suns are also the action of our Divine Potential going forth, when our Creative Faculties are used *in the action of* positive thoughts, feelings, words and deeds ...direct from the Mighty I AM Presence through our Solar Christ Self, acting in daily life.

Empty of time and space completely alters our understanding of the Divine Potential of ourselves, Humanity and our sweet Earth. Such detachment is important because all time and space is collapsing into this present Cosmic Moment ...specifically to allow for Endings and New Beginnings ...*a massive reset* of Energy, Vibration and Consciousness within the Universe, ***with all life offered acceleration into its next Divine Potential*** ...its Higher Frequency Function ...within the Great Cosmic Inbreath (itself 'an action' on a very grand scale)!

The New Age of the Seventh Ray has an answer for this conundrum of *everything collapsing into now*. The Sacred Fire, specifically the Violet Fire, *will transmute through Divine Alchemy the cause, effect, record and memory of lower karmic action, at the level of Energy, Vibration and Consciousness ...before it can act, manifest or longer be sustained!* This is the Hope and Glory of this New Age and the great promise of Spiritual Freedom! Imagine being free of any return of imbalance and only living in the Stream of Perfection Patterns pouring in from the Mighty I AM Presence ...as Divine thoughts, feelings, words and deeds. This is Spiritual Freedom!

This Reality is not only possible *but inevitable* ...by placing all 'returning energy of self' (karma) into the Flame of Immortality ...there to be transformed into Higher Frequency variations of itself ...its *intended expression of Blessing for the world, sourced from the Heart of Father / Mother God*. And you are its expression into creation, its path into manifestation! And if there has been 'mistakes' of thoughts, feelings, words and deeds in the past, that 'action of karma' can now be harmoniously resolved by becoming a Divine Director of Sacred Fire ...Ascended and Free, together, standing in the Light! This is the *Divine Potential of all Humanity ...to become their own saviour ...come to heal their own world, to become the Light of their own World ...the Christ in Action* ...both on a personal level ...and together, on a global level, as the Gathering of Ascending Humanity!

Action is the cause, and the effects are simply the action returned ten-fold along the same wavelength of Energy, Vibration and

Consciousness sent forth ...for good or otherwise. The *original action (karma) of the universe was the initial outbreak of Father / Mother God*. This is seen by science as the 'big bang', seen as the 'primordial atom' exploding into what we now see as the universe of many galaxies and solar systems. In Light Service, we see this as the Permanent Atom of Divine Love, expanding and projecting the Divine Will and Immaculate Concept of Galaxies and Solar Systems and their Divine Races of Beings ...into Co-creation. Science is now asking the question 'but where did this first atom come from and what was the Power of its expansion'? We know this as Father / Mother God and the Original Flame of Immortality and the Eternal Co-creation of life unending.

Regarding the personal Ascension Process, remember the axiom, that 'as I AM empty of self and of the condemnation, criticism and judgment of the mind, then I AM impervious to the condemnation, criticism and judgment of others ...as it has no place to anchor in my Lifestream. As I AM empty of empty of self and any negativity in my feelings, then I AM impervious to the emotional imbalance and negativity of others in the world. As I AM empty of time and space then I AM impervious to any concern about the timing of the New Age of Spiritual Freedom and how quickly it manifests ...or how effective is our Light Service ...for I AM living beyond these restrictions, knowing I AM an *Eternal Flame* and I AM its Infinite Radiant Light, *here, there and everywhere present*. I AM as patient and unmoved as the great mountains, that watch over the valley of daily life below. The Universe is unfolding as it should.

And as I AM empty of self, time and space ...then I *become the Star of Sanat Kumara* ...manifesting itself on Earth, a radiating outpost of its Light and Love, open and receptive to the Next Life Wave Coming! I meditate on becoming totally empty of self and of the world ...so that I may be absolutely filled with the Immaculate Concept for Earth, as the Star of Spiritual Freedom. Here I feel the vast interconnectedness ...the immense Solar Consciousness ...that is 'I AM'. Let us visualize that the Chakra Sun at the base of our Solar Spine is one with the Eternal Sun of Even Pressure in the center of our sweet Earth. Then see, feel and deeply accept that our Crown Chakra is one with the Dimensions, Realms, Spheres of the Sun, Central Sun and Great Central Sun. This is the immensity of our True Identity, our Divine Instrument. This is *all Suns in Divine Alignment!*

Then what 'human problems' can face this and not desire to be set free, into this Indivisible Flowing Wholeness? This is the Forcefield that returning energies, looking to be set free, find ...a Divine

Alchemy of Higher Frequency Energies. This is Home to all energy we have ever sent forth into the Universe. And when these returning energies are uplifting and ascending, then then gather around us in the Dimensions, Realms, Spheres of our Causal Body ...the Celestial Aura of our Mighty I AM Presence.

If our energies return as 'less than love', they may then either express as karmic lessons on the use of Life, as 'difficult experiences' if left unattended ...or, they may be directed into the Presence of Holiness within our Eternal Flame ...there to be set free into the Light! The first is the 'loop of karma' generated since the 'great fall' in Consciousness, that this New Age of Spiritual Freedom *now closes forever*. The second is our Ascension Path, empty of self and all action less than Harmony and Balance. This is to Let go and let God! This is becoming a Divine Director of Sacred Fire and our Ascended Mastery within the world of form!

Join with me at any moment within my Flame of Mercy, Compassion and Forgiveness, for there I AM!

And, SO IT IS, BELOVED I AM!

***ENERGY, VIBRATION AND CONSCIOUSNESS OF
BELOVED SAINT GERMAIN: On ...the Immortality of Spiritual
Freedom***

Beloved Friends of Freedom: from previous Golden Ages and the Light Service that went into those great epochs, there is an ancient memory within Humanity that whatever good we build will somehow be undone by imbalance ...through a great calamity, losing everything ...health, finances, social and spiritual growth and even entire continents, that have been built in forwarding Humanity and her planet. *This is a pattern that requires transmutation.* Because now we enter the **permanent** Age of Spiritual Freedom! And within this Divine Potential, *our Light Service shall not be lost*, but rather only expanded and built upon by future generations of Light Servers. It is anchored in the Heart of Humanity, in the Forcefield of Enlightenment and imprinted in the arising Consciousness of all life. It shall be part of a global foundation of Energy, Vibration and Consciousness that builds into Eternity ...for such are the Qualities of the Flame of Immortality! This Truth of *permanent forward progress* is what we anchor ...as Ascended and Free Light Service!

We envision that Light Service is done of free will choice ...to become more and more enlightened, as if a peaceful process that

takes place in our private life ...in a place of sanctuary. And this is how most begin their Ascension Process. However, there are times when Light Service becomes *a calling*, as if one must declare their intention to assist Humanity and the world during a treacherous moment, lending the skills they have achieved in their spiritual growth. Throughout history there have been moments when we truly had to gather as Light Servers to bring Harmony and Balance to a very imbalanced moment. And here we are in such a moment.

Beloved Sanat Kumara brought a 'gathering of great souls' when he took on the service of Earth's redemption. This project meant the breaking up ancient, crystalized but regressive concepts ...the karmic patterns of thoughts, feelings, words and deeds ...and accelerating them into a Higher Frequency potential ...which would reveal itself after a transition period. Therefore, the coming of the Great Love Star has brought disturbances (Endings and New Beginnings) within Humanity and within the Elemental Kingdom. But great potential is on the other side of these disturbances. At this moment of the Next Life Wave Coming, this period of disturbance now leads into Feminine Ray Harmony and Balance ...of inclusivity, circularity, equality and Reverence for all Life ...Devotion to all Human, Elemental and Angelic life. This reveals the Brotherhood / Sisterhood of Angels, Elementals and the Gathering of Ascending Humanity, a foundation of this New Age ...manifested through the right and perfect people, doing the right and perfect thing, at the right and perfect time, in the right and perfect place, in the right and perfect way! And with the full power of Crystal Vision, I can assure you *this is coming!*

The duality of the outer world is difficult. It requires that the Light Server both hold the Immaculate Concept of a New Age of Spiritual Freedom, living in this Higher Frequency Energy, Vibration and Consciousness, which then centers them in their True Identity, within the Eternal Flame and its Infinite Radiant Light! *And*, it requires going about daily life even while all the karma of the world is working itself out ...with the illusion of imbalance and negativity that continually assails the senses. One way to manage this duality is to *see this spectrum of experiences all within you!*

For of course, the answer to duality is Oneness ...one with Humanity and one with God in Action ...and *living in this Reality* in Peace Divine. Here we affirm that as I AM raised up so is all life raised up with me. We know that we may serve the Light as our Divine Instrument, even while karmic imbalance (personal and global) remains an aspect of our embodiment. We already visualize Earth's entire Lifeforce along our Solar Spine as the Pagoda of Seven White

Ascension Doves. This may then graduate to becoming 'an Initiate' ...where *all the world is happening within you ...that you are the world*. This is becoming 'like the Lord of the World', 'like the Planetary Buddha'. This is part of the Ascension Training.

There is a phrase we all know that '*we cannot change others, but we can change ourselves*'. We serve to *become the world* and then *take the whole world with us, into the Ascension*. It is said that if there is one suffering on the planet, then all are suffering. Equally, when there is *one Ascending on the planet, then all are Ascending!* In this visualization of '*being the world*', embodied chakras express both their lower frequency 'ego energies' (yearning to be set free) ...through to the Higher Frequencies of the Seven Chakra Suns revealing the Divine Plan of Spiritual Freedom when embodied. Let us review the energies we can individually transmute / transform in our spiritual practice, so that we take all the *same frequencies within the world ...with us into the Ascension!*

For example, the Chakra at the base of the spine at its lower frequency expresses as covetousness and craving, whereas in its Higher Frequency expresses the Ascension Flame and this *glorious opportunity to Ascend from embodied biological vehicles into Spirit*. This Chakra is the White Focus of the Resurrection and the Life ...where we role aside 'the rock of substance and matter' and reveal the Arisen Christ. This is an opportunity found nowhere else in the Solar System!

The next Chakra along our Ascending Kundalini River is the center of the abdomen, our Violet Fire Chakra Sun. In its lower ego frequency, it houses anger and malice towards other life. But in its Higher Frequency this center reveals the Divine Potential of Invocation ...the constancy of being open and receptive to all Divine Potential within and all around us ...all such potential with Humanity, the Elementals and the Angels, to bring forth the New Age of Spiritual Freedom. The next Chakra up is the solar plexus. Its negative expression is the seat of fear, in all its expressions ...but when mastered, its Higher Frequency brings the Sun of Divine Peace, where we anchor into the world the *Eternal Good Will of Universal I AM!*

Then we reach the Heart Chakra. This Pink Sun of Love was always meant to be the unconditional Adoration of all Life, the seat of Holy Spirit and the anchorage of the Flame of Immortality into the body. When ego usurped this center, it became the seat of lethargy, idleness and apathy, rather than an active, enthusiastic Force of Love. Then comes the throat Chakra. Its lower frequency expresses desire for

control over others and personal power, often based in envy. Its Divine Potential is the Voice of the Great I AM ...to 'shake the ethers' with the Keynote of God's Will, setting the *higher vibrational forces of goodness* on their way, to do their perfect work. It *unifies with all the goodness in the world*. Here is the power of affirmations, mantras, degrees and song ...all of which at Higher Frequency is declaring God's Will of Harmony and Balance.

Then we reach the Ajna center at the Third Eye, the Emerald Green Jewel centering the Crown of the Elohim upon the forehead. Here the lower frequency is intellectual superiority, pride (as a false front for doubt) and spiritual arrogance. Its Higher Potential radiates as the Eye of Divine Liberty, the Third Eye of Divine Providence, seeing Crystal Vision and Divine Truth beyond the restraints of self, time and space. And then we arrive at the Thousand Petaled Lotus, the Crown Chakra of Enlightenment and God Illumination. Here we understand our Divine Instrument and become a focus of Divine Wisdom of the Eternal Flame and its Infinite Radiant Light.

So, let us return to the problem of 'duality' within daily life ...the difficulty of observing imbalance and negative illusion, yet knowing the Divine Potential of Spiritual Freedom. It *becomes manageable if seen as completely within us* ...and can thus be transformed through becoming a Divine Director of Sacred Fire along our Ascended Master development ...Master over our own Energy, Vibration and Consciousness and thus *that of the world*. We become the world and take the world with us into its Spiritual Freedom.

This concept of 'being the world' ('being in the world but not of it') is the same foundation as becoming the Pagoda of Seven White Ascension Doves ...all Lifeforce Ascending along our personal and collective Ascension Path. It was said that Beloved Jesus 'took on the sins of the world'. He did so in order to bring the world with him into Christ Consciousness. In the great struggle between 'good and evil', the eventual victors are not those with the greatest armies but those with the *instruments of Higher Consciousness*. And now the Flame of Immortality has aligned itself with the Forcefield of *all the goodness in the world*, so that there is a mighty Legion of Light within our Gathering ...capable of setting free an entire planet!

And our Divine Instrument allows us to become consecrated Directors of Sacred Fire ...by becoming our own Eternal Flame and its Infinite Radiant Light. It is the Forces of Sacred Fire wielded by Ascended and Free Beings, in alignment with the Angels and Elementals, who bring the Victory of Spiritual Freedom to our sweet Earth. The Immortality of Spiritual Freedom expresses on Earth

through Keepers of the Flame, being constant in their Light Service to the world. *The Gathering of Ascending Humanity is the Immortality of Spiritual Freedom in action!*

And SO IT IS, BELOVED I AM!
