ASCENSION CONCEPTS

Beloved Ones, let us contemplate *the Resurrection and the Life of Original Intent!* The Celebration of Easter falls during this monthly cycle (April 20, 2025). Easter is an historic *Revelation of the Resurrection* ...highlighting the Ministry of Beloved Jesus as an Avatar of the Cosmic Christ. Here our Beloved Master arose from 'the tomb of dense matter' into his Light Body of Quantum State Matter, forever removing the 'rock that binds the tomb' ...revealing to Humanity her eventual Spiritual Freedom within the Ascension Process. "Everything I have done, so shall ye also do"! So let us honor Beloved Jesus and become *a true representative of the Cosmic Christ* ...living our True Identity while revealing our Divine Instrument ...*Resurrected within daily life.*

The Immortal Victorious Three-fold Flame is the Permanent Atom of Humanity. From there every other atom of substance, form and matter related to Humanity came into being, building our physical, etheric, mental and emotional vehicles required for embodiment within a Root Race. The Eternal Flame within the Permanent Atom radiates its Infinite Light. Each photon of this Divine Light is a *Force Carrier particle ...with no mass.* So then imagine being embodied on Earth in a *Light Body of Divine Force ...with no mass,* where our vehicles have the *form and function of Force,* but no mass! Original Intent included vehicles composed of Quantum State Matter, which is *ethereal and much less dense* than we currently experience the world of form. With this Reality, our bodies and the world around us *literally 'lighten up'!*

Then consider that the Eternal Flame itself is composed of a Celestial Ray, anchoring as a Sacred Vibrational Field, fully encoded with Cosmic Consciousness. This Sacred Vibrational Field is a *spiral of Divine Force* ...an Infinite Circle of the 'Indivisible Flowing Wholeness of Light', in an eternal unbroken connection with Universal I AM ...but with the *spiral always Ascending.*
Affirm:

I AM an Ascending, Spiraling, Infinite Circle of Light!

This Vision also incorporates the Great Solar Disc. In Original Intent (or God's Will), this vehicle synchronizes the Twelve Houses of the Sun within Humanity ...Resurrecting her from a planetary Divine Being (the Seven-fold Holy Christ Self) to her True Identity as the Twelve-fold Solar Christ Self ...with the ability to not only abide in the daily life of Humanity on Earth but *also abide in the Dimensions, Realms, and Spheres of Light across*

this Solar System ...with free will to direct all such activity at will. This Victory is also referred to as *Ascended Mastery ...becoming an Ascended Master ...and off the wheel of birth and death.* This is the goal of embodiment as revealed by many Avatars of the Cosmic Christ, across many millennia.

Beloved Ones, ***Original Intent may be best defined as Spiritual Freedom.*** It is no more mysterious than that. This includes *free of the restrictions of time and space* and thus to abide *where and when* one desires in their Spiritual Liberty. However, this Original Intent got waylaid with the ‘great fall’ in consciousness, meaning that Spiritual Freedom became not only ‘free of time and space’ but also *‘free from ego-self’*. This complication had not been foreseen in Original Intent. This added much complexity to the Original Intent of the Ascension Process, as it now unfolds on our sweet Earth.

This ‘great fall’ of usurping the attention from the Divine to the ego was not predicted in Humanity’s Divine Plan, as there was no indication of the ‘great sacrifice’ that was to be offered by the Fourth Root Race ...taking on the planetary orphans to offer them an Ascension Process that was otherwise no longer available to them (unless Humanity adopted them). Remember that the first three Root Races accomplished *the Victory of a series of embodiments leading to Ascended Mastery within the world of form ...and then Ascension into full Spiritual Liberty with their Manu ...fulfilling Original Intent!*

The current Spiritual Impetus for Ascended and Free Humanity is to lead the Way into *graduating further as a Divine Instrument and incorporate the Great Solar Disc.* This Activity has many ancient names but always captures the full synchronicity of the Twelve Houses of the Sun *becoming activated through a developing Soul* on Earth. The Great Solar Disc precedes time and space ...and precedes Earth ...and thus also precedes the ‘great fall’ to ego. It is thus the ***Vehicle of the Resurrection and the Life to becoming truly empty of self, time and space.*** This Great Solar Disc is the Origin of the Causal Body ...beginning first with all the Original Cosmic Momentum of Father / Mother God (the Twelve Houses of the Sun) gifted to us at our Spiritual Birth in the Sun Temples, and then adding to this our own Cosmic Momentum of Divine Qualities, in our endless Spiritual Service across Universal I AM.

As Light Servers are aware, in the Spiritual Development of Beloved *Alpha and Omega*, they were one of twelve Suns within a Galaxy ...with their Central Sun being the Great God Parents Eloha

and Elohae. At the *completion of a Great Cosmic Inbreath*, each of the Twelve Suns were offered to become *Central Suns in developing their own Galaxy*. Only Seven of the Twelve Suns chose this path to becoming a Central Sun (of a Galaxy), with the other Five desiring to dwell in the Electronic Dimensions (or Causal Body) of Eloha and Elohae ...remaining in the 'Nirvana of their Spiritual Glory'. Thus, when the Seven who chose to become Central Sun began the Co-creation of their Galaxy, each Solar System would thus contain a Sun with Seven Planets and each Race upon each planet would have a Causal Body of seven bands of Divine Qualities, with each planet evolving seven Root Races. And once the Victory of Planetary Ascension was accomplished, there was a return to ...or *Resurrection and the Life of ...the Twelve-fold Aspects of Deity* from the original Divine Plan of Alpha and Omega.¹

So let us *use this understanding* of the Origins of the Great Solar Disc in our personal Ascension Process ...our Resurrection and the Life into the Twelve Aspects of Deity ...*while embodied on Earth*. At this Cosmic Moment, 'Keepers of the Flame' are to create the 'open door' in becoming fully empty of self, time and space *using this Spiritual Key* ...inbreathed and absorbed into the Great Solar Disc, then assimilating into their Light Body and its Causal Body, towards *full Spiritual Liberty* as the Gathering of Ascending Humanity. Then we are (I AM!) to Expand and Project this Ascension Process into the Consciousness of Humanity, as the *Original Intent* of Father / Mother God. This is our Light Service!

Visualization of the Great Solar Disc. Breathing rhythmically and emptying ourselves of self, time and space, we steadily become open and receptive to our Mighty I AM Presence, *presenting to us our unique vision* of the Twelve Houses of the Sun. We see a Crystal Vision *of Sacred Geometry and Cosmic Color, including the spin, velocity and frequency of each of the Twelve Cardinal Points representing the Twelve Houses of the Sun*. In the words of Beloved Saint Germain, 'take the time to be Holy' and await in meditation this *Visitation of the Seraphim of the Sun and Central Sun* ...who conduct these *Celestial Ceremonies with Candidates for the Ascension!* Beloved Serapis Bey leads these Mighty Angelic Powers in presenting the *Keys to Spiritual Liberty*. Each Divine Virtue of each of the Twelve Houses comes forth in the Flaming Vehicles of the Mighty Seraphim ...who then present these Divine Qualities to our *developing Solar Christ Self*.

¹ And these are small Solar Systems in comparison to those across Universal I AM, which evolved hundreds or even thousands of planets in a Solar System or Galaxy, each with their own developing Root Races.

We see the Twelve Cardinal Points of the Sun orbiting around our Immortal Victorious Three-fold Flame. Now we become a Sun of the Sun ...as the *Governing God Intelligence of Divine Love at the Center of a Solar System with Twelve Planets or Cardinal Points*. Each is a Forcefield from the Central Sun, each having their Sacred Influence upon our thoughts, feelings, words and deeds. We see, feel and deeply accept the Mighty Seraphim abiding freely in our *personal Solar System of Twelve Cardinal Points*, so that in *these early stages* of our Solar Spiritual Development, *the Angels maintain its Harmony and Balance, as our Eternal Flame steadies itself* in order to constantly hold this Governing God Intelligence of Divine Love *on its own!*

The Great Solar Disc is Universal I AM in action! Contemplate this ...that the Gathering of Ascending Humanity is this Truth once again flourishing on Earth. In our Ascension Process, we strive to be *our Solar Christ Self in action* ...and then *the Cosmic Christ in action* ...and finally *the Next Life Wave Coming in action* ...taken together as *Universal I AM in action!* Imagine the *Love, Wisdom and Power on a Cosmic Scale* that desires to flow through this Group Avatar, to bless the entire Lifeforce on our sweet Earth.

I go forth in my Ascension Process
as the Twelve-fold Kundalini Ocean,
of Universal Love, Wisdom and Power!

Such a Ceremony is seen as a ***Cosmic Divine Instrument*** intersecting our ***personal Divine Instrument!*** Contemplate this. We achieve this through our practice of *becoming empty of self, time and space*. The more we practice this Reality, the more the Great Solar Disc *accelerates this Ascension Process*. This also describes the ***Celestial Activity of the Resurrection and the Life*** ...the Atomic Accelerator of our Earthly existence through the *quickenning of our vibrational fields* (of our cells, atoms and electrons) to include the *full spectrum of Frequencies of Divinity, while still in embodied Light Service to Humanity!* This is the Divine Potential of our Gathering of Ascending Humanity, as exemplified by Beloved Jesus the Christ ...who reminded us “everything I have done, shall you also do ...and greater things!”

Beloved Ones let us understand the great Promise of this Solar Year with God / Goddess Meru. For *they have held the Immaculate Concept of this Cosmic Divine Instrument for us* on our long arc of Spiritual Development through the Ages ...*awaiting this Cosmic Moment with the Next Life Wave Coming*, fulfilling the Original

Intent of Spiritual Liberty *for all Root Races* within Earth's glorious Divine Plan. This is *'where and when' we are at this Cosmic Moment ...'where and when' I AM! And SO IT IS!*

In order to take full advantage of this graduation into embodied Solar Consciousness and the Atomic Accelerator Activity of Great Solar Disc ...let us ensure we use and use the Flame of Purity and the Cosmic Violet Fire ...to remove all imbalance within our thoughts, feelings, words and deeds ...*so that there is no place for imbalance to register within us.* Negativity requires an anchorage point to affect Humanity in her thoughts, feelings, and memories. This *Purity of Original Intent* is the ***greatest form of protection*** from negativity, as otherwise imbalance feeds off of our attention. Let the Gathering of Ascending Humanity *lead 'the Way'* in this foundational step towards Humanity's Spiritual Freedom!

And imagine then, that as Humanity steadily Ascends in Consciousness into this New Age of Spiritual Freedom, that there is less and less place for imbalance to register within any physical, etheric, mental and emotional vehicles ...until there comes a point of *no place for it to register* ...and thus the forces of imbalance *cease to be* ...as there is no home for it. Imagine! Points of negativity can only find anchorage within us through the avenues of self, time and space. So again, as we *become empty of self, time and space*, we empty those opportunities to be affected by imbalance. This is our Spiritual Liberty ...to be Free! ...and re-establish our Spiritual Agency within daily life.

This is becoming open and receptive to *only* the Next Life Wave Coming ...no longer open and receptive to any energy, vibration and consciousness less than the Divine Plan. This is ***leadership into the New Age of Spiritual Freedom!***

And, SO IT IS BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED POLARIS AND MAGNUS ...on the Electro-magnetic Harmony and Balance of the poles, from Masculine Ray to Feminine Ray.

Beloved of the Eternal Flame ...***I AM the Path of the Great Cosmic Inbreath*** ...along the Divine Axis of the Solar System ...and that of the Galaxy of Alpha and Omega! This Cosmic Light Service is associated with the dawning *Feminine Ray Age of God*

Illumination ... as well as the Sixth and Seventh Root Races revealed, the Divine Dispensation of Spiritual Freedom finding its Spiritual Agency within daily life ...all of which is completed within the Great Cosmic Inbreath ...together, standing in the Light as the *Next Life Wave Coming!*

I AM revealed through the Great Auroras (Aurora Borealis and Aurora Australis) ...the Sun's Sacred Energies revealed in glorious color and design. Science knows that the poles of Earth's magnetic field flip during the great cycles. This activity is not just driven by cosmic forces but also by the *vibrational fields generated by Humanity* ...as she has far more impact on Earth's development as a planet than science realises. The Spiritual Development of Humanity and Earth as an Elemental Planet is deeply interwoven. And now, the Sacred Vibrational Fields generated by the Keepers of the Flame, will have significant impact on the *events of polarity on Earth*. For our *Cosmic Service of maintaining Divine Polarity is completely attuned to your individual and collective Light Service on Earth sustaining Divine Polarity!* 'As above, so below'! Contemplate this!

Science realises that *everything* has aspects of 'particle-function' and 'wave-function'. Thus, 'being quantum' is a spectrum ...from the most dense metal block with only a tiny vibrational field of 'wave-function' (and otherwise dense 'particle-function') ...to an Angel with an elusive outline of form but mostly having 'wave-function' Presence, carrying Divine Qualities into the Universe. Such is the spectrum of 'quantumness'.

Humanity's 'etheric body' has some form but much less dense and thus carries different energetic forces within it. This includes Prana / Qi and other positive forces but the residue of our imbalanced thoughts, feelings, words and deeds. When such 'effects' from our Creative Faculties is positive, these Energies Ascend into our Causal Body as our Eternal Momentum of goodness! But if such effects are negative, these cannot yet ascend and must find a home in our physical, most 'particle-function' body, which can accommodate these more dense karmic patterns that create distress and disease.

In our Building of Divine Consciousness, we understand that Divine Light is composed of the Higher Quantum States of Energy, Matter and Intelligence ...that our Light is the 'Force Carrier Instrument' of Co-creation. Let us review each of the forces within our Infinite Radiant Light ...beginning with *Quantum States of matter*. These states are now confirmed by science, but it is what

Light Servers have referred to as 'etheric substance', where the electron is between its 'particle-function' and its 'wave-function' and not firmly in either.

Quantum States of Intelligence is how the Universe strives to be in *Divine Order* ...how Co-creation naturally unfolds its Perfection Patterns ...unless usurped by a lesser order of unfoldment, as we know the 'little ego-self' tends to do. The Forces in action here are the ***Harmony and Balance*** between centripetal and centrifugal, between polarities and the electro-magnetic balance of that particular Co-creation event ...whether a person, place, condition or thing. We strive for the *Cosmic Intelligence of Divine Order*, within our Light!

Quantum States of Energy flow across a wide Universal spectrum, depending on frequency, velocity and spin of particles and waves of Original Essence or Prana. It's expression also depends on synchronized polarities and the electro-magnetic balance of a particular moment of everything involved. But the Eternal Flame generating such Co-creation has the Love, Wisdom and Power to maintain all such forces in perfect Harmony and Balance. What sets the frequency all of these parameters is *the level of Consciousness involved*. Father / Mother God provides the Celestial Ray and its Sacred Vibrational Field and then the individual God Intelligence sets this Eternal Flame into Co-creation by sending out the corresponding Quantum States of Energy, Matter and Intelligence.

We (Beloved Polaris and Magnus) do this on a cosmic scale, but all Humanity does the same on a smaller scale within daily life. Co-creation is Co-creation. The process is the same ...from the scale of a galaxy to the tiny events of thoughts, feelings, words and deeds within daily life. Co-creation is endless ...and when not done with highest intent, then this can be undone (transfigured) through Sacred Fire returning it to its Divine Potential. This is the purpose of the Violet Fire Age.

Co-creation is personal to each one. In Original Intent, our own Immortal Victorious Three-fold Flame is to be the Governing God Intelligence of Divine Love that goes into Co-creation through our thoughts, feelings, words and deeds. And when enough attention and loyalty is given this Eternal Flame by an individual, then *the Flame generates the perfect thoughts, feelings, words and deeds required in any moment of daily life*, and the individual simply become its channel into the world of form. This is Ascended Mastery!

And SO IT IS, BELOVED I AM!

Energy, Vibration and Consciousness of Beloved Lady Nada

...and her service with both God / Goddess Meru at the Meru Focus of God Illumination (the Rose symbol of Illumined Love) ...as well as her service at the Ascension Focus of Serapis Bey (the winged Globe symbol), as the God Illumination of the global Ascension Process.

Beloved of the Love Flame, welcome into the embrace of the Meru Focus wherein we hold the Theme and Thoughtform of this Solar Year ...as well as into the Forcefield of *my Service to Life with the Love Flame*. I AM with you *at the levels of Energy, Vibration and Consciousness* more than your outer mind knows or remembers ...as I serve many causes in the area of Spiritual Development, but all from the *Original Intent of First Cause ...Divine Love in action!*

My particular Service with God / Goddess Meru is to teach Light Servers both *the Mystic Rose of Divine Love Activity* ...as well as *developing the Feminine Ray God Illumination* ...of learning to direct the expression of Lifeforce *through Mastery of the Violet Fire* ...as this Seventh Ray Sacred Fire is the ***most powerful Aspect of Love in action*** at this Cosmic Moment. The Violet Flame frees daily life from being trapped in very dense manifestation at lower frequencies ...and then *setting it free* into the *Light and Frequency of the Vibrational Fields of its Divine Potential*. This Sacred Activity of Love is *the Feminine Ray Age of God Illumination revealed* ...as well as the Seventh Ray Dispensation and the Feminine Ray *synchronized together as One*. This is the *evident Power* of the Next Life Wave Coming! This is *Victory of the Light!*

Affirm:

I AM empty of self ...empty of time and space.

I AM the Eternal Flame and its Infinite Radiant Light.

My Eternal Flame is every Perfection Pattern *present now*.

My Radiant Light is all Perfection Patterns *everywhere present!*

My Light Service is also along the Sixth Ray, so that those Religions and Cultures that formed under its influence over the past Major Cycle (the Sixth Ray Dispensation), *develop greater spiritual capacity in becoming open and receptive* to the Seventh Ray Dispensation of Spiritual Freedom. It is a *time of change and renewal* ...where resistance to such can be firm ...but Divine Love has its 'enchanted qualities' to soften such resistance, *until Victory*

is achieved. This is the point of Humanity's present Ascension Process where I serve ...as well as those Angels, Elementals and Humanity that also serve under the Banner of the ***Rose of Illumined Love***, emblazoned upon their Robes in living Light!

We delight in the Service of *completing the Original Intent of the Sixth Ray Dispensation* ...where all Humanity was to have graduated into the Seven-fold Holy Christ Self. And from that 'anointed state', graduate into the Twelve-fold Christ Self of embodied Solar Consciousness. And here we are at this Cosmic Moment. So, we serve to 'clear a Path of Divine Love' for all Humanity whose Spiritual Development has mostly occurred within this past Major Ray Cycle, to truly understand the current Resurrection into the next Major Ray Cycle of the Seventh Ray Dispensation of Spiritual Freedom.

The *Sixth Ray Chakra at the solar plexus* is the Focus of Peace within the physical / etheric Vibrational Fields of cells, atoms and electrons. Developing it was meant to protect one from fear. For it has been fear that the 'forces of ego' use as their major control of the masses. Our intent in service to the Cosmic Christ was to accelerate this Chakra to overcome fear ...as exemplified so beautifully by Beloved Jesus. In the training in my Temples, we intensify the Sacred Vibrational Field of this Sixth Ray Sun Chakra as the Symbol of the Rose ...but then see it Ascend from the solar plexus to the Heart Chakra ...symbolic of the Resurrection and the Life into the Next Age of Holy Spirit ...graduating Humanity from being 'fear based' to *becoming 'Love based'* ...and *finding Peace Divine!*

My Service with the Meru Focus, as well as with Beloved Serapis Bey and the Ascension Focus, is in building a Momentum of Divine Love over many embodiments, along the long arc of the Ascension Process. This service applies to every Soul of every Root Race. *Divine Love is a Sacred Vibrational Field of Reverence for all Life, and seeing Mercy, Compassion and Forgiveness above all else.* Mercy is kindness given when others see such compassion as 'not yet earned or deserved'. As this Momentum builds through lifetimes of experience, the 'Winged Globe' forms at the forehead, again in blazing Light, signifying *you see the Earth arising into her Ascension through Divine Love.* This is Building Divine Self, as well as Building Divine Consciousness and *an Eternal Life in the Light!*

Let us now focus on the Great Solar Disc, as a major contribution of the Focus of God / Goddess Meru. This Divine Instrument is our

Spiritual Home. We all share an origin in the Central Sun, born as a *Spark of Divinity* from the Eternal Flame of Father / Mother God ...then given opportunity to develop into a *Being of Great Light*. It is the Causal Body that contains all such Momentum of Building Divine Love ...along all the Seven Rays of Creation. We synchronize with this Cosmic Momentum by seeing, feeling and deeply *accepting the Great Solar Disc as our Causal Body on a Solar Level*. We have already achieved the Holy Christ Self through becoming the One Eternal Flame, its Three-fold of Love, Wisdom and Power, expressing its Seven Chakra Suns along our Solar Spine. Once this Divine Instrument is Ascending into its Divine Potential on Earth, then we get *drawn into the Twelve Houses of the Sun*, the Twelve Aspects of Deity ...the Great Solar Disc.

Affirm and visualize:

I AM surrounded and enveloped by the Great Solar Disc, a Golden Sphere of Light containing the Twelve Houses of the Sun. I AM assimilated into it, drawn by a great magnetic Power of Cosmic Inbreath ...fully absorbed into its *selflessness, timelessness and spacelessness*. This is the Open Door into my Ascension, abiding beyond the restrictions of self, time and space. This is offered to me *while still in embodiment*, that I may walk the Earth Ascended and Free ...and thus offer Humanity and the Elemental Kingdom my greatest Light Service. Here I AM in the Company of Light Beings from the Angels, Elementals and Ascended Master Realms of Cosmic Service.

I AM Eternal Flame and its Infinite Radiant Light.
I AM Inbreathed, Absorbed, and Assimilated
into the Great Solar Disc.

I AM held here by the Power of the Great Cosmic Inbreath!

Here, I AM *living the Reality* of selflessness,
timelessness and spacelessness. Here, I AM that I AM!

Beloved ones, science tells us that the electron passes between its 'wave-function' and 'particle-function' continuously ...and is always in some of both, in a '*great spectrum of quantum states*'. All creation follows this pattern. When in the world of form, an individual or Elemental is mostly in 'particle-function' but slowly graduates back to its 'wave-function' in the Dimensions, Realms, Spheres of Light. Embodiments are 'particle-function' and 'between embodiments' is mostly 'wave-function' ...but it is always

the *same individual Consciousness experiencing these 'states of Beingness'*.

Let us affirm by the Law of Life that 'as I observe the Universe, so it expresses to me ...where I see the electron, there it manifests' ...in both 'wave-function' and 'particle-function' states, depending on the level of Consciousness *I view it from*. Hence, we strive for Elohimic Vision: ***I AM the Universal Third Eye ...the Eye of Divine Liberty*** ...seeing the Universe, our sweet Earth and its entire Life-force in *its full Spiritual Freedom ...doing so as God in Action* with full Spiritual Agency. Our Spiritual Freedom is that "I AM in full 'wave-function' *when I so desire*, as a Being of Great Light, fully expressing my Three-fold Flame of Love, Wisdom and Power ...the Mighty I AM Presence in action. As well, when functioning in daily life, "I AM mostly 'particle-function', so as to enter the world of form and serve Humanity and the Elemental Kingdom. This is my Spiritual Liberty! ***I AM where and when I choose to be!***

But when embodied as denser 'particle-function' *and life seems difficult*, I may return to becoming only 'wave-function' Perfection Patterns ... where, as a Light Body, I simply observe through my developing Crystal Vision the Energy, Vibration and Consciousness of life within and around me. I observe Vibrational Fields and from this Divine Peace, I direct Sacred Fire where it is needed. *I AM the Cosmic Observer, as well as God in Action, at this sub-atomic level.*

Thus, I add my '*calm witnessing of Co-creation*', as well as my *Power as a Divine Director of Sacred Fire*. By the Power of the Cosmic Violet Flame, I AM transmuting all karmic debt, while also liberating karmic patterns into their Divine Potential ...as their Original Intent of Perfection Patterns expressing on Earth. With this developing spiritual skill, 'I AM clearing the way', so that *I may observe the Co-creation of Perfection Patterns into form* ...and thus anchoring the Seventh Ray Dispensation of Spiritual Freedom. These are the Blessings and Powers of my Causal Body that *I chose* to bring to this sweet Earth and assist her in the Resurrection and the Life of her Divine Potential ...as the Star of Spiritual Freedom!

Even physically, I AM graduating into the Higher Frequency Quantum States of Energy, Matter and Intelligence ...expressing as the pioneers of the I AM Race. Etherically I AM only *Quantum Matter States* of the Sacred Vibrational Field of my Divine Causal Body ...still in form but more towards 'wave-function' Divinity.

Mentally I AM the *'wave-function' Electro-magnetic pulsations* of the Mind of God. Emotionally I AM the *Higher Frequency Emotions* of the Angels, that enter into this Sacred Vibrational Field of Holy Spirit ...in a Divine Sisterhood of Co-creation. And in doing so, I AM *activating the transition of the Fourth and Fifth Root Races to the Sixth and Seventh Root Races ...I AM that Bridge to Spiritual Freedom!*

The goal of embodiment is to Co-create the *Perfection Patterns of 'wave-function' Glory* into manifesting its *corresponding 'particle-function' states*. And Ascended Mastery is when one has become a Master of this process ...of Precipitation ...and then Etherealization. This is the Inbreath / Outbreath of Co-creation.

I AM your Sister in the Light!
And SO IT IS, BELOVED I AM!
