ASCENSION CONCEPTS

Beloved Ones, in Light Service we desire to feel we are (I AM!)
channelling Higher Frequency Light and Love! The essence of this
desire is to become our True Identity ...the Eternal Flame. And then,
at this Ascended and Free State, I AM *directly* channelling the
Energy, Vibration and Consciousness of Father / Mother God
...which flows into the Eternal Flame of the Mighty I AM Presence
and thereby, directly into my Consciousness. We seek our ***Spiritual
Liberty!*** We seek to develop our ***Celestial Spiritual Agency*** ...in
order to be ***most effective in advancing the Divine Potential of our
sweet Earth.*** This then is the answer! This is the Hope of Humanity
...that she rediscovers her Spiritual Liberty to become God in Action

...literally 'channelling' the Energy, Vibration and Consciousness of Father / Mother God directly into daily life. Imagine the Forcefield of this occurring through billions of people!

Therefore, let us *celebrate Easter Season* as the Resurrection and the Life of our Divine Potential ...becoming Spiritually Liberated in our Light Service. This is the Divine Expectation we entered this embodiment with ...brimming with Joy and Promise ...before the hardships of embodiment became evident to us. Now we return to our full sense of Spiritual Agency we knew in the Ascended Master Temples *before this embodiment*. Here we trained in becoming **full Divine Directors of Sacred Fire** and how impactful our potential could be 'once back embodied in elemental vehicles'. This is the State of Divine Expectation we presented to the Karmic Board, in order to gain this embodiment through the Temples of Birth.

It is of course much easier to perceive this Divine Potential when in our Light Body between embodiments. But we also have direct access to the Cosmic Momentum of all such training we have done. This Forcefield is alive and pulsating in our Causal Body. It is ever-present, waiting to be accessed and released, when given our *sustained attention and loyalty!* Here we fully remember: "I AM an Eternal Flame ...of Energy, Vibration and Consciousness ...at those *precise coordinates of my Ascended and Free State, revealed here on Earth!* This is my Resurrection and Ascension ...from the ego states of distress, disease and disintegration ...to the Spiritual Limitlessness of my Divine Potential ...embodied here and now! And SO IT IS!

This was our entrance into Earth and into this present lifetime. Here we remember that restoring this Original State is through becoming the Sacred Name 'I AM' ...the very Presence and Action of Father / Mother God ...as I AM in any other Dimension, Realm, Sphere of existence. The repeated experience of *achieving this daily* is our goal. It is like the Christ Nature continually arising from the tomb, *day after day!* Victory comes through *rhythmically applying* the Cohesive Power of Divine Love, uniting all **my life** and **all life everywhere present**, in her Ascended State. This is the Forcefield blazing forth from Freedom's Holy Star, now initiated within me. And thus, **I AM Spiritually Liberated here and now!** This is my **Divine Expectation!** And **I AM that I AM!**

Dear Ones, as we already know there are limitless potentials for any aspect of creation. It is true of lower frequencies that express as difficult manifestations, and continues up all the way to manifesting Divine Potential at the Highest Frequency. And with the ultimate

Divine Potential fulfilled, the Ascension ...then we are at the apex of a Cycle of our Cosmic Journey. Then that door is sealed and another opens, to the next cycle of our Cosmic Journey ...in our Eternal and Infinite Exploration through Universal I AM.

Daily life on Earth reveals many lesser potentials which we see manifest around us on many levels. Our goal, and that of Humanity, is to ascend from these lesser potentials, one by one ...or possibly in a quantum jump ...until we achieve the Victory of the Divine Potential. In our *daily Spiritual Practice*, one way to become empty of criticism, condemnation and judgment in the mind is to see all persons, places, conditions and things as a *manifestation of a certain potential*. And given that level, we simply *bless it to its next higher potential* ...until finally, its *Ascension in the Light*. Everything is on a journey ...and we simply observe it on that journey and offer the blessings of our Light and Sacred Fire. And thus, *we remain at Peace, in the Great, Great Silence of the Universe ...seeing it unfolding as it should!*

The Ascension Concept of *Revelation* refers to the Quantum State manifestation of the Divine Potential, as *Quantum Matter* ...at the coordinates of the Energy and Vibration of the Divine Plan. Thus, Biblical Revelation (the Book of Revelations) was a vision of what might occur if ego consciousness was still setting these coordinates (at ego frequencies), at the end of the Christian Dispensation. But instead of that outcome, we hold the Divine Expectation for the Immaculate Concept ...that we graduate into a New Age of Spiritual Freedom ...*as if the Christian Dispensation had achieved its Divine Potential ...ending with all Humanity Ascending into their Holy Christ Self!* And SO IT IS!

The Ascension Concept of *Revelation of the Divine Potential* refers to the current Building of Divine Self as our True Identity and its Divine Instrument. It expands into the Building of Divine Consciousness on a global level ...and then *together, standing in the Light*, building an Eternal Life in the Light! And to be clear, the *Star of Spiritual Freedom is the Forcefield of this Ascension Process for this Cosmic Moment* ...now anchored in every Eternal Flame. This Forcefield carries all the Energy, Matter and Intelligence of the Next Life Wave Coming. Meditate on the Power of this Forcefield!

Let us try to imagine the embodiment of Beloved Jesus when he fully revealed his Holy Christ Self. When he faced a problem, he would recede into the Eternal Flame and *from there* would come the right and perfect thoughts, feelings, words or deed for that moment. These then became the Scriptures, as well as his Revelation of Miracles.

The right and perfect language was for ‘that time’ and for ‘that level of consciousness’, given Humanity’s development. Thus, he spoke Divine Truth in allegory and metaphor. But as God in Action, he also would not allow the restrictions of self, time and space to interfere at all with what came through at those moments. And thus, they persist as Miracles and as Scripture. And now we are building the Miracles and Scripture of the New Age of Spiritual Freedom!

Today it may appear much differently, given the present development of Humanity. For there has been great strides in consciousness development since biblical times ...even though there is yet grand displays of imbalance upon the ‘screen of life’. But *behind the screen* is much more enlightenment than the average person realizes. And the Gathering of Ascending Humanity *sees and feels this gathering enlightenment*. It is within us! This lifts our anticipation into its Divine Expectation! For we know that the Gathering of all the goodness in the world, the Gathering of all Ascending Energies, and the Gathering of Ascending Humanity ...is a more powerful Forcefield than any imbalance! And the more we attend to this Commanding Forcefield, the more open and receptive Humanity becomes to further Revelation, and thus closer to understanding and accepting the Next Life Wave Coming! This is our goal.

And thus our *personal Resurrection* is our service to the *Resurrection of our sweet Earth*. This is exactly what Beloved Ascended Master Jesus offered the world ...and we do now! He told us then “*whatever I have done shall ye also do ...and greater things ...!*” And our global Light Service as the Gathering of Ascending Humanity is the *proof of his prophecy*. Our Light Service with the Angels and Elementals is *proof of this prophecy*. Our Eternal Flame channelling the Energy, Vibration and Consciousness of Father / Mother God directly into daily life, is *proof of his prophecy!* I AM the *Revelation of the Divine Potential of Humanity* ...is his prophecy!

Revelation is a verb (or action) ...as in ‘I AM Revelation’! This means I AM the action of revealing God in Action! Revelation is also a noun (or event), as in ‘I AM the Revelation’ ...of the Divine Potential manifesting for a certain person, place, condition or thing. ‘I AM the Resurrection and the Life’ is also both *an activity or action* (I AM the Resurrection and the Life of something that requires its Freedom in the Light) ...as well as *an event*, as when Beloved Jesus exited the tomb in his Light Body. Each day *we are both*, the ongoing action and activity of our Eternal Flame and also each day we are revealing the Reality of our Divine Instrument as our thoughts,

feelings, words and deeds. Each day we leave the tomb of ego when becoming empty of self, time and space ...and each day we present the world with our True Identity and Divine Instrument. And this sustains us at the Higher Frequencies of Divine Expectation.

Beloved Jesus was fiercely loyal to his Eternal Flame and the Voice of the Great I AM that sprang forth from it, guiding his Ministry. We too, when 'One with the Way', can see, feel and deeply accept the guidance of our Eternal Flame ...using the Energy, Vibration and Consciousness that springs forth. It requires our sustained attention and fierce loyalty to that Eternal Flame ...when empty of self! As our attention is upon that Eternal Flame, then the Light radiating from it automatically carries the Energy, Matter and Intelligence of *Divine Revelation!*

Meditate on this and the *nature of Spiritual Limitlessness*, now within our grasp. The Star of Spiritual Freedom brings the Activity of the Atomic Accelerator into daily life ...through our sustained Light Service! This Atomic Accelerator is a gift brought forth by Beloved Saint Germain *to quicken the Revelation of Spiritual Freedom to Humanity*. And it will now occur *from within Humanity*, rather than appear from 'on high'. For then, Humanity is her own Saviour, her own Redeemer ...as her own Holy Christ Self ...as her own Resurrection and the Life of Divine Consciousness! This is the very nature of the New Age of Spiritual Freedom and everything Beloved Jesus prophesized!

And this is our global endeavor of Light Service, requiring the unique contributions of *each Eternal Flame* and its unique Energy, Matter and Intelligence radiating from that Flame. The advent of the Feminine Ray, combined with the advent of the Sixth and Seventh Root Races, will do much to forward this Divine Cause. Individual and collective expression within the arts, education, governance, business, healing, etc. all face Transformational Events in Consciousness ...until Revelation of Spiritual Freedom is the predominate Keynote within daily life!

And SO IT IS, BELOVED I AM !

Energy, Vibration and Consciousness of Beloved Seventh Ray Elohim, Arcturus and Lady Diana ...representing the Building of the Divine Dispensation of Spiritual Freedom:

I AM Elohim! I serve in many Dimensions, Realms, Spheres of Light! I AM Builders of Divine Self, Builders of Divine Consciousness and Builders of an Eternal Life in the Light! And here

I AM now, with the Gathering of Ascending Humanity in this Cosmic Moment of our sweet Earth. Welcome into Cosmic Co-creation!

The Elohim first built this planet from the blueprints of Father / Mother God, held in the Heart of the Silent Watcher, Beloved Immaculata. Our tools were the Energy, Matter and Intelligence radiating from the Eternal Flame. Thus, we know well Earth's Divine Plan, as it passed through our Consciousness into manifestation ...along the Seven Steps of Precipitation (biblically, the Seven Days of Creation). The Silent Watcher yet holds this Multi-dimensional Divine Potential of Earth and her Root Races in her Heart Flame, as the Forcefield of the Immaculate Concept.

The Silent Watcher is an *active, ever-present Forcefield* for the Gathering of Ascending Humanity to attune with ...through our own Eternal Flame. ***This attunement allows that your Light Service always be in Highest Alignment with the Divine Plan.*** This sustains a blessed assurance that *one's purpose in this embodiment is being fulfilled!* So please, do meditate upon the Silent Watcher of Earth, Beloved Immaculata ...as well as the Silent Watcher of the Solar System, Beloved Lady Circulata.

The Seven Mighty Elohim serve in Oneness Consciousness, where there is principally ***One Creative Flow*** of our Energy, Vibration and Consciousness. In the same way we first participated in the Co-creation of Earth, we are presently Building the Foundational Forces for the Victory of the Seventh Ray Dispensation of Spiritual Freedom. We do utilize the Seven Steps of Precipitation, all of which now function within this ***One Elohimic Forcefield***. And we are so grateful to the Gathering of Ascending Humanity for joining its Forces with ours. For together, standing in the Light, we form the ***Co-creation of the Consciousness for the New Age of Violet Fire!***

Let us meditate on some aspects of our ***One Elohimic Forcefield of Co-creation*** ...now in Oneness Consciousness with the Gathering of Ascending Humanity:

I AM the Maltese Cross of Cosmic Violet Fire
from the Twelve Houses of the Sun, focusing
its ***Cohesive Power of Divine Love*** into
its center, where Earth dwells.

I AM the Mystic Ring of Violet Fire expanding out from that
brilliant diamond center, a Sphere of Light housing all the
White Fire Beings of Humanity ...the Highest Aspect

of Humanity's True Identity and Divine Instrument,
uniting all life in her Ascended State!

I AM the New Age of Spiritual Liberty, now fully created
in the Etheric Realm and ready to emerge into daily life!

I AM the Sixth and Seventh Root Races now carrying this Energy,
Vibration and Consciousness into the world, through their Eternal
Flame and its Infinite Radiant Light, now shining within daily life.

I AM the Star of Spiritual Freedom at the Heart Center of
Humanity, representing the four realms of physical, etheric, mental
and emotional reality on Earth, *reaching their Divine Potential!*

I AM the Star's diamond brilliant center, with four piercing
Rays of Intense Light expanding out to the four
cardinal points within the Maltese Cross.

The Star of Spiritual Freedom now stirs *Spiritual Awakening*,
away from restrictions of race, religion, culture and nationality
towards the Spiritual Liberty of Oneness Consciousness!

*I AM the Resurrection and the Life of true
Spiritual Awakening within Humanity!
I AM its Co-creation here and now!
I AM One Elohimic Forcefield!*

And SO IT IS, BELOVED I AM!

Beloved Ones, in the Crystal Vision of the Elohim, the Star of
Spiritual Freedom may be seen as a rotating Star as it passes through
Dimensions, Realms, Spheres of Creation. Like a rotating diamond
reflecting the Light, the Star changes its shape, blossoming like a
flower into its various geometric designs and mandalas. Often, one
may see four Major Rays of Light to the four Cardinal Points or,
through a larger lens, may see endless Rays to endless points of
Light. Let us conceptualize this activity.

Visualize the Star of Spiritual Freedom holding the Immaculate
Concept for this entire New Age ...containing all the Divine
Potential *of this Solar Year* and *every Solar Year to follow!* Meditate
on this! In Oneness Consciousness, the Elohim feel all the
Fundamental Forces of the Next Life Wave Coming, pouring into
and affecting Humanity in the most positive and calming ways.

Let us stand together within this Forcefield of Freedom's Holy Star. We see, feel and deeply accept the *Next Life Wave Coming*. Here, we feel the *Great Cosmic Inbreathe* magnetizing us from within. We feel closer to Source. In this meditation, the *Feminine Ray* then activates, simultaneously bringing Harmony and Balance from within. And thus, *we now appreciate the Coherently Connected Divine Consciousness of all these Forcefields within us*. We hold this Immaculate Concept, ***functioning as its living Silent Watcher!***

Then the Sixth and Seventh Root Races bring these Perfection Patterns into manifestation, as they now prosper within society, taking up their posts within daily life. We begin to see these results all around us and we rejoice! And this Co-creation Activity now manifests the necessary ***Endings*** (of persons, places, conditions and things do not vibrate at Divine Potential) ...as well bring forth ***New Beginnings*** of the Sacred Reality that belong within the New Age of Spiritual Freedom ...all of this Force *coming from within Humanity!*

Building of Divine Consciousness

Let us presently focus on the Star of Spiritual Freedom as ***Four Rays of Light*** from its diamond crystal center ... the north, east, south and west directions of the compass, but representing the physical, etheric, mental and emotional realms of life. Let us see this as the ***spiritual compass of Humanity***, now drawn to a Higher Frequency, understanding of the ***values of Spiritual Liberty*** and their expression in daily life. This is how we Build Divine Consciousness within Humanity. Together, standing in the Light, the Star of Spiritual Freedom is *building the Matrix of Spiritual Freedom*, raising up the inner foundations of daily thoughts, feelings, words and deeds. The forces of imbalance may try to intervene, but the ***Momentum of all the goodness in the world & all Ascending Energies is our Victory!***

So now we have set the Spiritual Compass of Humanity at the coordinates of the Next Life Wave Coming ...the coordinates of the Feminine Ray, the Divine Dispensation of Spiritual Freedom, the Sixth and Seventh Root Races, as well as the coordinates of the Great Cosmic Inbreath. And the *Immortal Victorious Three-fold Flame of each one keeps 'righting the compass' in case other currents of negativity take it off balance*. The Flame of Immortality is the ***Keeper of Harmony and Balance*** within our Spiritual Compass. And its Force in doing so ***is ever-expanding, Eternal and Infinite!***

Next, visualize our Causal Body as Seven Spheres of Light. This is a 'Momentum Forcefield' of all the goodness in your world ...from 'all the worlds' we have ever existed within. This Momentum Field

will sustain our Spiritual Compass in its right and perfect coordinates for *our Light Service!* Now visualize the same for all Humanity, standing in their Star of Spiritual Freedom, joining us in our Service of Building Divine Consciousness. Then visualize the Causal Body Spheres of Father / Mother God in the Sun. This Cosmic Momentum Field flows into our Causal Body and that of Humanity ...like two oceans melding their waters ...and thus sustains *embodied Light Servers* and all *Ascended Co-Servers* along the coordinates of the Divine Plan of this Solar System and its Galaxy. Meditate on this!

The Seven Mighty Elohim built this sweet Earth out of these coordinates in the beginning. We built it using the powers of Energy, Vibration and Consciousness. You have these same powers ...as Co-creators with your God Parents. Standing within True Identity and as the Divine Instrument, you are these coordinates of Energy, Vibration and Consciousness *expressing into form* through its Infinite Radiant Light, composed of the building blocks of Energy, Matter and Intelligence. So, join us as Builders of Divine Self, Builders of Divine Consciousness and Builders of an Eternal Life in the Light! All of this is within the Star of Spiritual Freedom Forcefield unfolding through this Solar Year!

And from there emerges the unfolding Divine Potential for Harmony and Balance within daily life ...and its full Spiritual Liberty! We are building a New Life for Humanity! This Immaculate Concept allows for Justice and Equality within daily life ...in that all are created equally in the expression of one's Light (as Energy, Matter and Intelligence) in the manifestation of daily life! Thus, daily life may then be co-created through the collective Governing God Intelligence of Divine Love from the Eternal Flame of all involved ...which is the Gathering of Ascending Humanity! All illusion aside, we are at this Cosmic Moment and now evolving into its Divine Potential made manifest! And SO IT IS!

Within Spiritual Liberty, each one embodies their innate Harmony and Balance at the level of Solar Christ Consciousness expressed through thoughts, feelings, words and deeds. Their input of Energy, Vibration and Consciousness then manifests as the Divine Principles, Values and Practices of daily life. This is the expression of Holy Communion with Universal Law! Here, ***I AM communing with the God Nature within all others.*** We remember our Elohimic training in the Temples of the Builders of Form and the Great Devas of the Elemental Kingdom. There is a Divine Potential *gradually manifesting within our daily practice* ...of Building Divine Self,

Building Divine Consciousness, and Building an Eternal Life in the Light!¹

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ASCENDED MASTER JESUS: on the Atomic Accelerator Activity

Beloved Disciples of Holy Spirit: welcome into the embrace of the Cosmic Christ! Every Eternal Flame is a cell in the body of the Cosmic Christ! This *Flame of Immortality* is an *Atomic Accelerator*. It accelerates the Energy, Vibration and Consciousness of whatever is the attention within its Forcefield. It is like getting into an elevator, but instead of rising up in physical space, it raises up the Energy, Vibration and Consciousness of the persons, places, conditions and things within its Forcefield.

The Atomic Accelerator can also take other forms. It can appear as Lord Michael's Sword of Blue Flame... an Electric Blue Forcefield that one stands within and breathes into the physical, etheric, mental and emotional bodies, until all are accelerated into Higher Frequency of the Light Body. The Atomic Accelerator may also appear as a Cosmic Pillar of Violet Fire ...as well as other Sacred Fires ...swirling in, through and around every cell, atom and electron of one's being ...accelerating the Energy, Matter and Intelligence composing it into its Divine Potential, manifesting Original Intent!

In this spirit, let us contemplate the Gathering of *all the goodness in the world* ...the gathering of *all Ascending Energies* ...also becoming an *Atomic Accelerator*! Every thought, feeling, word and deed sent forth with any positive quality, attended by a positive purpose, hoping for a positive outcome ...*is all Ascending Energy*! It would naturally return to one's Causal Body to be forever part of their Cosmic Momentum of 'being God in Action' (stored goodness ...as in "store your treasures in Heaven"). In summary, it *Ascends into Divine Potential* ...it *Ascends into Heaven*!

Imagine how many trillions of positive thoughts, feelings, words and deeds go forth every hour of every day, right here within daily life. This now becomes a permanent Forcefield and part of Earth's Causal Body, as her Momentum of Goodness. And *this Momentum we now claim* within our Gathering, as a *global Atomic Accelerator*! For the Gathering of Ascending Humanity is a Forcefield gaining

¹ See the Ascended and Free Website on the 'Flame Visualization Page' for a Guided Visualization and Meditation, intended for daily practice ...at ascendedandfree.org (currently on the English and Portuguese sites)

Momentum on Earth, as with any New Age building its Forcefield. With the Christian Dispensation, this began with Twelve Disciples ...watched over by Holy Spirit. Today our global Forcefield of the Gathering of Ascending Humanity, in Union with all Angels and Elementals, expands its Force and Momentum by uniting with all the goodness in the world and all Ascending Energies from all Humanity ...Forcefields uniting with Forcefield's as a ***global Atomic Accelerator!*** This is the Cosmic Impetus of our New Age!

And then into this planetary Forcefield flows the Next Life Wave Coming ...the *Seventh Ray Dispensation*, the advent of the *Feminine Ray*, the *Sixth* and *Seventh Root Races* emerging into daily life and then the *Great Cosmic Inbreath*, with all Dimensions, Realms, Spheres of Reality Ascending. It is all united with us here and now! And ***as the Angel of Unity, I declare: "I AM the Resurrection and the Life of this Atomic Accelerator of all active Forcefields of Harmony and Balance ...uniting towards Victory for our sweet Earth and her permanent Spiritual Freedom! And SO IT IS!***

Affirm with me: As the Arisen Christ, I serve the Light through Ascended and Free Light Service ...through all planetary Light Service ...through all Angels and Elementals ...and through all the goodness in the world and all Ascending Energies ...through the Transmission of the Flame between every Eternal Flame and all Temples and Sacred Fires of the Ascended Masters, Cosmic Beings and Father / Mother God ...in our ***united Co-creation of this New Age!*** And SO IT IS!

REVELATION AND RESURRECTION

I came in my embodiment as Jesus *to reveal ...to make Revelation ...of the Power of the Eternal Flame!* This is the nature of the Holy Christ Self walking within daily life. The Flame of Immortality, whether a tiny Spark or blazing Flame, contains the same Energy, Vibration and Consciousness. It contains all the goodness that individual *will ever do or has ever done* ...on any existence, on any plane. Outside of time, it is all *present here and now*. All the Momentums required to complete the Divine Plan, *to fulfill Divine Potential in this lifetime*, are anchored within the Flame of Immortality across Humanity! The Causal Body stores this Cosmic Momentum and its flow into manifestation is through the embodied Eternal Flame.

The Flame of Immortality and the Causal Body are the Yin / Yang of Divine Potential ...one is the seed and the other is the grown oak tree. And we affirm: in my True Identity functioning as my Divine

Instrument, I AM all of it ...along an endless journey of Building Divine Self and Building Divine Consciousness. The **'miracle working Presence of God'** is simply transposing that which is natural in one particular Sphere of Life (the Perfection Patterns within Causal Body), into this denser plane of form, where the Flame of Immortality is currently embodied. It matters not to the Eternal Flame nor to the Causal Body. They function through the Consciousness involved ...and hence the Building of Divine Consciousness, *in this realm of existence!* That is the nature of the Christ walking on Earth ...and defines **the Resurrection and the Life** as a Forcefield to work within.

All persons, places, conditions and things are composed of Energy, Matter and Intelligence ...that was once housed in the Light of the Mighty I AM Presence. It passed into manifestation through the consciousness of an individual. It was given certain coordinates to manifest, based on the thoughts, feelings, words and deeds of that individual (or individuals). In the service of Resurrection, we **spea**k** directly to that Energy ...to that Matter ...to that Intelligence!** We speak with the **Voice of the Great I AM!** And those fundamentals of manifestation then respond to this Divine Voice / Tone / Frequency ...returning to Original Coordinates of Love, Wisdom and Power this Light knew within the Mighty I AM Presence. This Powerful Declaration allows the Resurrection Flame to then Restore the Divine Potential of that person, place, condition or thing! This was the *Celestial Power of my Ministry* and *is now yours to behold!*

The Flame of Resurrection is the Breath of Holy Spirit that raises that Energy, Matter and Intelligence back to its Immaculate Concept. It is what brought forth the 'miracles of Healing or Precipitation during my Ministry ...and brought me forth from the tomb in my Light Body. This principle can be as natural on Earth *as it is in Heaven ...and is the basis of the Lord's Prayer!* This is how I stepped forth from the tomb after death ...as can any person, place, condition or thing continually step forth from imbalance and decay, **into the Light** ...when the Energy, Matter and Intelligence involved is raised up by the Resurrection Flame within Holy Spirit.

Let us **see the Earth as an Atomic Accelerator** of all the goodness in the world and all Ascending Energies ...a planetary Revelation of Divine Potential ...just as we each become an individualized **Revelation of Divine Potential as the Holy Christ Self.** Affirm:

I AM the Ascension in the Light!
I AM Revelation of Divine Potential!

I stand in the Light of my own Ascension!
I stand ...in the Light ...of my own Ascension!
I STAND IN THE LIGHT OF MY OWN ASCENSION!

And SO IT IS, BELOVED I AM!
