## ASCENSION CONCEPTS

The Ascension is a natural process that is the Divine Potential of all Life ...if nothing were to interfere. There are Cosmic Forces that will naturally accelerate us through the physical, etheric, mental and emotional experiences that come with embodiment ...again, if nothing disturbs the natural flow of things. These Cosmic Forces stream in from our Causal Body, through our Mighty I AM Presence, anchoring in and through our Solar Christ Self ...the embodiment of our Ascension. Again the Solar Christ Self becomes the beautiful form and outline of the incarnation of our Eternal Flame and its Infinite Radiant Light ...the embodiment of God, I AM!

So, the Cosmic Forces of the Ascension are in place and always have been. It is our Light Service to actively lessen and eventually completely transmute disturbances that interfere with this natural process. As the Ascension proceeds, there is a lessening of the bonds that sustain the ego influence in daily life. Anything that draws us downward to lower frequencies begins to have less and less influence on us. We literally ascend into higher frequencies physically, etherically, mentally and emotionally. We are yet connected to persons, places, conditions and things that could potentially hold us back or slow the Ascension. But this process is mediated through the lower self and its confines of time and space ...through our thoughts, feelings, memories, words and deeds. And these bonds to self, time and space are what are lessened through the Ascension, proceeding beyond time and space into Higher Realms. This is our Freedom!

But since our focus is also on a planetary Ascension, we then accelerate all connections to all relationships; to family; outer service; 'causes'; nations; races; religions; and cultures ...so that they **all Ascend with us!** This is the difference with this Golden Age and any other, so that it becomes a **permanent** Age of Spiritual Freedom.

Karmic associations within such relationships occur on levels that do not necessarily enter awareness, especially if we consider our present life and all the associations with relationships, family, work, finances,

health issues, etc.; our past experiences in this embodiment; our past lives ...and, 'causes' we have worked for throughout history. Any of these may 'trigger us,' even unintentionally, into preoccupation with self, time and space. Since we are (I AM!) ascending out of self, for ourselves and for Humanity, we thus focus on lessening any forces that yet bind us to a frequency less than the Ascension.

Karma and gravity are two forces that decelerate our frequency. Karma is our own returning energies, coming home to be purified and redeemed by the Violet Fire, so that these energies may ascend into our Causal Body through the Power of our Eternal Flame ... rather than linger longer in our auras as distress, dis-ease or decay. Any of these karmic forces tend to re-focus us on self, time and space. Imagine then our gratitude that Beloved Saint Germain, in preparing for the advent of his Seventh Ray Dispensation for Humanity, travelled in Consciousness to the Great Central Sun and invoked a Forcefield that would **free Humanity**, once and for all, from the endless karmic loop that Humanity had perpetuated for eons. And the answer came from Beloved Alpha and Omega. This Forcefield is of course the Cosmic Violet Fire. This is an absolute turning point in Humanity's history!

Gravity is a physical force that maintains our placement on this Earth ...so that we do not fly off the Earth as she spins in her orbit. But imagine that in the Ascension, **we may govern gravity and choose to be physically on Earth** ...rather than bound to Earth through the physics of gravity ...or through karmic forces ...or, any force other than **free will** ...to be here in Service to the Light! Now we begin to understand the fuller nature of the Ascension. This is a journey that all Ascended Masters have traversed. This is our Cosmic Moment when we burst asunder the bonds of karma and gravity and Ascend into the Light of Spiritual Freedom ...including the Spiritual Freedom **to choose physical embodiment in the Name of Service to the Light!**

In this process, we especially call upon the Sacred Forcefields of the Circle and Sword of Blue Flame and the Cosmic Violet Fire to cut us free from these interferences and disturbances ...and then to transmute the cause, effect, record and memory of them all. Here we use the following decrees:

## THE CIRCLE AND SWORD OF BLUE FLAME

In the Name of Beloved Lord Michael and the Mighty Elohim Hercules, I invoke, focus and manifest the Circle and Sword of Blue Flame ...now blazing in front of me, behind me, on either side of me, above and below me ...forming together a ***Ring Pass Not of Cosmic Christ Lightning*** for 10,000 feet in every direction. Within this Circle and Sword of Blue Flame Forcefield, ***I AM (X3) the governing God Intelligence*** of this moment ...and every moment. Through this Activity, I AM creating the ***Mystic Cloak of Invisibility*** from all karmic disturbance to my continued physical, etheric, mental and emotional Ascension ...and that of Humanity!

I AM the Circle and Sword of Blue Flame now ***cutting me free*** (X3) from the bonds of gravity.  
I AM the Circle and Sword of Blue Flame now ***cutting me free*** (X3) from the bonds of karma.  
I AM the Circle and Sword of Blue Flame now ***cutting me free*** (X3) from the bonds of self.  
***I AM continuously Ascending into the Light!***  
And SO IT IS!

## THE COSMIC VIOLET FIRE

Within this Activity, I AM a Cosmic Pillar of Violet Fire, preparing my Consciousness for *Transfiguration into the Light* ...transmuting karma before it can act, manifest or longer be sustained. I now invoke my Mighty I AM Presence to: ***Transmute, Transmute by Violet Fire, all causes and cores not of God's desire. I AM a being of Cause alone ...that Cause is Love, the Sacred Tone!***

This Cosmic Pillar of Violet Fire now loosens the resistance of gravity.

This Cosmic Pillar of Violet Fire now loosens the resistance of karma.

This Cosmic Pillar of Violet Fire now loosens the resistance of self.

***I AM continuously Ascending into the Higher Realms of Light!***  
And SO IT IS!

In our Ascension, we begin to understand the nature of Light and Energy. Consider the Silver Cord streaming into our Heart Flame from the Mighty I AM Presence. It contains the Electronic Light of Universal I AM, with every possibility as its Divine Potential! Contemplate this! For this Divine Light contains the Energy, Matter and Intelligence to co-create any intended Perfection Patterns of Father / Mother God. Hence, each photon is filled with every possibility of the Universe. Each smiling little photon simply awaits a guiding God Intelligence to direct it into a certain aspect of the Divine Plan. Then it will do the rest ...as again, it contains all the necessary Energy, Matter and Intelligence to Create Perfection.

If however this Stream of Light leaves our Creative Faculties with no particular direction, then it seeks the attention of others trying to influence us, trying to grasp our attention. There are many possibilities that try to get our attention, crying "Choose me, choose me." But rather, our Ascended Master training keeps our 'eyes on the prize' ...and directs our massive flow of Silver Cord Light into the creation of ***Ascended and Free Humanity, on her Ascended and Free Earth, in her Ascended and Free Orbit / Frequency! And SO IT IS!***

Let us visualize our Silver Cord of Electronic Light in its wave-form, streaming into our Three-fold Flame. From there it enters our Consciousness through our Creative Faculties of thoughts, feelings, words and deeds, involving any or all of our seven chakras. As we think a thing, feel a thing, remember a thing and do a thing ...so that thing is created by us and then given into the Universe from us. ***This is the Permanent Atom of Creation in action in embodiment.*** And this Activity of God in Action is full of color, tones (Keynotes), spiritual sensations of infinite varieties as well as the fragrance of Holy Spirit, Angels and Elementals. This is the Joy of experiencing life as the Solar Christ Self.

## MIRACLES

We were made in the ***image and likeness of Father / Mother God.*** Let us contemplate this Truth. One image is seeing our physical body as a replica of the outline and contour of the Flame of Father / Mother God, like unto their Majestic Presence ...when they present themselves 'in form.' But on a deeper level of Truth, let us also see

their ‘image and likeness’ as the *Sacred Process of Creation*, where Divine Light and its sub-atomic particles of the creative process cross over between dimensions, producing spiritual or physical realities.

The Silver Cord is what we refer to as the River of Electronic Light Substance streaming downward in frequency from the Mighty I AM Presence into our Three-fold Flame in the Heart Center. This massive release of Light presents photons and electrons in their waveform, flowing in from the unformed Dimension of Pure Spirit. This intelligent Life is awaiting opportunity to manifest its Divine Glory on Earth. And this requires Divine Direction from Humanity, which, when occurs, is the I AM Race in operation! For the Original Intent or Will of Father / Mother God is that this Divine Light pass through Humanity’s Consciousness without re-qualification, thus allowing all manner of Perfection Patterns to manifest ‘Heaven on Earth.’

When the ‘image and likeness of God’ is contemplated, it is generally a ‘physical image within time and space.’ But imagine that Humanity would see the ‘image and likeness of God’ as the *Creation Process* ...as this stream of Divine Light pouring into Humanity ... and witness its Energy, Matter and Intelligence passing through our Creative Faculties ...outpicturing the Divine Intention of God’s Will into the dimension of form ...creating something wonderful! For this Creation Process is the true ‘image and likeness of God’ ... beyond that of physical outlines or contour. Contemplate this!

When this Creation Process is allowed its free reign without lessening the frequency of the Light passing through us, then this is what religion calls *miracles* ...and what Beloved Jesus introduced on a regular basis in His Ministry. The Law of Life really is: *What you think and feel you bring into form.* This is why the Mighty God Presence is called the Miracle Working Mighty I AM Presence ...as this process of Electronic Light from the Ascended Master Realms of Light enters into daily life along the Silver Cord and into the Eternal Flame in the Heart ...then proceeds through the Creative Faculties of the I AM Race ...and Perfection Patterns of all varieties of Divinity then proceeds into creation! Let us be the true ‘image and likeness of God’ in all our days on Earth! And SO IT IS!

## ***ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED LADY HOLY AMETHYST...***

Beloved Ones, you who are so consecrated to the Theme and Thoughtform of this Sacred Year, I love and adore you. I come to tell you that the Mystic Ring of Violet Fire is now intensified ... with a more accelerated transmutation of planetary karma, the very moment such karma arises to reveal itself. Karmic forces reveal themselves in order to assert control on the outer screen of daily life. But unknown even to those karmic forces, the Law of the Circle is actually returning it to its source to be set free! Karma is only the ‘realm of effects’ trying to return to the Realm of Cause. Think on that! In the Name of the Great I AM, we the Light Servers ... the Gathering of Ascended Humanity, every Solar Christ Self in Coherently Connected Divine Consciousness as the Sun of Earth ...we claim the Realm of Cause! And the Violet Fire is the *most Powerful Cause of Divine Love known in this Universe.*

Together, standing with the Sponsors of this Sacred Year (representing the Violet Fire and the Feminine Ray), know that through embodying this Mystic Ring of Violet Fire, the Gathering of Ascended Humanity has a Forcefield stronger than any planetary karmic force! In order to fully utilize this Forcefield, the important thing is that this Service with the Sacred Fire is given from beyond time and space! This ensures that the forces of imbalance cannot interfere with this Light Service, for they cannot find us! They exist only within the confines of time and space ...and especially within the restrictions of ‘self.’ They completely depend on the ego distractions in order to delay their being set free into the Light.

Let us now stand with Beloved Lord Zadkiel within the Temple of the Violet Fire in the Central Sun! We affirm from within His Holy Presence, standing in my own Cosmic Pillar of Violet Fire: *As I AM raised up, so is all life raised up with me ...all Elemental life, all fallen Angels, all Humanity and every aspect of her ‘great fall’ in Consciousness.* I command in the Name of Spiritual Freedom:

Transmute, transmute by Violet Fire,  
all causes and cores not on God’s Desire.  
I AM a Being of Cause alone,  
that Cause is Love, the Sacred Tone!

I AM the Gathering of Ascended Humanity and I AM  
manifesting the Divine Plan of Earth and Humanity!  
(X3)

And then the scene changes ...and we are in our own Temple within the Electronic Causal Body of Lady Immaculata ...within the Causal Body of the Gathering of Ascended Humanity, the Flame Temples of Ascended and Free Humanity creating the **New Inner Realms of Earth!** The same Energy, Vibration and Consciousness of Spiritual Freedom, streaming in from the Central Sun, now pours through our Creative Faculties and into the world ...with the same Cause of Transmutation and Spiritual Freedom!

The Light of my Eternal Flame now connects and unites  
with the Light of every Eternal Flame of Humanity!  
I AM a Divine Matrix, a Cosmic Nexus of Light;  
I enfold Earth in the arms of Father / Mother God,  
held in the Love of the Cosmic Christ.

Beloved Ones, the Cosmic Violet Fire is set to restore the original condition of our embodied vehicles ...before self consumed them ...before the restrictions of time confined them and before the limitations of space constricted their full Glory. This is what restores the I AM Race to Earth! This is the Vision of the Sponsors of this Sacred Year! Let us focus on how the Cosmic Violet Fire is preparing the four embodied vehicles for their Transfiguration into the Light.

Imagine the lovely, strong and fortifying Perfection Patterns of Youth and Beauty the **physical body** might express if not held in the embrace of disease, decay, disintegration and death of karmic self. Imagine the eternal Youth and Beauty of physical agelessness when free of time and only expressing the fullness of Eternal Flame, forever ...or, as long as the Mighty I AM Presence desires a physical incarnation. Outside of space restrictions, imagine the Spiritual Freedom to be here, there, everywhere present...physically! This is Ascended Mastery! This is our Path!

Imagine the Spiritual Freedom for the **etheric body** outside of self, time and space. The Causal Body then fills each Chakra with the

Sacred Fire from each of its Multi-dimensional Spheres of Light. All the Cosmic Momentum of the Mighty I AM Presence developed from before self, time and space would then be available to the outer self. This is Power within Ascended Mastery!

Imagine the Spiritual Freedom for the **mental vehicle** when Perfection Patterns of the Divine Mind constantly flow into the world. Consider that there are more Divine Thoughts in the Mind of God than grains of sand on Earth! Affirm: I outpicture the Mind of God as I traverse daily life within the Great Silence.

Imagine the Spiritual Freedom for the **emotional vehicle** when the Perfection Patterns of Holy Spirit perfume the Heart. These come with all the Quantum States of Love that transform the emotional experience of daily life. This is the **Spiritual Epiphany** of the Saints and, soon the natural life cycle of the Gathering of Ascended Humanity! All of this is the Divine Potential of the Cosmic Violet Fire in preparing the outer vehicles for Transfiguration into the Light!

I AM the Permanent Atom of the Creation Process,  
and I AM constantly radiating Perfection Patterns  
into the world. This is my Ascended Mastery!  
This is my Ascension in the Light!

I AM filling the Universe with the Light of  
my Eternal Flame ...**let there be Light!**  
This is my Ascension in the Light!

I affirm as an Eternal Flame and its Radiant Light:  
**Let there be Light!** And, like Father / Mother God, I  
continually create my world in that image and likeness,  
continually co-creating all the world in their Glory!

And SO IT IS, BELOVED I AM!

## **ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ELOHIM VISTA...**

Beloved Lightwaves within my Crystal Vision! I too love and adore you for your Service to the Light! I see the Silver Cord of Electronic Light streaming into the Permanent Atom within the Three-fold Flame in your Heart. These electrons in their waveform are then acted upon by your Creative Faculties of Consciousness. And from that very act of applying your attention to this River of Energy, Matter and Intelligence, the Light in its 'waveform' collapses into its 'particle form' and, 'I have manifested the very thing I meditate upon.' This Creation Process is simply Perfection Patterns obeying Laws distinct from self, time and space. Thus, the outer mind does not know the when, where, how and why of its manifestation. But the Solar Christ Self does and is eternally patient, for that is the nature of Divine Love.

Such is the Activity of a *Sun of the Sun* embodied on Earth. And even greater, the Sun of Earth is composed of billions of Suns of the Sun ...each a Sphere of Light with a Sphere of Influence over which their Light governs the Energy, Matter and Intelligence to create the Divine Plan of Earth and Humanity. But taken together, within Coherently Connected Divine Consciousness, there is clearly the greatest Forcefield of co-creation on Earth! And I see this Crystal Vision constantly in my meditation on the Gathering of Ascended Humanity. Affirm with me:

***I AM in Love!***  
***I AM in Divine Love!***  
***Together, Transfigured in the Light,***  
***I AM in Cohesive Love with Universal I AM!***  
***I AM in Cohesive Love with my Elemental vehicles!***  
***I AM in Cohesive Love with every other Solar Christ***  
***Self ...embodied as the Mighty, I AM Race!***

Dear Ones let us contemplate the Great Solar Quiet ...the Great, Great Silence. There is a State of Being within the sub-atomic life of Divine Light between expressing its particle form and expressing its electronic waveform. This might be called 'existing without being' ...or, the Cosmic Peace of the Great, Great Silence ...Nirvana! But

as soon as any God Intelligence applies their Consciousness to this Sacred State, this Light then manifests either as Divine Qualities in its Quantum State waveform ...or, as the beauty of its expressed manifestation in particle form. This is why if we invoke an Ascended Master, they always respond! For on one level, we have tapped into their Great Solar Quiet and their flow of Light then responds to that invocation. The majority of their Consciousness may remain in Nirvana if they so choose, but they always respond! This is why we use discriminating intelligence in our Invocation of the Great Ones, for such Invocation carries responsibility.

This same principle applies to Humanity ...but on a subtle level. There are so many things in daily life calling on our attention that we sub-consciously respond to. Yet we may never notice either the invocation of our energies or our response to it with our energies. But we may wonder what happened to our energy or why our frequency has changed from that of our True Identity.

On a scientific level, this 'automatic response' comes from the Three-fold Flame anchored in every particle of life ...literally! The *quark*, a triune 'sub-atomic particle' of Flame is within every other particle of the creative process and carries the Three-fold Flame Forcefield of Father / Mother God. Quarks synergistically unite at their own sub-atomic level of Coherently Connected Divine Consciousness to form protons and neutrons, the building blocks of all matter and substance. Thus, the true nature of the physical universe is composed of quarks. How these incoming stimuli of sub-atomic 'light waves' or 'particles' register in the brain is how we perceive the universe. The higher the frequency of our vehicles, the more we see the Crystal Vision of Light within all things.

Similarly each particle of Light (photon) contains all the Divine Potential of Universal I AM ...and, Universal I AM is fully reflected in each photon of Light! In the Ascension Process, we train ourselves to see the Light in all persons, places, conditions and things. This is how Ascended Masters see you and the world around you ...a series of Lightwaves and shining particles of Light with their color, tone, movement and fragrance. You are a Joy to behold!

Outside the restrictions of time and space, our Three-fold Flame is the same Three-fold Flame of Father / Mother God. For there is

no distance between them and they were composed at exactly the same 'Cosmic Moment' and, made of the same Cosmic Properties. We come to realize that the Flame of Father / Mother God is right in our heart center and not in some far off place in the center of the Universe. We not only visualize this, but in scientific reality *it is in our heart!* The definition of Universal I AM is: *An Infinite Circle of Light ...with no periphery and, everything is the very center of this Infinity.* And if we are all at the center we must be One ... hence Oneness Consciousness is where all life truly lives its Divine Potential. The outer mind struggles with such concepts, but it too accelerates into this Cosmic Truth in the Ascension Process.

So when we understand and see with our Crystal Vision our True Identity as Eternal Flame and its Infinite Radiant Light, we know that we are but a triune quark of Flame and Energy, within a proton or electron, within Universal I AM! Yet at that same moment, all of Universal I AM is within us ...for we are both the central Three-fold Flame of Father / Mother God and its Infinite Circle of Light expanding into Infinity. We are both ...and, everything in between. So then there is no 'small or large,' no 'inner / outer,' no 'distance between things' ...but only Oneness Consciousness in which all things exist and develop their Divine Potential. And when we affirm: I AM God in Action ...we truly are all of this Truth! This is the 'image and likeness' of God!

And let us complete this sojourn together with our Crystal Vision of the *Causal Body of the Gathering of Ascended Humanity.* The Temples of our Eternal Flames and their Infinite Radiant Light now vibrate / radiate throughout the Inner Spheres around Earth. Each of our Quantum States of Divinity now permeates the physical, etheric, mental and emotional realms of daily life on Earth. And as they do, the Ascension of Earth and her Humanity accelerates to its Divine Conclusion! And a New Age of Spiritual Freedom is made manifest!

And SO IT IS, BELOVED I AM!
