AFFIRMATIONS

I AM a mighty Forcefield of the Violet Fire
My karma is energy in motion seeking its freedom in the Light,
into my Causal Body, which is my Perfected Energies in motion,
a Celestial Momentum of all my good and perfect
thoughts, feelings, words and deeds.

Now my Violet Fire Forcefield transmutes all my returning karma
Before it can act, manifest or longer be sustained
This I do for my own Ascension.

The Violet Fire Forcefield of the Gathering of Ascended Humanity
Now transmutes all returning karma for larger gatherings ...
My family, my community, my nation and the world,
transversing all time and space within seconds.
This I do for the Ascension of Earth and Humanity!

I AM THE GATHERING OF ASCENDED HUMANITY
IN THE HIGHER FREQUENCY LOVE ORBIT OF VENUS!

Every cell, atom and electron of my Being is filled
with Spiritual Freedom ...and its Mercy, Compassion
and Forgiveness ...its Rhythm and Ceremony ...as well as
its Transmutation / Transformation of all imbalance
manifesting as distress, aging or disease into
an Eternal Life in the Light!

The Gathering of Ascended Humanity now
calls forth every Solar Christ Self on the planet ...
to ARISE, AWAKE AND COME FORTH NOW!

I AM Free! I AM Free! I AM ETERNALLY FREE!

The Violet Fire unlocks my limitless Potential for Divinity

I AM transmuting the cause, core, effect, record and memory of all
that is imbalanced in my world and in all the world.

Simultaneously, I AM Restoring the cause, core, effect, record and
memory of all that is of the Light, in my world and in all the world.

And SO IT IS, BELOVED I AM!

ASCENSION CONCEPTS

Inclusion in the Feminine Ray not only means including everyone but also the inclusiveness of totality ...seeing the wholeness of things and not just the addition of parts ...beyond the seven individual rays into the totality, wholeness and Oneness of the Twelve-fold Aspects of Deity. Expand! This is how the Feminine Ray teaches us entrance in Solar Consciousness and the Cosmic Moment we are in.

The Seven Chakra Suns from bottom of the Solar Spine to the top: begins with the Ascension opportunity from within the physical realm; then we learn Mercy, Compassion and Forgiveness, Rhythm and Ceremony of daily life; then Peace within the world of form; then Heart Centered Divine Love; then to create and affirm life with the Voice of the Great I AM; then to see the full Multi-dimensionality of life through Crystal Vision; and then achieve God Illumination at the Crown Chakra!

How is it that we become a *Temple of Cosmic Holy Spirit*? Within Solar Christ Consciousness, I AM in my Infinite Circle or Sphere of Light ...and *I AM inclusive of all life Living Free in the Light!* And where my Consciousness now has *Holy Communion with every other Consciousness* ...in Humanity and in the Angelic and Elemental Kingdom ...I may now bring the Holy Comfort of my Light in its full Union with the Mighty I AM Presence to all other life! I AM in *Oneness Consciousness with all life!* And then truly ...as I AM raised up so is all life raised up with me.

THE SCIENCE OF DIVINE CEREMONY:

I AM affirming: The Violet Fire unlocks my limitless Potential for Divinity! I AM transmuting the cause, core, effect, record and memory of all that is imbalanced in my world and in all the world. Simultaneously, I AM Restoring the cause, core, effect, record and memory of all that is of the Light, in my world and in all the world. The Transmutation by Sacred Fire leaves a vacuum that we immediately fill with the Divine Potential of that person, place, condition or thing!

Beloved Ones, Holy Communion is a Divine State of Uynion with the Divine. When I AM the tangible anchorage of Divine Light as Sacred Fire then I AM in a state of Holy Communion. Then, as my Eternal Flame gives forth its Infinite Radiant Light, which traverses the Earth, it also anchors itself as a tiny Focus of Sacred Fire in every cell, atom and electron of all life my Light embraces. Then that tiny Flame emits its own Infinite Radiant Light and the Blessing of Holy comfort is maintained ...as long a I AM in my State of Harmony and Balance. And then this process of Eternal Flame expanding its Infinite Radiant Light continue into the Eternity and Infinity of Holy Communion.

We know from quantum science that, on the sub-atomic level (the base of the Pagoda of Seven White Ascension Doves), different particles have different properties. Photons are the 'force-carrier particle' of Divine Light. This Celestial Force (referred to in science as the 'electromagnetic force') creates the bonds that allow the 'particles of matter' (quarks, electrons and others) to then form the physical Universe. This builds the atoms and from there all form, substance and matter. This is the Sacred Dance between the particles that are 'force-carriers' and those that are the actual building blocks of matter. This is the Divine Marriage of spirit and matter!

On a spiritual level, this Divine Force within the photon is the Cohesive Power of Divine Love ...which has the Ultimate Potential of 'uniting all life in her Ascended State'. This is a gift of Father / Mother God in the creation of the world of form ...a gift assimilated into creation through the Mighty Elohim and the Builders of Form. It allows that along the journey of the world of form there is an 'ultimate outcome' (Divine Potential) in the matrix between the 'force-carrier particle' (photons) and 'particles of matter' which allow these electrons and their quarks to bond into form and produce the physical universe.

The journey of the world of form was to come to its climax of Divine Potential ...and then join the Great Cosmic Inbreath and ascend into its next level of Divine Expression. This is the Cosmic Moment, we

now approach. This is the sub-atomic basis of the New Age of Spiritual Freedom ...Ascended and Free Earth in her Ascended and Free Orbit (or frequency).

'Ceremony' is a fundamental aspect of the Seventh Ray Age of Spiritual Freedom. Our scientific understanding, on both the physical and spiritual level, helps us understand this aspect of the Seventh Ray Age. For example, the Divine Ceremony of Transmission of the Flame can be explained by our Eternal Flame radiating its Infinite Radiant Light and landing as a tiny focus of our Eternal Flame wherever we direct it by the power of our Consciousness and our Attention. For within our Light is the 'force-carrier particle' (photon) that carries the Divine Potential of Cohesive Power of Divine Love uniting all life in her Ascended State! Imagine the Causal Power of that Truth, as we bath the planet (or any person, place, condition or thing) in our Light!

As well, the Ceremony of Holy Communion between all life is understood in this science ...that we commune with all life at the fundamental level of the 'bonding Forcefields' between sub-atomic particles making up all life. We can influence these quantum forces through our Invocation and Direction of Sacred Fire and its Radiant Light! This is truly communing with all life in a Holy, Transcendent Ceremony! ***This*** is the Seventh Ray!

PEACE OF A PERFECT SLEEP

Another Divine Ceremony is governing our Consciousness when we sleep. We may invoke and direct through our Mighty I AM Presence that we project our Consciousness to the Ascended Master Temples of Light! Here we partake of the Divine Ceremonies there, along any Ray of our choosing ...through Invocation to that Ray or its Hierarchy. Here we join the Great Light Brotherhood and their Angelic Legions in their Service to Life.

Or, just as we do between embodiments in the Divine ceremonies in the Spheres of Light, we may spend the night resting in the Mystic Ring of Violet Fire ...in an Celestial Ocean of Sacred Violet Fire. This Spheres of Light is within our Theme and Thoughtform of this Solar Year. Through our 'period of repose', we may Invoke and Direct that the Sacred Fire gently brings Transmutation / Transformation of all negative or imbalanced thoughts, feelings, words and deeds of our own making (and through the Laws of Reciprocity, that of all Humanity) ...and further releases us from the karmic / imbalanced thoughts, feelings, words and deeds of others. This generates the ***Peace of a Perfect Sleep***, free from personal,

national, cultural, racial or global karmic energies that otherwise may plague our thoughts, feelings and memories during rest and sleep.

This is exactly what happens when first released from embodiment, in the Sacred Fire Temples. This is now readily available to Humanity *during embodiment* ...as has been manifest before in the ***Temple Life of previous Golden Ages***. Now, besides the Temples of the Spiritual Hierarchy, we also focus on the Temples of Ascended and Free Humanity, anchored in Spheres of Light around Earth having been generated by the embodied 'Gathering of Ascended Humanity' globally. Again, with every inbreath of our sleep, we draw in the Maltese Cross of Solar Year Forcefield into ourselves and Humanity ...then on every outbreath we expand and projected the Mystic Ring of Violet Fire through our personal energies ...and that of all Humanity!

We affirm: During my rest through the night, I AM transmuting by the Power of the Cosmic Violet Fire, the cause, core, effect, record and memory of all imbalance within persons, places, conditions and things in the outer world. I sleep in the Peace of the Great, Great Silence and pray:

When I lay me down to sleep
I pray the Lord my soul to keep.
I rest within the Mystic Ring of Violet Fire
Transmuting anything less than my Soul desire!

Beloved Ones; the Violet Fire assists us in so many ways. But imagine that all through the night we could be transmuting the cause, core, effect, record and memory of all karmic debt and all attachments to the outer world of illusion. Let us sleep in the arms of the Violet Fire Angels, within the Solar Consciousness Realms of our White Fire Being. All through our rest we are actively transmuting the cause, core, effect, record and memory of all ego attachment ...and to any persons, places, conditions and things representing ego attachment.

With every breath of my rest, I invoke the Mystic Ring of Violet Fire to collapse into the Eternal Flame in the Heart Center and on every outbreath I expand and project the Violet Fire through all karmic attachments, setting that innocent life free into the Realms of Light within the Causal Body ...to live now an Eternal Life in the Light! Just as fire changes water to steam, this Activity is Higher Frequency Energy transmuting and transforming lower frequency energy (karmic attachments) and releasing it into its Ascension!

I may also do this in every moment of meditation ...and eventually every waking moment of daily life. On every inbreath the Maltese Cross of Solar Year Thoughtform collapses into its center within me. And on every outbreath, this same Forcefield expands out to its Infinite Circle of Light as the Mystic Ring of Violet Fire. On every inbreath is the Cohesive Power of Divine Love coming into the world ...and on every outbreath, I AM uniting all life in her Ascended State. I AM opening the Eye of Divine Liberty for all Humanity and hence I AM opening the Flame of Alpha and Omega in every heart ...the Flame of Immortality!

?? There are Quantum states of thoughts, feelings, words and deeds. There is hard matter and then there is Quantum matter, which esoteric teachings have called Etheric Energy or Substance ...just beyond the physical state. Quantum feelings are those emotions 'just beyond the ego- self feelings' that are all very common in daily life. They draw us towards Solar Christ Consciousness through allowing us into Solar Christ Feeling States ...which they carry with great Cosmic Momentum in their 'wave-function' Light Bodies.

As I AM raised up, so is all other life raised up with me! This Divine Law is also captured in our Victory Statement, as we affirm the Cohesive Power of Divine Love lifting all life into their Divine Potential ...Humanity, Angels and Elementals Ascending together! We steadily become the I AM Race, ...the Oneness Consciousness of every good and perfect thing manifesting equally and invoked equally through Humanity, Angels and Elementals.

? Once we have gained sufficient God Illumination and more than 50% of our energies are returning with their Divine Potential fulfilled (and thus may enter our Causal Body), this Ascension Chakra begins to release us from embodiment. Until then, energies returning less than their Divine Potential, express as karma (an energy in motion), which then is experienced as 'learning opportunities' in daily life. But now, in this New Age of Spiritual Freedom, such karma may be transmuted by the Sacred Fire before it can act, manifest or longer be sustained ...as the Gathering of Ascended Humanity is trained now to do.

??Feb Discourse on: Unseen *Sponsors* of 2021 are all the Spiritual Hierarchy serving on the Seventh Ray ...Lord Zadkiel and Lady Holy Amethyst, Beloved Saint Germain and Lady Portia, Lord Kamacura, Lady Kwan Yin, Mighty Zarathustra, Beloved Elohim Arcturus and Lady Diana ...the complete Cosmic Momentum of the Seventh Ray Age of Spiritual Freedom . these Mighty Being on the Seventh Ray ensure the Divine Forcefield available to the Gathering of Ascended Humanity then to be processed with the anchored Flame of Immortality within Humanity and the output is the Perfection Patterns of the Seventh Ray ...now expressed within daily life.

(us as a SOTS) On a physical level, the Sun of our local Solar System acts as a nuclear fusion reactor, that takes hydrogen as its input substrate and converts it into helium and light as its output substrate ...for the benefit of all the planets. The Sun itself is the constructor, as it retains its ability to continuously cause another such conversion. So too with us on a spiritual level, where as a Sun of the Sun we take in our input substrate of Energy, Vibration and Consciousness and create an output of Perfection Patterns that may solve any problem currently facing Earth and Humanity!

? feb. discourse by Beloved Lady Immaculata
those short and yet powerful ones you can give in 30 seconds. One of my favs and current is: ***"I Am Flame and I Am Its Radiant Light blessing the Planet with the Healing Power of Love."*** (or peace, forgiveness, etc. as situation calls for)

So I took note of these particular statements in Oct that portray elements of that simple affirmation:

"Imagine...there comes an epiphany when this Spiritual Level of Freedom' might sweep across the planet..." (ie Violet Flame, Blue Flame, etc.)

and

"...visualize each Light Server providing a constant flow of Perfection Patterns in to the world...everything that is necessary and sufficient for the Spiritual Freedom of Humanity." (Service of the Silent Watchers)

So I think **Beloved Immaculata** will have an important part or service to give going forward and especially in 2021 as She holds the Immaculate Concept for all life on Planet Earth; of the Divine Plan that is unfolding...especially that Humanity chooses *Light, Integrity, Goodness* over their opposite.

Many of us have experienced living "many life times" during this *one life time*...as waves of our unredeemed karma came into our lives for final transformation. When I look back at my 81 years, I can't believe I'm the same person. It's my impression that humanity as a whole, in just these short 9 months, is having that same experience *collectively *group karma/multiple lifetimes in one)*...so much of that old karma coming out to be loved free. You see/read/hear about this as we come to know about the lives lived of those who have passed during this time...not just from CVD, but others who have made their Transition...like John Lewis, Justice Ginsberg - and of course our beloved Ralph, Sylvia, Mary Engel.

And more than any other time in Earth's history, all that Humanity needs to transmute and transcend her imbalanced past is Here ...Now. And when that process is complete ...the Way will be paved for the New Wave. We, the "*silent watchers*" of our sister/brother humans will hold that perfect pattern (because that's what we do; that is our service and why we are here now)...we will hold those Sacred Keynotes of Love/Wisdom, Beauty/Order, Compassion/Comfort and Truth/Justice.

shared from the Tora: "*Justice, Justice - you must pursue.*"

*(maybe move this segment of **star of David** to Feb? ...as part of **being the Silent Watcher of Humanity under the training of the planetary and Solar Silent Watcher**)*

In our Global Light Service, we each become a Star of David where our Divine Instrument (a triangle pointing down with the largest

Chakra Suns at the top) overlays the Divine Instrument serving as the Template of Earth's Ascension ...seen as the Pagoda of Seven White Ascension Doves (a triangle pointing up, with the largest of these at the base with the Crystal Diamond sun of the Alpha and Omega Flame within the Gathering of Ascended Humanity at the top).

Let us begin with our Divine Instrument ...seeing Seven Lotus's unfolding as the Seven Chakra Suns. This represents all of our Solar Christ Self gently unfolding through Intuition, until we enter into and engage the 12 Aspects of Deity. These Seven Lotuses align smaller to larger Chakra Suns going up the Solar Spine ...forming a triangle pointing up.

Over-laying this is a triangle pointing down, the Thoughtform of the Pagoda of Seven White Ascension Doveslargest Dove at the bottom (all sub-atomic life) to smallest going up (the Diamond Crystal Sun of Ascended and Free Humanity at the top)

together, forming the Star of David and fulfilling the Laws of Reciprocity "as I AM raised up, so is all like raised up with me" ...as I Ascend my Solar Spine so too does all life Ascend into their Divine Potential!

On an individual level, we see Seven-fold rotating spiralling Lotus Flames representing the Seven Chakra Sunsfrom smallest unfolding Lotus at the base of the spine to largest Thousand-petaled Lotus above the head ...aligned along our Seven-fold Solar Spine, declaring 'I AM PRESENT'! Our River of Kundalini Fire spirals upwards into the Higher Frequencies of Solar Christ Consciousness.

Superimposed over this is the Pagoda of Seven White Ascension Doves representing all life on Earth ...with the smallest Dove's shining White radiance at the top (representing the Gathering of Ascended Humanity) through to the largest of the Seven White Ascension Doves at the base of our spine, representing basic life structure in the sub-atomic world of 'wave-function' bonds and their corresponding particles of electrons and photons.

Taken together they form a Multi-dimensional Star of David with an upward triangle (Seven Chakra Sun Lotuses) ...and downward triangle Pagoda of Seven White Ascension Doves) of Light and Sacred Fire!

? *for Ascension concepts for March??* Add onto " the right and perfect people in the right and perfect place, doing the right and perfect thing, in the right and perfect way and the right and perfect time." Faith in *this Truth is the Divine Matrix we serve within. This is the Gathering of Ascended Humanity and one with the Spiritual Hierarchy and the Great Light Brotherhood. This is the Divine Order of the universe now unfolding on Earth. This is the Divine Alignment of all Suns* ...including the Eternal Flame within every human heart, even the tiniest spark emitting the tiniest Light. We remain free of condemnation, criticism and judgment as we never really know how others are adding in their way to the Ascension process. Sometimes a crisis will happen so that we see the silver lining and move on from that silver lining to Higher Frequency understanding.

(End with For Feb ?? and at the end may use this)

Beloved Ones, here we present the second half of Lord Maitreya's *Blessing to the Multitudes, 'on Love'*. The first half was given in the November Journal. This 'library of past Teachings' is part of the Gathering of Ascended Humanity 'getting our Celestial bearings' around Completion and New Beginning ...and the Next Life Wave Coming!

"Oh, if all of this Love has been drawn and invested in you, then do you not think that you are an important part of creation? When the Great Cosmic Intelligence, Whose Heart and Consciousness has come into being and formed bodies for eons of time, Who enfolds you with Love to sustain and develop those bodies and assigns the Members of the Angelic Host, the Devas, the Cherubim and the Seraphim to guard this Star, and keep it in its orbit; when Mighty Beings like Sanat Kumara should choose to remain in exile century after century ...do you not think that the Light in your heart is loved? Do you not think that you have been created for some great Cosmic Destiny? Do you not feel that Love so invested should now have fit return?

Now is the hour when the sons and daughters of Humanity shall rise and, turning their attention to their own God Self, ask that they may be shown without mistake what they, as individuals, shall do ...and for what purpose each one was created! Is it time that the knee of the 'outer self' bend before the Holy Christ Self! I am the Cosmic Representative of the Holy Christ Self and in all humility, ask that the Will of that Holy Christ Self now be done through the outer self! I think We have come to that day of self-surrender when Humanity

bares her head before God, bends the knee before the Inner Christ, and accepts the joyous, happy, harmonious responsibility of fulfilling the Divine Plan ...for which Love has sustained us for millions of years!

It is not enough to be harmless! It is not enough to be passively good ...to cease to do evil! Those who respond to the Banner of the Cosmic Christ must actively be doing good!

The Second Coming of the Christ is individual! The shining Christ Self of each one stands waiting to externalize, through the physical and inner bodies which It has sustained, purified and guarded for centuries, a portion of that Great Divine Plan which cannot be manifested through any other Lifestream. Each of you holds a thread of the Tapestry of Life which must be woven into daily life. And great will be the hour when the Cosmic Words: "It is finished," shall be spoken.

And I may then offer to the Universal Source this Planet Earth and all upon Her and say: "Into Your Hands, O Father Eternal, do We commend this Earth and these Immortal Spirits!

Oh, My beloved ones, within your heart beats Life! That Life is the magnetic pull which cannot be denied by any intelligence in this world. It is the Master Power of the Universal cradled within your physical heart! Look upon that Life for a moment! Stand before the Holy Tabernacle within your heart! Say, as Beloved Jesus did, "For Thine is the Kingdom and the Power and the Glory, forever" ... and FEEL it!

It is the Master Presence of Life to which every Ascended Master and Cosmic Being, every Archangel and Deva, every Cherubim and Seraphim in Heaven will respond. It is the motivating Agent of the Primal Substance of Life ...which makes the Sacred Fire of Creation.

What is this Sacred Fire you use so freely in your worded expression? Merely qualified Life! Your human creation is also qualified life, imperfectly qualified through thought and feeling. The Sacred Fire is the same Life but qualified with Harmony, with Faith, with Peace, with Healing. It is neither mystic nor magic!

Sanat Kumara is a Lord of the Flame. He came to make each one a Lord of the Flame of Life within your heart ...in order that you may qualify the Sacred Energy that flows into your heart pure, harmonious and perfect, with only constructive qualities ...and then

send it forth to fill your aura with Light. This Sacred Light Energy is Substance; It is Supply; It is Healing; It is Peace; It is the Master Power of the Universe! If you do not qualify this Life constructively; if you allow It to flow forth into your thought and feeling worlds and there be crushed into forms of discord, you are not the Master, but rather the victim, of your own life energy!

Let us now rise and be practical in our understanding! Life is flowing! Every electron that enters your body becomes your responsibility to the Universe and takes on the stamp of your own Divine Pattern. It flows out into the Universe through your world, and through the Law of the Circle, returns to you. So be mindful as to what you are contributing to the Universe. If it is shadow, depression, irritation, annoyance, or confusion, STOP, in the Name of God! YOU are the HOPE of this world! You have signified before the Cosmic Law that you are desirous of becoming Lords of the Flame.

Accept joyously the 'free Energy of Life' which is yours to share. When in Higher Spheres you are privileged to look with open eyes at the Electronic Stream of Pure Energy that flows through the Lifestream and could affect an entire city, you will understand something of Our feeling when We must stand silently by and see that reservoir of God Intelligence and Energy - pure and perfect - sweep into the qualifying centers that create an aura which I shall not describe. The power of a city or nation is in the hearts of its people. The power of a Sanctuary is in the hearts of the worshippers. The power of your Life is in your own heart! The Peace of a home is in the hearts of the family. The healing of the sick is in the hearts of the afflicted!

Won't you help Me to release that Flame within the heart? Let It flow as easily as you turn on the switch and illumine your home. Rest on the Bosom of your own God! Lean on those Everlasting Arms! Stop trying mentally, but rather earnestly, humbly, honestly and sincerely stand before that Light! Place your hand over the beat of your heart and accept the Truth in the words of the Avatar you have followed for centuries, "For Thine is the Kingdom and the Power and the Glory forever!" THERE IS THAT POWER ...yours to use ...yours to redeem a city, a nation - a planet!

In the Name of Beloved Lord Gautama, Lord of the World ...in the Name of this Sacred Office I hold ...in the Name of Beloved Kuthumi, World Teacher and of our Beloved Ascended Master Jesus ...I Bless you now and forever!

For feb or march ...??

Within the Sphere of Influence of the Feminine Ray,
I AM the Sacred Sisterhood of Angels, Elementals and Humanity!
I AM the Gathering of Ascended Humanity ...One with the
Royal Kingdom of Angels and Elementals!

?? for Jan? Ascension Concepts

For the ascension of the entire Fourth and Fifth Root Races to occur ...while the Sixth and Seventh Root Races are also coming into embodiment ...there will appear to be more embodied souls that originally planned for ...what would be called 'overpopulation'. But in order for a collective Ascension of an entire planet and her Race of Humanity, *there needs to be a 'gathering in one place ...at the source of where the 'great fall' took place ...in embodiment.* Then the *cause, core, effect, record and memory of the 'great fall' can be forever transmuted within all life* ...and thus, all Ascend together, standing in the Light! And for those who cannot or will not make this choice through free will, then a new planet operating at a slower frequency is already prepared for them (...and we see this separation through free will choice all around us).

This process would be well planned and would begin with both a 'great gathering of souls on Earth' as well as a raising up of those embodied souls. And we have both processes underway ...population growth and a steady raising of Consciousness ...until the Spiritual Hierarchy sees we have a 'critical number in embodiment' and a 'critical level of raised Consciousness' ...and then we would have fulfilled the requirements of Cosmic Law for the Ascension of Earth and Humanity into their next Divine Potential ...along the process of the Great Cosmic Inbreath.

And, as more people gather and the greater the elevation of Consciousness continues ...then more and more of the past imbalance comes up to be set free and be included in this 'mass Ascension'. As this imbalance of the past reveals itself, it brings up the thoughts, feelings, words and deeds of the past *'as if they are real now'*. This is the source of great angst, where terrible things of past eras (the falling of great civilizations, of previous ages, of entire continents such as Atlantis and Lemuria) ...it feels 'as if they are happening now' ...even though at present there is great acceleration of Humanity's Consciousness. This causes great confusion and a great divide in the population.

For march and the Resurrection and the Life ...*used in Jan* but here as 'a lead into further discourse'. ?

...This is the Resurrection and the Life. This is what we now do for the entire Pagoda of Seven White Ascension Doves! Imagine the Higher Frequency Expression of *every aspect of life on Earth* that one can imagine. This is the Resurrection and the Life. This is the *promised Christ Principle 'returned'* ...as Heaven on Earth!
