

INFINITE CIRCLE OF LIGHT

I AM an Infinite Circle of Light.
I AM Ascended and Free.
I AM inclusive of all life,
living free in the Light.
I AM THAT I AM

From within this Infinite Circle of Light:

The Gathering of Ascended Humanity,

In union with the Royal Kingdoms of Angels and Elementals,

Through the cohesive Power of Divine Love
uniting all Life in its Ascended State,
Now emerges into Humanity as the Theme and
Thoughtform of this Sacred Month and Cycle of the Zodiac:

THE MIGHTY MANUS

DIRECTING THE EVOLUTION OF THE ROOT RACES

ACROSS OUR BRIDGE TO SPIRITUAL FREEDOM!

SACRED TEMPLATE

BREATHING STATEMENT

I AM Inbreathing and Absorbing *the Wisdom of the Manus*, in

I AM Expanding and Projecting *the Wisdom of the Manus*, in
guiding the Root Races across their Bridge to Spiritual Freedom.

AFFIRMATIONS

I AM!
I AM that I AM!
I AM an embodied Being.
I AM Ascended and Free Being.
I AM *together*, standing in the Light!

I AM a seeker of Divine Truth.
I AM the expression of Divine Truth.
I AM the *total* application of Divine Truth;
I AM the Divine Truth of Ascended Humanity.

I AM an Eternal Flame!
I AM its Infinite Radiant Light!
I AM a Matrix / Hologram *Sun of the Sun*.
I AM the Matrix / Hologram Sun of New Earth.
I AM the Vehicle of the Manu, anchoring the
Sacred Theme and Thoughtform of 2016,
within the Star of Spiritual Freedom!

I AM the Multi-dimensional Vehicle of the Manu.
I AM a Vehicle for the Divine Direction of the Root Races,
each Root Race finding their Divine Potential on Earth
within the *ever present Great Cosmic Inbreath!*

I AM a Sun of the Sun, and as my Sun unfolds, I see the Cosmic
White Dove across the arc of my New Consciousness, radiating
the gifts of Holy Spirit into my open and receptive awareness,
granting me all the attributes I require to truly *anchor in my
daily life the Governing God Intelligence of Divine Love.*

ASCENSION CONCEPTS

The Cosmic Forcefield that I AM *is Multi-dimensional*; moving, breathing, surging, vibrating, and spinning ...an Indivisible Flowing Wholeness of Divine Love, Wisdom and Power.
I AM completely assimilating this Divine Forcefield!
I AM completely assimilated by this Forcefield!
I AM the Inbreath / Outbreath of this Activity.

I AM Seven Suns, within Seven Suns, within Seven Suns!

My Seven Chakras are my Seven Suns embodied on Earth. They function like the seven planetary Suns of Helios and Vesta; which themselves function like Seven Suns of Alpha and Omega; which themselves function like the Seven Central Suns of the Great Central Sun, Elohae and Eloha.

I AM truly a Child of the Sun!
I AM in Divine Alignment with
every aspect of my Spiritual Freedom,
every aspect of my Ascended and Free Self!

As my Eternal Flame and its Infinite Radiant Light,
I AM Present within my cells, atoms and electrons ...as well as ***I AM Present*** within my I AM Presence, Causal Body and White Fire Being ...in the Central Sun and Great Central Sun.

I AM empty of self and I AM
the Violet Fire of Spiritual Freedom!
I AM empty of time and space and I AM the
Eternal Violet Fire: here, there, everywhere present!

This is my Spiritual Freedom and I AM aligned with every aspect of this, ***my Eternal, Divine, True Identity!***
This is Humanity's Spiritual Freedom and I AM aligned with every aspect of this, ***Humanity's Eternal, Divine, True Identity!***

I AM Restored! Humanity is Restored. Earth is Restored!

And SO IT IS, BELOVED I AM!

Let us see Ascended and Free Humanity, as would an Elohim or Silent Watcher, seeing through the ***Eye of Crystal Vision***. We are the observer, of a scientific equation expressing itself ...of seeing 'the electron' (Energy, Matter and Intelligence) where we choose to have it express. We see the *electron of Earth* as a shining Sphere of Light, preparing to make her *quantum jump* to her orbit of Divine Love. Guiding her are all the Cosmic Powers within the Forcefield / Thoughtform of 2016. *And I AM all of this embodied!*

Again, every level of our Divine Being is involved in this Thoughtform. Each of us is the Solar Christ Self as the ***Sun of the Sun*** ...a Blue Diamond Core, surrounded by a Golden-Yellow Flame, all enfolded within a Cosmic Pink Radiance. Together, standing in the Light, in Coherently Connected Divine Consciousness, we form the ***Sun of Earth*** in the same Three-fold Flame expression. This ***Vehicle of the Manu*** is held in the embrace of the ***four-square Forcefield of the Mighty Manu***, who guide the destiny of the Root Races. Around this four-square Forcefield is the Mystic Ring of Violet Fire which now contains every White Fire Being of Humanity. And around this Infinite Circle of Light are the New Inner Realms of Ascended and Free Earth ...the Mighty I AM Presence of every one of Humanity, expressing their Causal Body as the Great Temples of Love, Wisdom and Power!

We feel the ***Divine Alignment*** with all of these Divine Aspects of ourselves, through the assistance of Beloved ***Polaris and Magnus*** at the North and South Poles of this Forcefield. We feel this ***Star of Spiritual Freedom*** stretch from the depths of daily life ...the cells, atoms and electrons of the Fourth and Fifth Root Race karma, yet remaining on Earth ...through to the Higher Frequency Love Ray pouring in through Venus and her Beloved Sun, Krishna and Sophia ...signaling the entrance of the Sixth / Seventh Root Races.

Given this foundation, let us begin this month's Ascension Concepts with a focus on the Higher Frequency Love Ray now pouring in from Beloved Krishna and Sophia, preparing the Way for our Ascension into the Orbit of Venus. These God Parents have blessed Humanity through endless millennium. Beloved Krishna introduced the ***Principle of the Cosmic Christ*** to Earth. It has been

further developed by the many embodiments of the Cosmic Christ along various religions, through various Golden Ages. Regarding our endless Service to the Light, Beloved Lord Krishna gave the following Treatise. It is ancient but was *again* given to the Chelas of the Ascended Masters in the Bridge to Freedom Teachings, August 1959. It pertains equally today, *in this very moment*, as we live *our Light Service beyond time and space*.

Beloved Krishna's Treatise: Service is the Law of Life!

“To Children of God who walk the Path of Life and in that Journey seek the purpose for their being; Greetings!

Service is the Law of Life. From the moment individualization takes place, ***the Flame*** begins to accept the responsibility to give a balance to the Universe for the privilege of drawing breath, using Life and sustaining a separate existence by which understanding and illumination bring freedom to the consciousness.

As the Law of one's being is Service, the experience-life will constantly make it necessary for the individual in some manner to serve his community, his nation, his fellow man. Individuals who do not choose to serve are temporarily taken out of the race of Life until they will accept again their responsibility to be conscious servants on Life's path.

All the associated heartache, disappointment, disillusion, and failure comes because the natural drive to serve within the lifestream has not been illumined to a point where the individual knows that ***service to the Godhead alone*** is the ***Law of Being*** and the ultimate purpose for creation and sustained Life.

When man serves individuals, when man serves a nation, a King, the presiding head of a country—*he serves form*, and the return will always contain the imperfection which such *externalized form* finds at the heart center of its being.

When man serves God, his service will take him into the presence of individuals, nations, monarchs, and he will greatly benefit them all, knowing that neither his reward nor his ultimate goal will come from his beneficiaries.

And those who now serve through duty, through moral exactitude will one day understand God and serve Him through Love. The physical Sun is shining in your Heaven. Mankind is the beneficiary of its light, but the Sun shines for the glory of God. Helios (Whose aura is the Sun to the Earth) is not cognizant of the many who benefit by His Presence, nor of those who curse the light that parches the fields and illumines the dark doings that prefer the shadow. His service is to shine for the Glory of God, and then He knows no disappointment because there is One unfailing Source of Gratitude and Love and Constancy ...and that is the ***Universal First Cause***.

To serve God does not mean to disassociate oneself from one's fellow man nor cast off the obligations that experience-life has called the soul to accept. But *it is the motive* of your own life, action and being that is crucial. Just as you set a thermostat, let us set our motive by the desire to serve the Universal First Cause of Good.

Whenever you meet animate or inanimate *good* ...then enrich the Cause of Good ...but not to the point where you expect return from the object, which benefits by your Love of God. For your return will always come from the Sun of your own Being.

How many brave beings have missed the mark by not understanding the Law of Service? In each Nation today, there are many serving their own desire for authority in the creation of form through thought and feeling. Yet they must again dedicate their soul and nature to ***Service of the God-Purpose***, as the Sun does, before they shall *come again to peace*.

Service is the expansion of the Threefold Flame of one's Being; it is the externalization of energy waves. And the Flame will bring on its return current the vibration of that which is served. Two individuals standing on the same spot, performing exactly the same physical acts, can receive an entirely different return current ...determined by the Motive or Force which they have decided to serve preceding the activity.

The one dedicated to serving God's Cause in bringing happiness to life can render the same physical ministrations and yet be utterly

relieved of any feeling that a recompense shall come from the object so benefited.

Another, with equal sincerity, seeing a need for ministration, desiring to relieve some need apparent in its externalized objective, does not center his service and dedicate it Godward, but rushes forward, fills the need, then—having served the limited—receives back into himself only the gift that the imperfect can offer, and if he receives none, is embittered in his service.

I have come and remained in your civilization (as the various embodiments of the Cosmic Christ) because My Love of the Father of Light is great enough that I would bring to your race the Gift of His Presence. And when My work is done, I shall leave; but neither your race, nor your time, nor your failures, nor your successes, shall enter into the quality of My Service.

If there be one or a million (in service), it is no matter. And one day when you feel likewise, you will know Peace. For Peace comes only when, to the best of your ability, you are endeavoring to serve the Cause of Good, externalize it and have no concern with any external activity in relation to its effects upon your Service.”
- (Beloved Lord Krishna)

So dear ones, let us focus wholly on our Light Service to the **First Cause of Love** ...the Spiritual Freedom of Humanity and all her karmic energies yearning to be free. With this prompt from Beloved Lord Krishna, in visualizing the Thoughtform of this Solar Year, let us *see and feel* the importance of its *Multi-dimensional activity* ...shifting, moving, breathing, expanding and contracting, in its centripetal and centrifugal action ...rather than to somehow memorize it accurately. In our **First Desire to Serve**, we may all envision the Solar Year Thoughtform slightly differently at any given moment ...depending on the shifting activity we attune to within that moment. Our Unity in Service is not necessarily in seeing it the same ...but in our **exact same Love of Service to First Cause**. This is our Unity ...our Coherently Connected Divine Consciousness ... **together, standing in the Light!**

The Mystic Ring of Violet Fire is the Focus of Service of our White Fire Being. We rejoice in this, *as the White Fire Being has*

never before drawn this close to Earth ...normally serving at much Higher Frequency Realms of Light. This proximity proclaims that we are ever closer to the final Mighty Cosmic Inbreath we have awaited. Let us observe in greater detail this aspect of our Theme and Thoughtform of 2016 ...our **Gathering of White Fire Beings within the Mystic Ring of Violet Fire!**

This Celestial Circle of Violet Light itself has Seven Spheres of Influence. Each Ray of the planetary Seven Rays is represented within **the Source of Spiritual Freedom** ...as this Divine Dispensation *plays through each Ray*. In true multi-dimensional fashion, each of these Seven Spheres within the Mystic Ring are perfectly aligned with their particular Sphere of Influence with the Cosmic Causal Body of Ascended and Free Humanity *around this Violet Forcefield*, ...around our New Sun of Earth, in her New Heavens. *Feel this Synchronicity* ...of the Mystic Ring of Violet Fire and its surrounding Causal Body Spheres of Influence.

The Mystic Ring of Violet Fire represents the Presence of the Central Sun and its Sphere of Influence ...within the Great Cosmic Inbreath at this Cosmic Moment. It was to the Central Sun that Beloved Saint Germain travelled in Consciousness to seek this Divine Dispensation of Spiritual Freedom. *And now this Realm of Light has travelled to us!* Though it, Beloved Alpha and Omega assist us as **Builders of Divine Consciousness** on Earth.

Again we affirm that around this Mystic Ring of Violet Fire are the New Inner Realms of Ascended and Free Humanity ...where the Mighty I AM Presence and its Great Causal Body serve all Humanity. Such a Divine Alignment (of the Divine Aspects of Self) opens the door for the *inner experience of each one of Humanity* to reach to the Heights of the White Fire Being ...through the Mighty I AM Presence and its projected Presence within daily life ...the Solar Christ Self. Think on this Reality and how, through our **Light Service to First Cause**, each one of Humanity has such Divine Potential ...to see *right now* the Light of his/her own Great God Self!

Humanity is always ‘*onwards and upwards*’!

And, SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF THE ANGEL OF RESTORATION: SPIRIT / SILENT WATCHER OF THE VEHICLE OF THE MANUS...

I AM of the Realm of Silent Watchers and I come as an aspect of Cosmic Holy Spirit. I may too express my Energy, Vibration and Consciousness in the form of the Cosmic White Dove, presently expressing across the dawn of New Earth, as well as upon the dawn of your Higher Consciousness. My Cosmic streams of Electronic White Light may also appear as a *White Angel Presence*, whose wings flood the *Arc of the Dawn* of New Earth ...as well as touch the hem of Humanity's Consciousness across *the arc of her forehead*. Hence, I AM also known as an Angel ...the Angel of Restoration.

In my service to Earth, I specifically hold the *Immaculate Concept for the Vehicle of the Manu*. Please allow an explanation as to why I took up this *specific* Service to First Cause. The Consciousness of Humanity is what projects the current reality of daily life upon the 'screen of life' ...that what 'seems real' to Humanity. Humanity is in *recovery mode*, from the 'great fall' in Consciousness. It was this 'great fall' that continues to hold up Earth's Divine Plan. The core of *Restoration of Earth* (restoring this error) is the progression of the Root Races within Humanity, *which is now being accelerated*. The Resurrection and Ascension of Humanity's Consciousness through this Service is my focus.

I see Ascended and Free Humanity ...the Coherently Connected Divine Consciousness of all Solar Christ Selves ...forming the Sun of Earth. This is the *Holy Grail* as a Multi-dimensional, Matrix / Hologram, that which gets *filled with the Divine Light of Holy Spirit and restores the world*. This Divine Life Essence is the substance of Holy Communion with the Higher Frequency Aspects of one's self ...now for all Humanity rather than the few!

The Cosmic White Dove of Holy Spirit hovers upon your Consciousness in the Thoughtform / Forcefield we currently serve in order that you may fulfill your part of this Holy Grail for the sake of all Humanity. And for those within Humanity who *choose by free will* to decline this 'restoration at present', they will have further opportunity to choose this Ascension Path on a slower course of evolution, on a surrogate planet / frequency / orbit than what the Earth now transfigures into ...that of Divine Love!

In the original Divine Plan, the *Vehicle for the Manu* may have been a highly prepared Avatar ...a 'body' for the Manu to physically walk amongst his people. This would have naturally been at the *conclusion* of one Root Race using Earth as its schoolroom for learning ...and the next Root Race ready for its entrance into this place of learning. However, as we prepare to restore this original Divine Plan, *we presently face a more complex activity!* This involves the Ascension of the 4th and 5th Root Race, as well as the entrance of the 6th and 7th Root Race onto New Earth ...all while Earth makes her quantum jump to her Orbit / Frequency of Divine Love.

This required a change of plan by the Spiritual Hierarchy. Many millennia have passed; with many variations of this Plan expressed ...and here we are at this current *acceleration push*, restoring Earth to her Divine Potential. We deal now with *four Root Race transitions*. I AM the Keeper of that more complex, Multi-dimensional Immaculate Concept and its manifestation currently entering the world of form. And you are its expression on Earth!

This involves the Cosmic Christ and his Disciples becoming the Governing God Intelligence of Divine Love throughout the world. This involves anchoring and expressing *the Great Law of Life* ... that *it is Energy, Vibration and Consciousness that decides the world* ...where a Governing God Intelligence sees the electron *manifest* where *such Divine Intelligence chooses*. This is the Love, Wisdom and Power of the Three-fold Flame in Action!

But with the complexity of this current Divine Plan of the Spiritual Hierarchy, there was needed a Multi-dimensional Matrix / Hologram of all the Root Races involved. The Vehicle of the Manu must therefore be a more complex Activity of Coherently Connected Divine Consciousness, embodied into the Fourth and Fifth Root Races (and one with both its Original Perfection Patterns as well as its present karma needing release) ...as well as completely Unified with the Perfection Patterns of the Sixth and Seventh Root Races ... and their entrance onto a platform / Matrix / Hologram of Divine Love that can sustain such Perfection Patterns and allow these two final Root Races to flourish for the Glory of God.

So the Gathering of Ascended Humanity is this Vehicle of the Manu and does meet this criteria needed for Victory. This is a *Vehicle*

*of Multi-dimensional Divine Consciousness, understanding and expressing the Energy, Vibration and Consciousness of the Manus ...as if They walked the Earth through your Creative Faculties. Whether a Lightworker principally focuses on the 4th and 5th Root Races and the need to purify their karma (as well as express their Perfection Patterns) ...or, one focuses on the entrance of the 6th and 7th Root Races ...the collective, global **Vehicle of the Manu must accommodate it all** ...be aligned with it all ...be connected with it all (the Celestial Glory and the heartache, as was Beloved Jesus), so that we may truly express the **Law of Resonance** ...‘**As I AM raised up, so is all life raised up with me**’.*

I invite you to merge your Consciousness with mine as we co-create this Vehicle of the Manu ...as this Multi-dimensional Matrix / Hologram of Divine Love. You are the Divine Instruments of my Being ...my expression of Divine Restoration ...my expression as the Angel of the Presence ...my **Activity of the Silent Watcher of the Transformation of the Root Races** ...into Humanity. And as we unify in Divine Consciousness, together, standing in the Light ...you may also express as me, serving Earth from a Higher Realm of the Silent Watchers. Here, you will be very close to your own White Fire Being and its Sphere of Influence within the Mystic Ring of Violet Fire. Here you look out to see your Mighty I AM Presence and its Cosmic Causal Body expressing as the New Inner Realms of Ascended and Free Humanity ...whose Temples invite all Humanity into her own Spiritual Freedom.

Beloved Ones, we have all come to restore the connection of Humanity with her Great God Self ...and specifically to restore the connection with the Manu who represents the particular Perfection Patterns of the specific Glory of that Root Race. This leaves four distinct sets of Perfection Patterns represented by the four Manus: Lord Himalaya; Lord Vaisasvata; Lord Meru; and Lord Saithru. It is asked of you to inbreathe, absorb, expand and project *all of these Perfection Patterns*, using the totality of our Indivisible Flowing Wholeness. Each of you may specialize in one or more of these sets of Perfection Patterns, but collectively, this global Matrix / Hologram Vehicle of the Manu *embodies them all!*

Let us rejoice **in our service** with the Mighty Manus. Reminded by Lord Krishna about service, let us live **in the now** of our own

Spiritual Freedom and serve for the Glory of God and our Oneness with Universal I AM! Let us live our Three-fold Flame as the Governing God Intelligence of Divine Love ...that we are (I AM!) the pure, consecrated *conduits for Infinite Power, Infinite Wisdom and Infinite Love* ...knowing there is only **Victory in the Light!**

Each of us brings a specific portion of this Infinite Love, Wisdom and Power, whether embodied as a Solar Christ Self ...or, as I do, serving within the Spiritual Hierarchy of Earth. But **together, standing in the Light**, we anchor *its totality of Sacred Fire* onto Earth, at this point of her Transfiguration into Divine Love / Oneness Consciousness. I AM the Angel of Restoration and I AM serving *through your Consciousness* ...even as you serve the Light *through my Consciousness*. My Wings are forever spread across your Creative Faculties, deep into your Consciousness of daily life!

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED LORD SAITHRU: REPRESENTING THE PLAN AND PURPOSE OF THE MANUS...

Dear Ones, you carry many titles in this embodiment ...Children of the Seventh Ray; Friends of Freedom; Disciples of Holy Spirit; Priests/Priestesses of the Order of Zadkiel; Children of the Sun; Ascended and Free Humanity. I greet you as holders of all of these Sacred Honors and add one more: *Precious and Holy Vehicle of the Manu*. Here I address the Higher Frequency of your Solar Christ Self, in full Union with its Mighty I AM Presence, Causal Body and White Fire Being! In this Holy and Precious Vehicle of Divine Consciousness, we are One in Coherently Connected Divine Consciousness, in the One Love Frequency of the Cosmic Christ. This is our First Cause!

Here I address every aspect of your Higher Frequencies from within every aspect of my Higher Frequencies. All of this Multi-dimensional Oneness is transposed into the Thoughtform of 2016 ...where our White Fire Being serves within the Mystic Ring of Violet Fire; our

Mighty I AM Presence and Causal Body serve as the Temples of Ascended and Free (the New Inner Realms of Ascended and Free Earth); and our Solar Christ Selves serve within Humanity in daily life. Here we are serving from our Multi-dimensional Oneness ... and, awakening all Humanity into the Multi-dimensional Oneness of her own Divine Being!

Love and Spiritual Freedom are synonymous. Love sets the Path or Cause ...and Spiritual Freedom is both the end result and *the glorious effect of the journey all along its path*. The Cosmic Christ has served the Cause of Divine Love over many millennia, and now we come to finish the results. Spiritual Freedom is our development within an environment of Divine Love. On our Ascended and Free Earth, we are (I AM!) free to explore the endless Multi-dimensional Realms of our own Divine Being, as well as the levels of Divine Consciousness of any Perfected Being or Realm of Beings. The Seventh Ray of Spiritual Freedom comes to finish the work of Holy Spirit ...so that endless Peace remains the everlasting result (...the reversing of the 6th and 7th Ray within The Law of Precipitation).

Love grants us a Cloak of Invisibility against the psychic and astral imbalance, whose effects continue to be permanently purified. The Theme and Thoughtform of 2016 delves deep into the cells, atoms and electrons of the 4th and 5th Root Races, including the psychic and astral realms left over from their era (of the seemingly endless karmic wheel). We replace this lower reality that stifled spiritual adventure through fear, by restoring the Inner Realms of Light of the collective Causal Body of the I AM Race! In this service we embrace our Mantle of Protection, our Ring Pass Not of Cosmic Christ Lightning and our Cloak of Invisibility. This is our *Ascended Master Service to the Light*, where like Lord Michael we may include any aspect of karmic imbalance in our service, yet *remain fully within the Peace of our own Spiritual Freedom*. We continuously guard against ego and spiritual pride, as these are the gates for imbalance into our presence.

Remember your Mighty I AM Presence and White Fire Being know only Perfection Patterns and nothing less ...*eyes too pure to behold iniquity* (biblical). These Higher Aspects of yourself have brought this Immaculate Concept (of *seeing only Perfection Patterns*) right to your doorstep ...knock and the door is open to you. These aspects

of our Divinity are as close as our thoughts and feelings in holding the Immaculate Concept for this Forcefield / Thoughtform of 2016.

The Mighty Manus are the Governing God Intelligence of Divine Love through all the Root Races ...guiding, guarding and directing each Root Race into their Divine Potential fulfilled. All Souls of each Root Race *are now migrating into the Energy, Vibration and Consciousness of their Divine Plan* ...along all the avenues of daily life. Visualize and feel this ...and, that Ascended and Free Light Service is the engine which propels this entire Activity of Transformation *forward into its Higher Frequencies*. Affirm:

As the Governing God Intelligence of Divine Love,
I AM that Forcefield reuniting all life in her Ascended State.
I AM reuniting each Root Race into her Ascended State,
each one in their right and perfect place along
the present Great Cosmic Inbreath.

Even as I AM transformed into my Light Body, so is
each Root Race transformed into the Perfection
Patterns of their Mighty Manu.

And, So It Is!

Dear Light Servers, *time and space* are tools for grasping the dense physical world of form. They are coordinates that keep embodied life understandable, measurable and predictable. They also restrict further Spiritual Freedom beyond the physical. This is similar to using early elementary math to venture into calculus or astro-physics. Early math was useful and necessary at a point of development, but then only restricts progress ...if continually used beyond its usefulness. So it is with *time and space* and attaining Ascended and Free Consciousness. The Spiritual Hierarchy asks that you become the *pioneers of living in this new land beyond self, time and space* ...the Buddha's ***Pure Land of Boundless Splendor and Infinite Light!***

As a Manu of an incoming Root Race, I desire this *veil of Maya* (of time and space) *to be lifted*, so that my beautiful Race of I AM Beings (6th Root Race) can enter their Garden of Eden, and nothing less. The biblical ***tree of good and evil*** was not only curiosity about a source

other than the Great God Presence (the illusionary incentive behind the ‘great fall’ in Consciousness, presented to the 4th Root Race in a beguiling fashion) ...but was also the **tree of time and space**. Life had to adjust to this new lessor reality by allowing the mind to have certain coordinates, else it would be totally confused, bewildered and disoriented. Time and space kept order, but restricted Spiritual Freedom.

The Children of the Seventh Ray have come to permanently reverse this restriction and restore the natural flow of Universal I AM within daily life on Earth ...Ascended and Free Humanity on her Ascended and Free Earth. As the Taoist says: I AM empty of self (and its time / space necessity); I AM One with the Way; the Way is filled with virtue (the Cosmic Causal Body flowing multi-dimensionally through the Solar Christ Self into daily life ...Indivisible Flowing Wholeness entering the world).

Let us understand that time and space are tools for our developing consciousness (rather than consciousness growing out of time and space, as some may think). Consciousness is dynamic. It evolves with *ever increasing self-awareness: that I AM ...and, that I AM that I AM ...the same Eternal Flame and its Infinite Radiant Light as our Source ...Father / Mother God*. As our Eternal Flame and its Radiant Light *evolves its Consciousness*, it requires Higher Frequency tools (Sacred Fire), and more *advanced multi-dimensional coordinates* to fully explore Spiritual Freedom (the Realities of our Mighty I AM Presence, Causal Body and White Fire Being). And here we are ... here I AM!

Think of Spiritual Freedom as an *unfolding frontier of experience*. Each one has a God-given right to experience greater and greater Spiritual Freedom. But like school, we first desire to learn it and develop it ourselves ...so that we have in fact **created our own True Identity** ...even as the *entirety of Universal I AM is co-created*.

In the beginning we were all gifted with Consciousness. Consciousness is the gift within Flame, the awareness of **I AM** ... and Flame is the Highest Expression of this Consciousness. This relationship of Flame and Consciousness is like Yin / Yang. Yin evolves within Yang ...which itself is evolving within Yin ...and on it goes across all dimensions, into eternity. For Consciousness

to develop, life was to be aware of itself, be insightful and thus experience every dimension of Being. All such experiences to date, across all dimensions, are contained within our Causal Body ...*our Cosmic Momentum of experience* as a Divine Being.

Our Consciousness expresses as our Eternal Flame and its Infinite Radiant Light ...and, our Eternal Flame expresses our Immortal Consciousness. This **Eternal Revelation** is the Gift of Father / Mother God and its *infinite expansion* comes in the form of Holy Spirit. Our free will is to develop our Consciousness and Flame as we choose ...in service to Life and Love. And in the words of Beloved Lord Krishna, **Service is the Law of Life ...and Life is the First Cause of Love Divine**.

And SO IT IS, BELOVED I AM!
