## ASCENSION CONCEPTS

Beloved Ones, the Theme and Thoughtform of every month (as well as every Solar Year) is discovering, exploring, and building a ***new level of Truth*** ...which steadily evolves into the complete, Multi-dimensional Reality of New Earth in her New Ascended and Free Orbit. With each level (month / year) of Light Service, we ***envision and hold***, then ***steadily construct***, the Immaculate Concept for the ***completed, finished product***. I AM the *embodied* service of the Cosmic Silent Watcher, establishing the *permanency* of the New Age Spiritual Freedom for Humanity ...as it now *arises from within embodied Humanity!*

The epicenter of Divine co-creation is the Three-fold Flame. It manifests centrally within our Thoughtform of 2016, as the Sun of Earth. It fills the central ‘four-square’ of the Star of Spiritual Freedom, *expanding and projecting outwardly*. The Mystic Ring of Violet Fire circling around the ‘four-square’ also *expands and intensifies inwardly* from its Sphere. This is a process of ***intensely purifying all imbalance*** that comes to the surface of consciousness. Every bit of imbalanced energy must be accounted for in this Ascension Process. As Light Servers, we observe this process of redemption, however imbalanced outwardly, through the calm eyes and heart of the Feminine Ray Buddha ...the Flame of Mercy, Compassion and Forgiveness. This is part of our Service as Children of the Seventh Ray, in accord with the Legions of the Order of Zadkiel. It is the essence of Spiritual Grace in service with the Violet Fire.

Let us visualize our Sun of Earth. As this Sphere of Sacred Fire expands from the Blue Diamond Core of God’s Will at its center, its

outer Pink Radiation reaches the Mantle of Light around the Earth. This Mantle of Light is in the form of the ‘four-square’ center of the Star of Spiritual Freedom. And, just as Transfiguration occurs when an individual’s Flame touches the hem of their personal Mantle of Light, so the Earth now stands forth Transfigured in her Light!

And, as our Light Service *continually drives forward Earth’s Transfiguration*, simultaneously does each one of Humanity *become ever more drawn to their individual Eternal Flame* (Sun of the Sun) ...which then expands out to their Mantle of Light ...with each one of Humanity ever more Transfigured in the Light! And *this Cycle continues into Eternity!* This is the ***Divine Synergy*** of the *collective* Ascension of a planet with the *personal Ascension* of each soul on that planet. This is the relationship of ‘the part to the Whole’, knowing that each ‘part’ of the Matrix / Hologram is a perfect replica of the Whole ...as well as the Whole being a perfect replica of *each aspect* that co-creates it.

## ***MULTI-DIMENSIONALLY INCLUSIVE LIGHT SERVICE***

We serve Universal I AM through the Oneness Consciousness of our unified, manifold levels of Cosmic Being ...the totality of our all-inclusive God Presence ...our Indivisible Flowing Wholeness. Pause and *understand, visualize, feel and accept this Reality!* In our present Light Service let us affirm: I AM my Multi-dimensional Oneness Consciousness! I AM here, there, everywhere present. ***I AM the eternal White Fire Being***, which is the fullest representation of my Eternal Flame and its Infinite Radiant Light ...a Being of Pure Sacred Fire and its Radiance as an ***Infinite Circle of Light*** ...***inclusive of all life living free in the Light***. As my White Fire Being, I AM the Perfect Harmony and Balance of Feminine Ray / Masculine Ray. I dwell in the Sacred Fire Realms of Father / Mother God in the Sun, Central Sun and Great Central Sun. Here, I AM truly a Sun ...a Sun of the Sun!

As a White Fire Being, I AM dwelling in the Highest Frequency of our Sun of Earth ...Freedom’s Holy Star, where every ‘Sun of the Sun’ within the I AM Race is operating at its Highest Frequency ...

as a Sun of Father / Mother God ...in *ever more profound* Coherently Connected Divine Consciousness! This is the Ascended and Free State of all Cosmic Beings ...an ultimate Oneness Consciousness ...while we also simultaneously go about our *individual Cosmic Service* in the Highest Realms of Light. Pause ...and again *accept* this Highest Aspect of our Divine Multi-dimensional Reality.

Imagine then, that our White Fire Being (our Highest Frequency of the Twin Flames as one Being) projects a Ray of this Harmony and Balance as a Cosmic Violet Fire Being (Love and Power in perfect Balance) into Earth's Mystic Ring of Violet Fire! Here we are 'stationed' *in our Highest Frequency* in service to the Seventh Ray. And *this becomes our Light Service within the Thoughtform of 2016!* This is our Presence composed *purely of Violet Fire and its Infinite Radiant Light*, in Oneness Consciousness with all Ascended and Free Beings who serve the Seventh Ray Violet Fire! Here we truly become Children of the Violet Fire, a Seventh Ray Solar Being ...Celestial Mediators<sup>1</sup> of a New Age of Spiritual Freedom.

Then, journeying through the Multi-dimensional levels of our Cosmic Being, ***I AM the Mighty I AM Presence***, an Electronic Being with an aura of a Cosmic Causal Body. Here I AM *individualized as Masculine or Feminine in its highest, most pure nature*, according to my Divine Plan of service to Universal I AM. Continuing the progression, then ***I AM the Solar Christ Self***, a Cosmic Ray of Light *living the Mighty I AM Presence on Earth ...through elemental vehicles!* I AM a *Seventh Ray Solar Christ Self* within daily life. Collectively, this becomes the Gathering of Ascended Humanity!

And this Matrix / Hologram of our Coherently Connected Divine Consciousness (of every Solar Christ Self) forms the Sun of Earth *embodied ...a true replica of the Sun of Earth as it exists in the Realms of the Sun, Central Sun and Great Central Sun ...but firmly connected to Earth.* Within these Realms of Light, our Coherently Connected Divine Consciousness includes every **Mighty I AM Presence** and every White Fire Being in Oneness Consciousness.

<sup>1</sup> Beloved Jesus the Christ affirmed: "I AM the Mediator between man and God" ...and further affirmed: "Everything that I do, so shall ye also do and even greater things shall ye do" (our present Light Service with every Solar Christ Self on the planet!)

*Understand, visualize and feel* this Multi-dimensional Reality as our own ...as ***our collective True Identity!***

It expresses as all the colors of the Thoughtform of 2016. Its Celestial Keynote is our ***Great Cosmic Melody of Eternal Song***. It contains our Ascended and Free Energy, Vibration and Consciousness *along the Sound Ray*. And we are attuned to this Divine Tone as we live our daily life. This is our Higher Frequency, *Sacred Ceremony of living*, filled with Celestial form, color and sound. For the Seventh Ray *is the Ceremonial Ray of Ordered Service*. This means that each month / year when a renewed Theme and Thoughtform expresses, *it builds on an ordered succession*, one upon the next.

For we are ***Builders of Divine Consciousness!*** We follow a blueprint, just as the architect who designs and builds a structure. The Theme and Thoughtform of each month / year adds to this electronic blueprint in a ***Multi-dimensional quantum fashion*** ... seeing with Crystal Vision the Energy, Vibration and Consciousness of *its vast Cosmic Nature ...our Matrix / Hologram*. The Divine Blueprint is continually building and transforming with every Divine thought, feeling, word and deed of our collective Light Service! This is our training ...to discern the Higher Order God Illumination and Divine Power within the Theme and Thoughtform ...expressing a Higher Frequency Love that *overcomes anything less* than its own Sacred Nature. This becomes our working Forcefield ...of ***the Governing God Intelligence of Divine Love***, expressed in daily life.

The Ceremonial Seventh Ray establishes within daily life deeper levels of 'mindful ceremony', bringing new traditions to spiritual life ...introducing Sacredness, Holiness and Illumined Love ***as the emanation of Spiritual Grace***. Here the traditions of 'previous ages' transfigure into the advent of ***New Age Sacraments*** ...for a New Age of Spiritual Freedom. Many of these traditions will arise from the Synergy of the Feminine Ray / Seventh Ray. These new traditions will return Spiritual Innocence to the Graceful Worship and Meditation of the Mighty God Presence *within ...and, all around us*.

And SO IT IS, BELOVED I AM!

## **ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED MAHA CHOHAN...**

### **Lord of the Seven Rays and Holy Comforter to the Elemental Kingdom**

Beloved Disciples of Holy Spirit, you who practice the Spiritual Grace of Holy Communion with the Mighty God Presence ... welcome into my Temple of Comfort. I AM Representative of Cosmic Holy Spirit. I present myself to you as the Cosmic White Dove across the entire arc of the Sun of Earth ...as well as across the arc of your own Sphere of Consciousness! Thus, individually I may present myself to you as an electronic White Dove of Pure Light with wings fully spread, lighting upon your forehead. Here I *come towards your mind*, (as in the invocation ‘Come Holy Spirit, Come!’) ...radiating into your embodied Consciousness all Gifts of Holy Spirit *ever delivered into the Disciples of the Cosmic Christ, across his many embodiments through the ages* ...since Beloved Lord Krishna (the Sun God) first brought this Ultimate Transforming Principle of Divine Love to Earth. He did so in support of his Chela, our Beloved Sanat Kumara (Venus is under the Sun Krishna and Sophia) and his service to Earth. Think on that! And I (representing the Office of Cosmic Holy Spirit) have ‘visited’ them all!

But now let us focus on our Theme and Thoughtform of 2016 and the Higher Frequency concepts pouring in through Cosmic Holy Spirit. The current ascent of the Feminine Ray represents Transformation in *Consciousness*, the step before the Transformation of form and substance. This process is being *open and receptive* to incoming Higher Frequency Love, Wisdom and God Power. It is also being open and receptive to *new Revelation* (as opposed to historical revelation) ...as well as *open and receptive* to our own Divine Nature and that of Humanity. Becoming open and receptive is the biblical “open door” (‘knock and the door shall be opened’). And we now open this Celestial Opportunity *for all Humanity!*

‘*Revelations in Consciousness*’ (awareness of Higher Truth) brings to the foreground the ‘ever present Cosmic Moment of Now’ ...no longer waiting for a future Golden Age! Revelation is key to the

present *spiritual awakening* of Humanity’s Heart. Spiritual Revelation allows for unexpected changes ...but *always accompanied by the overwhelming Spiritual Grace that ‘all is in Divine Order’!* This is the nature of ‘epiphany’ ...or ‘sudden realization’ of our Cosmic Nature. Thus we need no longer attach to the old or predictable ‘way of things’. Rather, Humanity *realizes and accepts her quick adaptation to a Higher Frequency* ...and the effects of this Cause in our personal lives ...as well as global events. This is the nature of our Higher Order Light Service at this Cosmic Moment. We are leaders in the Transformation of Consciousness.

The Higher Frequency Light of 2016 brings Higher Levels of Ascended and Free Light Service. When empty of self, we become Flame ...and not only our own Flame but a conduit of the Cosmic Flame of all Ascended and Free Humanity ...as well as the Eternal Flame of every Ascended Master and Cosmic Being. When truly empty of time, we become the *eternal Flame* of our Mighty I AM Presence and White Fire Being ...as well as of every Cosmic Being *from before time* ...as well as the *far future* of Ascended and Free Earth! ***For all the Light that has ever been and shall ever be, is here in this Cosmic Moment.*** Meditate on this ...for I AM here to assist with this leap to Cosmic Consciousness! And a fuller realization of the Governing God Intelligence of Divine Love becomes evident!

When empty of space (and thus any sense of separation and distance), let us see ourselves centered in our own Flame Room ...before its Sacred Altar and within the Infinite Radiant Light of its Sacred Fire. In this Light, I AM also automatically within every Flame Room of every Solar Christ Self within Humanity ...as well as in the Flame Room of every Cosmic Being ...all simultaneously, all in Oneness Consciousness ...one with the full Radiant Light of Universal I AM.

This is the Reality of our Coherently Connected Divine Consciousness that becomes the Sun of Earth, filling the ‘four-square’ center of the Star of Spiritual Freedom. This is why the Cosmic White Dove of the Ascension can now *truly be present* upon the spiritual horizon and, be ***seen by all*** ...for this is the Revelation of Holy Spirit in the world! Here Humanity becomes a Disciple of

their own Solar Christ Presence, and, as all true Disciples before them, accept a visit by Holy Spirit. This then allows *all Humanity to go forth and fulfill their Divine Potential* ...as did the Disciples of Beloved Jesus after their Visitation by Holy Spirit. And then a 'Newer Testament', a *Higher Frequency Testament*, quickly guides our Earth into her New Age of Spiritual Freedom. This 'Newer Testament' is the Higher Energy, Vibration and Consciousness of the Thoughtform of this New Sacred Year. And SO IT IS!

As many of you know, the office of the Maha Chohan assists in governing the Elemental Kingdom. In New Revelation, the Elemental Kingdom also is raised up. This Elemental Ascension is assisted by Humanity's efforts to honor and respect the elementals, but also occurs, regardless, through the Great Cosmic Inbreath. Cosmic Holy Spirit also governs Holy Breath as it pervades Humanity and the Elemental Kingdom. So we now approach the point where the Elementals themselves, together, standing in the Light of Holy Spirit, arise and forgive Humanity for her past indiscretions.

In turn this further allows the Mighty Directors of the Elemental Kingdom to *awaken and intensify the Healing Energies* within this Kingdom. Imagine that the very elemental vehicles that allow Humanity her present embodiment, *now step forth to heal the karmic scars and imbalance of the ego-self within those Elemental vehicles*. Contemplate this! And the more Light Servers practice Mercy, Compassion and Forgiveness towards the Elemental Kingdom, the faster this healing response to all Humanity and her environment occurs. For it is Humanity's Consciousness we must truly heal ...and then the full Ascension occurs. Beloved Chelas, this Ascension is intended *for all life, right here and now!* This is the full inclusiveness of the Feminine Ray and its ***Infinite Circle of Light*** ...a Higher Frequency Forcefield inclusive of 'all life living Free in the Light'.

I AM empty of self and I AM embodied  
for Cosmic Light Service as a Focus of Flame!

I AM empty of time and I AM here to *eternally* serve.

I AM empty of self and my service is here, there, everywhere

present ...as Infinite Radiant Light ...as an Infinite Circle  
of Light ...inclusive of all life living free in the Light!  
This is why I embodied ...Flame with its Infinite  
Circle of Light, to assist *all life everywhere*  
into its full Divine Potential.

The Cosmic White Dove appearing 'over the horizon' represents the gifts of Holy Spirit. These attributes of Divine Consciousness manifest when in the perfect Harmony and Balance of the Masculine Ray / Feminine Ray. Only when Illumined Power merges with Illumined Love (the Activity of the God Parents) comes the Illumined Christ Child ...the Seventh Ray Solar Christ Self. The Cosmic White Dove represents itself as *the dawn*, ...which slowly turns into the full light of New Day. As our Light Service anchors more and more of these gifts of Holy Spirit, then the greater the receptivity of all Humanity to *their* True Identity, accelerating their own Ascension. Thus our Light Service *drives* this full inclusion of all Humanity.

Just as Beloved Jesus affirmed: "It is the Father within that doeth the works," we also affirm: "It is the Three-fold Flame of Love, Wisdom and Power within, doing the Light Service!" The Gathering of Ascended Humanity is the outer branch of the ***Great Light Brotherhood***, whose motto is: "I AM the Doing, the Doer and the Deed!" When Beloved Jesus referred to the 'Father within', he referred to the Cosmic Christ 'singular', as Beloved Lord Maitreya. Now we represent Group Consciousness, rather than individual ...and thus it is the ***Coherently Connected Divine Consciousness within*** that does the Sacred Service!

For our Sun of Earth is now the vehicle of the Cosmic Christ and works through us to ensure our Light Service is perfect ...that we are (I AM!) ***at the right and perfect place, at the right and perfect time, doing the right and perfect thing, in the right and perfect way*** ...all performed *within* time and space, because we now exist *beyond* self, time and space! This is our Ascended Mastery! This is living the Mighty I AM Presence on Earth, as the Solar Christ Self.

And SO IT IS BELOVED I AM!

**ENERGY, VIBRATION AND CONSCIOUSNESS OF  
BELOVED LADY DIANA,  
ELOHIM OF THE SEVENTH RAY**

**...and continued Sponsor of the *Seventh Ray / Feminine Ray*  
*Synergy within the Mystic Ring of Violet Fire***

Beloved Ones, the Feminine Ray emphasizes ‘inner vision’, for Higher Frequency Light brings a new way of seeing things in true Multi-dimensional Reality. Just as you might enter a room of shadows and ‘turn on the light’ to see more clearly, so this New Light opens our inner vision to New Reality. Our outer sight sees the effects of an *unbalanced world of Masculine Ray predominance*. Here we witness an old archaic world that is dissolving before our eyes ...literally falling apart. Its internal structure is dissolving with the attendant imbalance, suffering and discord that might accompany such ending of an Age.

However, our Higher Frequency ‘Inner Vision’ sees a new superstructure of a new world, through the eyes of the Feminine Ray. This is the Theme and Thoughtform of this Sacred Year! There is a separation occurring on the ‘illusionary screen of life’ ...as the old world falls away and the New World is created through the Builders of Divine Consciousness. But in the New World itself, *there is no separation ...for the Feminine Ray is multidimensionally inclusive ...open and receptive ...and willingly invites all those from the old world (now falling away) into its open arms of Illumined Love.*

There is presently a mass migration of Souls, from the old world consciousness into the Multi-dimensional Matrix / Hologram of the New World. This is replicated by similar migration on the physical level. On a spiritual level, these Souls are invited into our Ascended and Free Homes, our Temples within the New Causal Body of Earth, assimilating our Ascended and Free Concepts and Perfection Patterns so they may steadily manifest in their new daily life. Even as our ‘outer sight’ notices the imbalance and discord of the old world falling away, we *consecrate our inner attention as Builders of Divine Consciousness*, to the vision of the Feminine Ray and her New World of Spiritual Freedom, inclusive of all life living Free in the Light!

The Keynotes of the Violet Fire are Mercy, Compassion, Forgiveness and Transmutation. These colors, sounds, and frequencies, along with their Angelic Attendants, are the welcoming embrace to the Souls migrating onto New Earth. Our Light Service within the Seventh Ray / Feminine Ray *builds and sustains their crossing*, through co-creating a secure Bridge to Spiritual Freedom. It is the Divine Alchemy between Feminine Ray Vision and our growing expertise as Builders of Divine Consciousness that sets the stage for this mass migration of all Souls into a New Age. All of these Perfection Patterns are woven into the Theme and Thoughtform of 2016.

The Spiritual Grace afforded by the Violet Fire / Feminine Ray allows the Fourth and Fifth Root Races to make their Ascension. This same Mercy, Compassion and Forgiveness also create a ‘new realm of tender Mercy’ for those Souls who cannot or will not (by their own free will) make the migration to the New World. Their exit to a ‘realm of slower evolution’ creates the ‘spiritual space’ on Earth necessary for the *entrance and revelation of the Six and Seventh Root Races ...all under the Divine Direction of their Manus, all in the appointed Cycles of Evolution.*

The Theme and Thoughtform of 2016 has everything necessary for this Transformation currently in place and will only expand its Sphere of Influence through our attention on it. This is important to realize and accept. For a crucial and delicate element of this ‘migration of Souls’ is the necessary release of the last remaining laggards from the ‘compound’<sup>2</sup> ...with their psychic and astral energies that *so need to be loved free*. Criticism, condemnation and judgment of these energies only make these imbalanced forces stronger ...whereas

<sup>2</sup> The ‘compound’ was a specific sphere created for the purpose of holding very imbalanced karmic energies and the Souls *dedicated to the misuse of original free will and the right of co-creation*. Certain Souls were ‘held by the Light’ here and only released back into embodiment in ‘small doses’, so as to not overwhelm Humanity as in previous dark ages. For present purposes of the Great Cosmic Inbreath, this compound has been fully closed and released into eternity. This however means very influential yet very imbalanced Souls have been released back into embodiment. Their influence within daily life can be easily seen. This final release was only allowed when Forcefields of Light Service were deemed powerful enough to counter this and *ensure Victory in the Light*.

Divine Love is what draws them eventually back to the Light. The idea of a new planet or sphere as a holding place for those not yet willing to Ascend with Earth is not very mysterious. It is no different than the Mighty Manus of Sixth and Seventh Root Races designing a sphere or realm for their Root Race children to abide within until their time of embodiment on Earth. This new planet / realm / sphere (for imbalanced, orphan Souls from other Systems who embodied during the 4<sup>th</sup> and 5<sup>th</sup> Root Race), is primarily the responsibility of Manu Vaisasvata and Lord Himalaya. It is as if the Earth comes to a Cosmic ‘way station’, where some laggard Souls get off (this is their stop) and other (New Root Race Children) get on ...to begin their journey now *in physical embodiment on Ascended and Free Earth*.

As an Elohim of Creation, please allow for more understanding of the Violet Fire, a Divine Ray I too represent. In physics it is known that the electron will periodically make a ‘quantum jump’ (a term used in physics) from one stationary state to another. When it does, there is always an emission or absorption of light (as measured by a single photon at the subatomic level). Science knows this ‘quantum jump’ to be true of an electron ...but not yet of planets. Yet we might say that the Earth is but an electron in the eyes of Universal I AM ...as there are billions of Suns and even many more planets within endless Spheres of Light. Let us see Earth as a physicist sees an atomic particle. This is exactly how we envision the Ascension of Earth in the current Great Cosmic Inbreath and her “quantum jump” to the prepared orbit of Venus.

A quantum jump is accompanied by a change of frequency. Frequencies are encoded in color and sound and your awakening allows for more perception of these Multi-dimensional Higher Frequencies. On the macro level of Planets and Races of Beings, this is why we visualize colorful Forcefields and listen to Keynotes of music. At subatomic levels, ‘change of frequency’ is encoded in (and *thus can be discovered within*) tones of color and music. So in our Light Service, we are simply preparing the way for a planetary quantum jump, by providing the change of frequency and tone through the Divine Alchemy of the Sacred Fire.<sup>3</sup>

<sup>3</sup> Science does not yet conceptualize Sacred Fire, but they do freely recognize there are unseen ‘agents of change’ in quantum mechanics they do not yet understand ...‘but know they must be there’.

In our Light Service, we refer to the probability of certain manifestation as Divine Potential. Probabilities (as a wave function) turn into manifestation (in form) ***based on the application of Consciousness***, which action decides *the orbit*, and *frequency* where the particle reveals itself. This describes the fundamental Law of Free Will ...and why everything is but a ‘probability’ until an Intelligent Being applies their Consciousness to that electron ...or, ***to that planet*** and its Race (Humanity). This was the Service of the Elohim to Father / Mother God in First Creation. And now here we are within Humanity as a ***group vibration / frequency*** (Ascended and Free Light Service), to reveal to Humanity that she may indeed *apply her Consciousness* to Earth and move her in a quantum jump to an Orbit of Divine Love!

Moving a planet and its entire life force along its quantum jump (its Ascension) is a much more complex action than observing the same of a single electron (as done in a physics lab). But this is *what we came to do* and *were trained for*, before being allowed embodiment. And thus we apply our Consciousness through all our Creative Faculties that will assist this ...color, music, vibration (of voice in song, chants, decrees) and seeing the finished product (visualization), so that the electron (Earth) knows ***exactly where we desire her to reveal herself***. We are not neutral scientists observing an experiment ...for we declare Divine Will as our intent, as understood through our current unity with the Spiritual Hierarchy and their guidance.

This is why I AM with you now! Since this is a complex endeavor, then it is wise to have the Elohim who first created the planet *as co-servers!* And hence my co-service within the Mystic Ring of Violet Fire with you now! The Elohim guide Humanity in concepts she may now comprehend, *absorbed in meditation or contemplation*, rather than in rigorous application of the mind. For Light Servers, let us see the Cosmic White Dove of Holy Spirit across the arc of New Earth ...but *also across the arc of each one’s forehead* ...like The Crown of the Elohim ...radiating into the Consciousness of Humanity the Governing God Intelligence of Divine Love!

As Builders of Divine Consciousness we are like artisans creating a Planetary Temple. In building a physical temple, we would need

painters, carpenters, architects, electricians, plumbers, etc. And as Builders of Divine Consciousness with the Elohim, we likewise need many diverse, ‘spiritual specialists’. Each of us has a specific role to play (as do each of the Seven Elohim), using our Causal Body Momentum of everything that has led up to this Cosmic Moment, *as our medium of creation*. Within our Causal Body Spheres of Light are all the Energy, Matter and Intelligence necessary to build the New Earth in her New Heavens. Thus, Victory is ours!

And, SO IT IS, BELOVED I AM!
