ASCENSION CONCEPTS

Beloved Ones, let us attend to ‘the process’ of daily life ...as there is a tendency to focus more on its ‘content’. When we *let go of self* in any fashion ...any criticism, condemnation and judgment of persons, places, conditions and things ...then we let go of ‘content’ and focus only on the ‘process’ of living. The Higher Frequency process is: ***I AM an Eternal Flame***, a direct anchorage of the Divine Energy, Vibration and Consciousness from Higher Realms. And from this Eternal Flame radiates its ***Infinite Light***, composed of the *same Energy, Matter and Intelligence in its Quantum State* that first created the universe and everything within it ...and continues to co-create the Universe, including this ‘world of form’. This is our ***Ascension Process!***

Rather than attending to the ‘content’ of personal views on things, ***focusing on the Ascension Process*** is establishing the New Age of Spiritual Freedom ...as well as the Ascension of all Lifeforce. And our Infinite Radiant Light carries the Keynote that “***the Light of God is always Victorious!***”! So let us focus on the Source of that Light, allowing that to be our only focus ...*our only process!*

Beloved Ones, on the cover of the monthly Journal, as well as at the top of our Web Page, you see a picture of the ‘Center of a Galaxy’, (an image seen through the eyes of a space telescope). Let us see this vision as the Eye of Divine Liberty ...a Forcefield actively opening Humanity to her Solar Consciousness as she moves through her Ascension Process ...in fulfilling the Holy Christ Self, her Seven-

fold Spiritual Potential on Earth. This process is underway, regardless of the 'content of illusion' yet evident. The Breath of Holy Spirit increasingly moves through Humanity and the Elemental Kingdom ...in the mysterious ways of nature and the coming of Transformational Events in Consciousness. It is the winds of change.

For June is the month of *Communion with Holy Spirit*, moving across the face of daily life. The Next Life Wave Coming is all around us. Look and see how much the Feminine Ray is influencing life ...how the generations of the Sixth and Seventh Root Races now flourish, how the Divine Dispensation of Spiritual Freedom is now revealing herself on all levels of personal and collective freedom ...and subtly the Great Cosmic Inbreath changes our understanding of our place in the Universe and the scientific / spiritual discoveries that verify this.

Outside of time (in timelessness) events may both 'stand still' and yet 'change instantly'. Within time, change seems to 'take a long time', even generations ...yet that same change in timelessness takes place in the blink of a Cosmic Eye. Therefore, let us take this 'timeless view' of our Light Service. For then we find the peace of mind that eludes us when immersed 'in time'. For when we affirm that *the Sacred Fire produces instant results*, it is true! But the *understanding and vision of this Truth is seen only in timelessness*. This is the key to accepting it.

While in Communion with Holy Spirit, the timeless Victory of the Divine Potential has already occurred! We discover this in meditation, in the Great, Great Silence of our Eternal Flame's Infinite Radiant Light. While enjoying this State of Holy Communion, we may also consciously apply the Sacred Fire. We do so with no sense of time or space restraints, but rather only in the sense of calling all Powers of the Flame to join us in this Bliss. This is a State of Serenity ...of Being Serene. Here we remember the scripture: "Love is patient, Love is kind". And knowing this Reality within Holy Communion is what keeps us patient in our Service.

The "*Holy Comforter*" is within timelessness ...where we find our Eternal Comfort. Even while we allow for change through Transformational Events in Consciousness, we remain 'content' within that moment. With this level of Cosmic Comfort, we may now achieve things we might not imagine doing 'within time', where we often feel the desire for immediate results. In the Peace of the Great Stillness of Holy Spirit, we can accomplish anything aligned with its Divine Potential. And, on behalf of Humanity's Ascension,

this Stillness of Spirit allows for the Law of Reciprocity (“as I raised up, so is all life raised up with me”) to find its Victory!

Let us immerse our entire Being in Holy Communion, affirming: *‘I AM moving the Breath of Holy Spirit through my Elemental Vehicles. I AM the soft, glowing Essence of Holy Spirit moving through my physical body, through my etheric matrix, through my mind and mental vehicle, and through my feelings and emotional vehicle’*. Then, together, standing in this Light, we softly, humbly affirm our Union with the Royal Kingdoms of Angels and Elementals! For this then is *our Victory Statement made manifest!*

Holy Communion is fundamental to our Ascended and Free Light Service. We are (I AM) the ‘tip of the spear’ of the Ascension Process moving through Humanity. We are (I AM) the winds of Holy Breath moving through all aspects of society, within its nations, races, cultures and creeds. We are (I AM) the ‘apex of the pyramid’ *which Humanity is Ascending*, through being lifted up along the Breath of Holy Spirit. Just as the Eagle, Raven or Condor soars effortlessly but majestically on the current of the winds, so too do we soar in the currents of Solar Consciousness, along the winds of Holy Breath!

I AM moving the Breath of Holy Spirit
through my Elemental Vehicles.

I AM the soft, glowing Essence of Holy Spirit
moving through my physical body, through my
etheric matrix, through my mind and mental
vehicle, and through my feelings
and emotional vehicle.

Holy Breath carries the currents of the Next Life Wave Coming. There is a saying: *fate whispers to the warrior, “you will not survive the storm” ...and the warrior whispers back “I AM the storm”!* Our collective strength and effectiveness assures our Victory! It comes from knowing that the Infinite Radiant Light of our Eternal Flame carries the Breath of Holy Spirit. Within that glowing Sea of Silence, ***each photon is a Star of Spiritual Freedom***. This creates *limitless points of Light*, each carrying all the Forces of the Next Life Wave Coming. This Quantum Forcefield changes the Energy, Matter and Intelligence within ‘the focus of our Light Service’, moving that person, place, condition or thing towards its Divine Potential. As ***Disciples of Holy Spirit***, we ***become a Ray of Invocation*** ...directing this Holy Communion towards that which desires to be set free in the Light!

On the physical plane, creation of new life comes from physical union. In the Realms of Light, creation of new life comes from Mystic Union ...the Unity of Eternal Flames. Whether it be an individual Spirit Spark ...or a new Cosmic Cycle ...or a new Galaxy, it is the same Mystic Union. When astronomers witness two Galaxies joining in Union, it creates a portal (black hole) through which is born entirely new Planes of Existence ...new Worlds, Planets, Races of Life. Our Light Service in creating a New Age here on Earth is similar, through the Mystic Union of our Eternal Flame with that of each other, as well as with Breath of Cosmic Holy Spirit. Together, standing in the Light, we co-create a New Cycle, a New Earth in her New Orbit, upon which abides New Humanity ...as well as a New Orbit for all the planets in our Solar System (the Great Cosmic Inbreath) ...all at the Frequency of their Divine Potential.

Beloved Ones, be at Peace in this Cosmic Perspective of our Light Service. Remember that 'Love is patient' and stay in that moment of Holy Communion. The Star of Spiritual Freedom now incorporates this ***Seventh Ray Holy Communion*** ...and is anchored / initiated in every Eternal Flame! The ***Violet Fire is the Transmission of Solar Consciousness***. This Forcefield is now ever-expanding until the Victory of the Divine Potential is achieved!

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ELOHIM VISTA AND LADY CRYSTAL:

Beloved Ones, let us explore the Fifth Ray and its aspect within Holy Communion. The name Vista represents a *Cosmic Panorama, seeing Life in its full Multi-dimensional Reality*. The name Crystal represents *seeing with crystal clarity the Truth of Reality*. Together we represent seeing Life through the Third Eye ...through the lens of Energy, Vibration and Consciousness, as the True Foundations of Creation. Then within manifestation, this Foundation expresses itself as Energy, Matter and Intelligence, which is the essence of co-creation in any Realm or Plane of existence.

The Elohim speak the language of Universal I AM, which we use in the Co-creation of the Universe. The blueprints given us by Father / Mother God come to us in this language, and we then apply our Cosmic Powers within the Seven Steps of Precipitation (biblically known as 'God created the world in six days and rested on the seventh). ***Precipitation*** is the outbreath of creation, with

Etherealization (back to formlessness) being its Inbreath. This Activity of Co-creation involves the Elohim along all Seven Rays, with the final step being the Ray of Peace ...as in Sealing the Creation in everlasting Peace Divine (“and on the seventh day, God rested”).

We co-create using the sounds, tones and melodies of Energy, Vibration and Consciousness, in its State of Great Stillness. These are our tools, our Divine Instruments. Music is tonal mathematics and the expression of the Multi-dimensional Perfection Patterns of Universal I AM! In the beginning was **only Energy, Vibration and Consciousness** emanating from within Universal I AM. The ‘vibratory activity’ of this Holy Trinity became the Sacred Tone or Keynote of the Divine Potential, proceeding into manifestation. And whether building a person, place, condition or thing ...like a planet or a home, the process remains the same. We start with the blueprint of Energy, Vibration and Consciousness, which produces a frequency ...the Sacred Tone or Keynote of that creation. Taken together, this is called the Music of the Spheres. And everything in creation, from Great Central Suns, to Ascended Masters and Cosmic Beings, through to every cell, atom and electron of Earth, has its own vibratory Keynote that represents its unique Divine Potential.

Training with the Elohim begins in the Great Solar Quiet, of Holy Communion with Universal I AM. We desire to assist the Gathering of Ascending Humanity in building the capacity in using the **Third Eye to visualize Patterns of Divine Potential**. As well, we desire to train your **Inner Ear to hear the Sacred Tone of Beauty** all around. Even regarding your personal vehicle of embodiment, Holy Communion restores the **Vision of your Body Elemental** as designed to the same specifications as is the Solar System of Helios and Vesta, as well as the Galaxy of Alpha and Omega. The 365 points along the Twelve Solar Meridians represent the days of the year and the Twelve Aspects of Deity. The Seven Chakra Suns represent the Seven Planets orbiting our Sun ...as well as the Seven Suns orbiting the Central Sun of our Galaxy. Each Sun Chakra orbits the Central Sun of your Being ...the Flame of Immortality at the Heart Center!

VISUALIZATION:

Therefore, let us begin an exercise in **seeing and hearing our Seven Chakra Suns at the level of the Seven Steps of Elohimic Precipitation**. We begin with becoming our True Identity and its Divine Instrument ...an Eternal Flame and its Infinite Radiant Light. Abiding in that Great Silence, our Creative Faculties reach their Ascended and Free State. Listen and See through the Eternal Flame

and within its Infinite Radiant Light. We begin at the base of the Solar Spine and Ascend the Kundalini River of Seven Chakra Suns:

The Sacred Tone of the Ascension Chakra, seeing its many petals of Quantum Light in geometric designs at the base of the spine and hearing its Higher Frequency Cosmic Keynote sustain the *opportunity for the Ascension from within form.*

The Sacred Tone of the Violet Fire Sun Chakra ...seeing its many petals of Quantum Light in geometric designs at mid abdomen, and hearing its Higher Frequency Keynote reverberating in the body as Mercy, Compassion and Forgiveness.

The Sacred Tone of the Sun Chakra of Peace Divine, seeing its many petals of Quantum Light in geometric designs at the solar plexus, hearing its Higher Frequency Keynote sustaining Serenity in the body.

The Sacred Tone of the Holy Spirit Sun Chakra ...seeing its many petals of Quantum Light in geometric designs at the Heart Center and hearing its Higher Frequency Keynote sustain Adoration for all manifestation.

The Sacred Tone of the Power Sun Chakra ...seeing its many petals of Quantum Light in geometric designs at the throat, and hearing its Higher Frequency Keynote as the Voice of the Great I AM!

The Sacred Tone of the Third Eye Sun Chakra ...seeing its many petals of Quantum Light in geometric designs upon the forehead, and hearing its Higher Frequency Keynote sustaining Crystal Vision and a Cosmic Vista in our Light Service.

The Sacred Tone of the Wisdom Sun Chakra ...seeing its many petals of Quantum Light in geometric designs as the Thousand-petalled Crown and hearing its Higher Frequency Keynote sustain God Illumination while yet serving in physical form.

And SO IT IS!

The Elohim desire that the Gathering of Ascending Humanity actively and consciously serve with them, as 'Elohim in training'.

All the Elohim, Builders of Form and Silent Watchers who guide, guard and direct Creation and Manifestation, all began with these experiences ...in becoming Masters of Energy, Vibration and Consciousness and then Divine Directors of its Energy, Matter and Intelligence into Creation. And now, SO IT IS with the Gathering of Ascending Humanity in this New Age of Spiritual Freedom.

The Elohim first began the Creation of Earth with an “Electromagnetic Forcefield of Tone (“in the beginning was the Word and the Word was of God”). Around that blueprint, we created a planet. We ask that you now seek ‘The Word’ and know that the Elohim desire to communicate with you in the language of the Universe. “Let there be Light” began it all and I leave you in your Ascended and Free State, in Service to the Light with the Elohim:

In the Radiant Sea of Light of my Solar Christ Self, I AM
a billion points of Light, each one a Star of Spiritual
Freedom, containing the Cosmic Forcefields
of the Next Life Wave Coming.
I AM its Co-creation!

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED
VICTORY ...on the Victory of the Ascension Process!

Beloved Ones, welcome into the Flame of Victory!

There is a certain Harmony in the Ascension Process. The required Balance in daily life is between the experience of *returning Home into formless Divine Consciousness* (with no attachments to persons, places, conditions and things) ...as well as *becoming a Light Commanding Presence* from that position of Enlightenment, in order to assist all life towards its Divine Potential. So let us practice this Harmony and Balance daily, in both steadily ‘*coming home into the Light*’ ...and in truly becoming a *Light Commanding Presence*.

I AM one whom came with Beloved Sanat Kumara from our Home Star Venus, to serve Humanity and restore Earth to her Divine Potential. Our purpose was in restoring this planet to the point of radiating her necessary quotient of Light into the Solar System, through her I AM Race she is destined to produce ...and for each one individually to become a Light Commanding Presence in their own world and affairs ...Ascended Masters in training!

Let us begin with an attunement we practice in our own 'Temple of Light Victorious', on Venus. It develops the focused expression of our True Identity and our Divine Instrument. The Victory of our Love Star and its I AM Race is based on our loyalty to this Practice ...and not becoming distracted by any lesser potential. Each one on Venus knows the importance of their Light as it becomes part of the whole ...melding with the Indivisible Flowing Wholeness of Venus.

Let us gather now in Consciousness, together standing in the Light. Let us hear the following affirmation as a Great Musical Keynote ...singing of our Victory of Divine Love on Venus, that we now offer to our sister Race on Earth. Breathing rhythmically, with our bodies relaxed and receptive, we begin:

I AM in the Great, Great Silence
of my Flame's Eternal Radiant Light.

I AM AN ETERNAL FLAME ...
composed only of Energy, Vibration and Consciousness.

I AM the Energy of the Realms of Light.
I AM the Vibration of all Perfection Patterns.
I AM the Consciousness of the Divine Potential.

I AM THE FLAME'S INFINITE RADIANT LIGHT,
composed only of Energy, Matter and Intelligence.

I AM the Energy of Quantum Co-Creation.
I AM the Intelligence of Father / Mother God.
I AM the Quantum State Perfection of Matter.

In the Great, Great Silence of this Radiant Light,
I AM empty of persons, places, conditions and things.
I AM only the Light and Peace of the Great Solar Quiet.
There is no time nor space, only limitless Beingness,
with no beginning and no end ...just that I AM!

Here I realize that I AM ...within a greater I AM
...within a greater I AM ...into Eternity.

This is the Eternal Peace of the Great Solar Quiet.
And I may return home here, any moment I desire!

Yet in that same Eternal Moment, this Great Stillness
of all primordial Lifeforce is *awaiting the Loving*
Command to express its Divine Potential.

I AM this Light Commanding Presence
streaming this forth into the world!
I AM a Divine Director of Sacred Fire,
directing the 'force-carrier particle' of photons,
to bring any Lifeforce whatever it requires in reaching its
Divine Potential and return home into the Great, Great Silence.

This is what I AM! ***I AM both the Peace of the Great Solar Quiet
and I AM a Light Commanding Presence*** ...creating the
world I desire ...Spiritual Freedom for all life!
And I AM ...*that I AM ...that I AM!*

Beloved ones, our Beloved Lord Gautama also came from Venus and attained his Solar Consciousness in what has been referred to as Buddhist Enlightenment. His referred to countless Buddhas, in many Realms of Light ...and these are the I AM Race of Venus and many Races beyond, into the Suns and Galaxies of Greater Universes. The Buddha described Solar Consciousness in his Sutras or Teachings. You know well the Hear Sutra, so let us review the Diamond Sutra ("the Diamond that cuts through illusion")¹. He emphasized ***emerging into the Great Solar Quiet*** like the opening Lotus, its roots in the mud (form) but its flower fully open to Heaven (formless) ...receptive to the *Inner Expansiveness within Light Eternal* ...balanced with *Eternal Service to all life*.

From the perspective of Solar Consciousness, the Buddha taught "...all that has a form is illusive and unreal. When you see this, then you perceive your true Buddha nature. When someone is selflessly charitable, they are remembering that there is *no distinction between oneself and the selfhood of others*". The Buddha continued; "all dharma is equal". Dharma is the persons, places, conditions and things of our existence. We have all had countless persons, places, conditions and things in our many embodiments, some better, some worse. So it matters not what they are at this point, just that we detach from them and abide in the Great, Great Silence of our Eternal Flame's Infinite Radiant Light.

Thus, the Middle Way of the Buddha is a midline path between perfecting oneself and perfecting service to others ...between our

¹ The Diamond Sutra is summarized in a four-line verse at its end:

*All conditioned phenomena
Are like dreams, illusions, bubbles, or shadows;
Like drops of dew, or flashes of lightning;
Thusly should they be contemplated.*

own Enlightenment and the Ascension Process of all life. Service to others is meeting them with no criticism, condemnation or judgment while understanding their needs and creating the opportunity to move upwards in consciousness towards their own Divine Potential. This may apply to the *smaller lens* of striving to perfect our personal Ascension Process in this embodiment ...while meeting co-travelers on the path with only Mercy, Compassion and Forgiveness. Or, it may have a much *larger lens*, when deciding which Planet or Race to serve next, in the eternal embrace of the Great Cosmic Inbreath. The Buddha further outlined that our Journey of Divine Potential is an endless expansiveness, with no beginning and no end (...as in Mystical Christianity ...the Alpha and Omega ...no beginning and no end, world without end, Amen!) And as we reach this State of Enlightenment, this Land of Boundless Splendor and Infinite Light, the Buddha reminds us we see 10,000 Buddhas smiling back at us!

Beloved Ones, all of these Teachings come from the Ascended and Free State of abiding in the Great, Great Silence of our Divine Instrument! This State of Enlightenment also reveals how to Command this Light, as a sentient being among other sentient beings, in service to the Light! For ***becoming a Light Commanding Presence*** was innate with our First Birth in the Temples of Father / Mother God ...when the two Twin Flames merged in Mystic Union to create a spirit spark of a new Eternal Flame ...which one Cosmic Day would add its ever-expanding Light into the continuous Co-creation of Universal I AM. This began our 'becoming' ...a Cosmic Presence within the Great Solar Quiet, from which we have each evolved our own Buddha Nature *and* our own Light Commanding Presence ...in whichever Planet, Star or Solar System we passed through in achieving our Divine Potential.

As a ***Light Commanding Presence*** within creation, we never interfere with another's free will ...be it Divine or ego free will. On the Earth plane, *we instead speak directly to the fundamental particles involved in creation ...cells, atoms and electrons.* We bless and raise them up ...outside of 'time, space and self' restrictions. For the cell, atom and electron involved, it is like a Voice from Beyond ...calling them Home into the Light ...parting the veil of maya (of ego distortion / illusion) and letting them see their Divine Potential ...and then assist them through Sacred Fire to rise up to that Higher Frequency of expression. For they too have free will ...as every aspect of life has free will. You see this in global terms, as when Mother Nature claims her free will to seek Harmony and Balance within Nature ...regardless of the ego's free will. And so too do the smallest of nature ...the cells, atoms and electrons of form.

A ***Global Light Commanding Presence*** is the Divine Potential of the Gathering of Ascending Humanity. As the Next Life Wave approaches, with all the Transformational Events in Consciousness which foretell its coming, ***then this is the answer to Humanity calling for Restoration of Harmony and Balance!*** It involves an outpouring from the Spiritual Hierarchy and the Great Light Brotherhood, but also *from within Humanity* as a ***Global Light Commanding Presence***. We are all conduits for this answer to prayer / invocation ...the purpose for our collective Light Service!

Let us contemplate that ***a Light Commanding Presence is a Ray of Invocation*** ...of whatever is necessary to reach the Divine Potential. The Seventh Ray Dispensation contains the Ceremonial Ray of Invocation ...the rhythmic practice of becoming a Light Commanding Presence. Let us practice such Victorious Accomplishment as we sojourn together. Let us each claim to represent a Divine Ray of Blessing for Humanity. *Name that Divine Quality* ...as we affirm the following:

I AM a Ray of Divine _____!
This Ray anchors in this Plane of Existence
as a Flame ...*within and through* my Eternal Flame!
The countless photons composing this Quantum State Quality
joins with our global Light Commanding Presence, until all
involved each radiate this Quantum State of _____!

I AM consecrated to this Ray of _____!
It is my service to life in this Cosmic Moment.

Then we affirm our desired Victory in Light Service:

I AM a Ray of _____ ...*manifesting in this situation* ...in through
and around this person, place, condition or thing ...here and now!

As a Light Commanding Presence, I AM the Light of Victory
present here and now and I AM accelerating this (person,
place, condition or thing) into its Divine Potential!

I AM the Victory of its Divine Potential!
I AM it's Spiritual Freedom in the Light!

I AM the Eternal Flame present here,
in its full Multi-dimensional, Spiritual Agency!
I AM its Infinite Radiant Light, everywhere present!
I AM the Ascension of all life within my Light
...together, standing in the Light!

I AM a Light Commanding Presence!

I AM the Atomic Accelerator in action, here and now.
I AM the resolution of all karmic energies here present,
before they can act, manifest or longer be sustained.

As the Gathering of a global Light Commanding Presence,
I AM the Sacred Fire of all Divine Qualities necessary,
for the Spiritual Liberty of all involved, here and now!

VICTORY IS OURS! And SO IT IS!

Beloved Ones, as we invoke these Rays of Quantum State Light, let us also see, feel and deeply accept that *we are only that Light* ...formless in the Great, Great Silence and only the 'wave-function' of every electron of our being ...only a sea of photons manifesting the Perfection Patterns of our True Identity ...expressing our Divine Instrument 'outside of form' and 'empty of self, time and space'. From this Ascended and Free State, we serve 'in the world of form', where the electron exists in its 'particle-function', as we typically imagine daily life. 'Existing only as Light' is at the core of becoming a Light Commanding Presence, achieving the Victory of our Enlightenment.

The Victory of the Ascension is in utilizing the Eternal Flame and its Infinite Radiant Light ...free from self, time and space, a Sun of the Sun! Then, I AM gathering with all other 'Suns of the Sun' as the *global Gathering as a Light Commanding Presence* ...in union with the Royal Kingdoms of Angels and Elementals ...using the Cohesive Power of Divine Love, which then unites all life in its Ascended State. This is our Victory Statement!

This is ours to Command as a Light Commanding Presence!

And SO IT IS, BELOVED I AM!
