ASCENSION CONCEPTS

The Holy Triumvirate welcomes us to Shamballa! December is the month when Shamballa is typically open to the Spiritual Hierarchy, their Chelas (Lightservers) and the Higher God Self of all Humanity. Shamballa brings a year to its perfect completion in the Sacred Energies of Harmony, Balance and Peace Divine, when all is handed over to the Karmic Board at New Years Eve. Specifically, this year *we gather …Together standing in the Light*, in our Coherently Connected Divine Consciousness as Suns of the Sun, to assist the Spiritual Hierarchy in the ***Transit of Earth into Love's Higher Orbit***.

We enter this Sacred Service in the Supreme Authority of the Sacred Fire Element. We stand within our Three-fold Flame, within the planet's Three-fold Flame and within the Three-fold Flame of Shamballa. All the attributes of the Three-fold Flame now govern …Harmony and Balance, Divine Peace and perfect Spiritual Stability. Rather than seeing this occurring within a specific Temple, let us see Shamballa as *being anchored within* and *built from* the Heart Flame of every Solar Christ Self …a Magnificent Planetary Temple! Therefore, the Solar Christ Self of all Humanity *is present with us*, that Golden Being of Sacred Fire Light within the Three-fold Flame. Humanity need only *go within* to be in Shamballa …one with our Sacred Ceremony of Planetary Transit.

THE HOLY TRIUMVIRATE

The Sacred Fire is a Magnetic Forcefield at its greatest Cosmic Power. In this Light, ***Sanat Kumara***, our Holy Regent at Shamballa, and 'all the Kumaras' from Venus *draw us towards the Love*

Frequency of their sustained Orbit. They magnetize Earth forward, *even as they also transit* to their next Higher Orbit, as a Planet and as a Race of Beings. In fact, the basis of a successful Transit of Venus into her next Divine Evolution rests entirely within their service to Earth …of our Transit into their established Orbit where Divine Love governs daily life. Contemplate how, within this Great Cosmic Inbreath, *love begets love begets love*.

In this Radiant Peace of Shamballa's Flame, ***Lord Gautama*** holds the Divine Wisdom and Balance he has always held as the Lord of the World. His Spiritual Entourage includes countless Bodhisattvas from the Buddhic Realms of *the Pure Land of Boundless Splendor and Infinite Light*. He rests in the Great, Great Silence upon his Lotus Throne. We feel the Powerful Magnetic Force of his Middle Way guiding this Planetary Transit in safety and stability. He smiles ***the Serenity of the Godhead***, as he remains blissfully silent in his Elevated State of Consciousness, radiating his Light to the entire world.

Then we come to the Magnificent ***Lord Maitreya*** who presides over this Ceremony as the Cosmic Christ and Planetary Buddha. He is to initiate Humanity into their personal Love Frequency as *the Solar Christ Self incarnate*. With this Initiation we now stand with all Humanity in their true Lightbodies, at the Brilliant Crystal Capstone of our Translucent White Ascension Pyramid. And, at the appointed hour in this Divine Ceremony of Planetary Transit, we magnetize all Humanity through this capstone of Light into the Golden Bar balancing at its apex …a Quantum State of Divine Love …the Higher Orbit of our sister Planet Venus. This is what the Golden Bar has always represented!

The Aura of our Crystalline White Pyramid is a ***Golden White Sun***. This is our personal *Sun within the Sun*. It now resides at the very center of a *much larger* ***Pink Sun*** that we also stand together within. This all-inclusive aura is that of Cosmic Divine Love …from which ***Shamballa***, the City of the Sun, was born! This Pink Sun represents Holy Spirit …the Cohesive Power of Divine Love uniting all life in her Ascended State! It enfolds the entire Earth and extends well out into space. The Earth is embraced in the limitless Love Frequency that Venus has resided within for eons.

Thus, the Earth can now make her safe transit into that Higher Orbit. Remember dear ones that in spiritual terms, 'orbit' refers to a *planet's frequency* of energy, vibration and consciousness, rather than a trajectory in three-dimensional space around an object. We do not have to 'go anywhere' to achieve this Planetary Transit.

Rather we only need *ascend the frequency* of Humanity's energy, vibration and consciousness within daily life. We accomplish this now through the *Love, Wisdom and Power of the Solar Christ Self* ***now initiated into and governing daily life***.

One may wonder, given the heavy imbalance presently seen on the screen of life, if this transit is plausible. Remember dear ones, that what appears on a screen *will change in a single moment* if the projector producing the illusion on the screen suddenly changes! This is what this Cosmic Moment is about and why we see ourselves as ***Beings of Cause*** …***Lords and Ladies of the Flame*** in *the creation of our reality* …rather than any longer victims to karmic illusion. *This perspective is our comfort as well as our strength*, as Ascended Masters-in-training and 'preparers of the Way' for all Humanity …who shall now likewise understand their *full Power as Children of God and all the Divine Rights and Privileges therein*.

There is a science of transformation that understands 'tipping points' in great Causes. An old momentum quite suddenly changes, moving in a *distinctly different direction* …offering an entirely new level of reality. And there are many 'signs' in the outer world *that we can all see* …that we are indeed approaching this tipping point. And furthermore, the Spiritual Hierarchy are simply affirming, *given their Higher Order Vision in seeing the cause and core behind manifestation*, that we are (***I AM***!) in fact ***at this tipping point right here and now***! And SO IT IS!

Thus, we are filled with Hope and Spiritual Enthusiasm in the service of the moment. This is a ***Supreme Opportunity***, and we are so very grateful for our outer awareness of it …even as we hold the Immaculate Concept of this Supreme Opportunity for all Humanity who are not yet outwardly aware of this Great Promise. We thrill at the thought of our lifestream's fulfillment of its Divine Plan here and now …and thus ***our personal Ascension within this greater Planetary Ascension***.

As the Gathering of Ascended Humanity is initiated by Lord Maitreya, we now become a ***portal*** for all Humanity into the Great Cosmic Inbreath. Contemplate this Supreme Opportunity of service. *We are the Great Initiator with Lord Maitreya …Together, standing in his Light*! He is working through us, just as He over-lighted and abided within the Consciousness of Beloved Jesus 'when the miracles occurred.' And let us affirm in our Hearts Beloved Ones, that ***we are indeed participating in a Cosmic Miracle***!

And, SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF THE *BELOVED HOLY TRIUMVIRATE AT SHAMBALLA*…

I AM the collective Energy, Vibration and Consciousness of Beloved ***Sanat Kumara*** as our Sacred Regent or overseer for all things ascending into their Love Nature …of Beloved ***Lord Gautama*** and his all-embracing God Illumination …and of dear ***Lord Maitreya*** who leads all Divine Ceremony of the Spiritual Hierarchy with the full Authority of Shamballa.

We welcome *all Humanity* into the opening of Shamballa, guided and attended by the Gathering of Ascended Humanity. We are assigned the role as 'Temple Attendants' of this Sacred Ceremony of Planetary Harmony and Balance. Here the entire Spiritual Hierarchy is represented in this Central Flame Room, gathered in circular tiers around the planetary Three-fold Flame. Towards the Center of the Flame Room is the ***Activity of the Five Suns***, representing the ***Hand of Cosmic Holy Spirit.***

This can be seen as the Three-fold Flame of Shamballa encircled by five other Three-fold Flames, in the pattern of the ***Five-pointed Love Star.*** This includes the Flames of our Father/Mother God from the ***Sun, Central Sun and Great Central Sun*** …of Beloved Pelleur and Virgo representing ***the Eternal Sun of Even Pressure***, Earth's Permanent Atom in the Center of Earth …and, the collective *Three-fold Flame of Ascended and Free Humanity****, Suns of the Sun on Earth***, represented by ***One Flame of the I AM Race***. The Ceremony begins as these Noble Beings now take their places of Honor in their Throne Chairs assigned. (Pause and visualize)

Encircling this inner tier are all the representatives of the Major Rays who serve *on Venus and on Earth* …their Elohim, Archangels and Ascended Masters, all surrounded by their Angelic and Devic Hosts, flying the Standard of many Cosmic Beings. Around this circle are the Living Light Bodies of the I AM Race on Venus (known as Seeds of the White Fire Being), *and the I AM Race of Earth* as represented by every Solar Christ Self of Humanity *in their full blazing Glory*. This is the true Gathering of Ascended Humanity! Most of the gathered are in Robes of Violet shades, honoring the Divine Dispensation of Spiritual Freedom and the Seventh Ray advent on Earth. Even though the numbers of Beings would seem endless, this gathering *free of time / space restrictions* happens quite effortlessly and harmoniously.

The alignment of these Three-fold Flames …of ALL Three-fold Flames of Venus and Earth …is now Shamballa's Forcefield.

This interplanetary Three-fold Flame Activity ***is*** the Harmony and Balance necessary for this Earth's safe transit into Higher Orbit. And although the ego personality in daily life may not realize the significance of this, we now enter a Relam of Divine Love Consciousness that *now transforms daily life into the Harmony and Balance known on Venus*. Humanity shall now steadily arise out from the restrictions of time and space and into the ***Peace Sublime*** of Eternity and Infinity Consciousness. Humanity now begins to accept her ***True Identity***: I AM an Eternal God Flame, in a temporary embodiment, to expand the Light of this World! And SO IT IS! (Pause and accept)

At this Cosmic Moment we now hear a great crescendo of Glorious Music and Tones. Then a Mighty Collective *Invocation,* the *heart felt call* of every Solar Christ Self on Earth, is given to our sister Race on Venus …that we may now occupy her Higher Orbit. We ask permission *and it is granted in Grace*. The I AM Race on Venus has lovingly prepared a Spiritual Home for us, made up of the ***Love-based Consciousness for a completely harmonious daily life***. Out of this Consciousness emerges the creation of a New World for Humanity. Here there is no disease, distress, aging or death. Here there is no conflict, injustice or imbalance …but only the perfect outcome of the Law of Divine Love *applied to and governing all aspects of daily life*.

In this Sacred Ceremony, our Crystalline White Pyramid of Ascended and Free Humanity ascends to greet the descending Crystal Capstone of the Love Star of Venus. Visualize this as two triangles merging. And as the two Forcefields merge, together they also form the ***Love Star of our Beloved Sanat Kumara***. Lady Venus and all the Kumaras of Venus stand with Sanat Kumara at the Crystal Capstone of the descending triangle …just as the Spiritual Hierarchy stand with Ascended and Free Humanity at the Crystal Capstone of Humanity's Ascending Pyramid from Earth.

As the two Crystals merge there is an intense Light radiated, which *forms the actual Threshold of Light over which Earth and Humanity make the safe transit into her Higher Orbit of Divine Love.* Meditate on this. As we do, we now realize that with every affirmation of our Victory Statement made over the years, ***that this is the Light we have been standing together within, adding to the Creation of this Threshold and to the Victory of this present Cosmic Moment!***

All of this Divine Ceremony takes place within the Aura of Shamballa's Three-fold Flame, which now considers every Three-fold Flame evolving on Earth (every Solar Christ Self) *and* …every

Three-fold Flame evolving on Venus, as represented by the Kumaras. Here then is a melding of sister Planets, of sister Races and of sister Divine Plans *fulfilled*. This ***Crossing of the Threshold*** is the climax of *countless lifetimes of Divine Service to the Light* …both on Venus and on Earth. The cohesive Love connecting all of this complex service is the Sacred Sacrifice of Sanat Kumara, who's Light and Love saved the Earth from dissolution millions of years ago and who still leads by example …revealing ***Divine Love overcoming*** all energy, frequency and manifestation *less than itself*.

Throughout the Galaxy, every Planet under Helios and Vesta and every Sun under Alpha and Omega join us in holding the Great, Great Silence of Harmony, Balance, Alignment and Peace Divine …for the complete Victory of this Transit. This Transit of Earth both Initiates and Completes the Great Cosmic Inbreath for all Races of Being under Alpha and Omega. Although the Holy Triumvirate of Shamballa are the hosts for this Divine Ceremony and our Father/Mother God are the honored Authority, it is Beloved Lord Maitreya who presides over the entire affair, as the Great Initiator of Divine Love.

The gentle reader can see the Holy Triumvirate of Shamballa represents both Earth and Venus …for all Three Beings originate from Venus yet all Three Beings have been integral to Earth's spiritual evolution over many eons of Lightservice. Let us remember the history of Shamballa's Forcefield. Preceding Sanat Kumara's coming to Earth, Shamballa was built by a legion of Kumaras from Venus. One specific Kumara ensouled the Power of the Blue Ray, one the Divine Love Ray and one the Gold Ray of God Illumination. And as these Three Rays were forged into Oneness upon the Altar, the Three-fold Flame of Shamballa was formed.

Their decent of the Holy Kumaras was on a Pathway of Flame into Shamballa and anchored the Cosmic Three-fold Flame therein …the governing influence of the City of the Sun. Into this Flame our Lord and Regent, Beloved Sanat Kumara, stepped. And at that Cosmic Moment, this Central Three-fold Flame within Shamballa *instantly connected / unified with the Three-fold Flame of all Humanity* …even if the Heart Flame were but a tiny spark at the time. Now it is a True Flame once again, because of the progress in Consciousness of Humanity over the last decades. Yet each Heart Flame is still *totally synchronized with the Three-fold Flame of Shamballa*.

We now turn our attention to the Hand of Holy Spirit (the Activity of Five Suns described above). It has the honored position around the Central Flame, creating the Love Star. This aspect of the Ceremony signals the ***crossing over the Threshold into Holy Spirit*** *…as well as* …the passing of this Sacred Year (2012) in its fulfilled Divine Potential …into the Sacred Year 2013 and its opening Divine Potential, a Year dedicated to Holy Spirit. ***Holy Spirit*** *is* ***Love made manifest*** …and thus Humanity now enters an Eternal Age of experiencing the limitless wonders of this Truth.

For the Gathering of Ascended Humanity, the honor is ours to be present and engaged in this Divine Ceremony. In our personal experience of this Ascension Process, we realize that our Crystalline White Pyramid *is our safe passage* as we approach the Threshold. We begin this Ceremony initially standing within our pyramid, with our feet on its base (one with all Humanity) …with our Three-fold Flame filling all levels of Humanity within the pyramid …and our attention upon the Crystal Capstone at its apex. As we *Cross the Threshold*, we arise out the top of the Pyramid and into Lord Maitreya's Golden Realm of God Illumination …or Love's Perfect Balance made manifest!

As we Ascend out of this Crystalline White Pyramid, the Golden White Sun (the aura of the Pyramid) ascends with us, as it ensures *all Humanity arises with us*. This is the Majestic Light of our Mighty I AM Presence and White Fire Being *personally guiding and protecting all Humanity through the Threshold of Light* …created by the merging Crystal Capstones of Ascended Earth and Beloved Venus. Here we are the portal for Humanity. Here we fulfill the promise: ***As I AM raised up, so is all life raised up with me***! Here Humanity enters the Realms of Light always promised. Here we cross the Bridge to Spiritual Freedom!

Beloved Ones we can see from this process of Planetary Transit that we follow the Order of our Victory Statement of Ascended and Free …something we have collectively spent years building a Cosmic Momentum of. We know our service as Builders of Divine Consciousness and this Momentum is but one aspect of this service. So let us review our Victory Statement and how we have been builders of Divine Consciousness for years leading to this Cosmic Moment:

I AM Ascended and Free …Together, standing in the Light!
This is our Crystalline White Pyramid of Four Grand Triangles

I AM the Gathering of Ascended Humanity
This is our Golden White Sun, the Aura of this Ascension Pyramid that now Inbreathes and Assimilates all Humanity for this present Planetary Transit!

In Union with the Royal Kingdom of Angels and Elementals
This represents the Spiritual Consciousness of *Brotherhood, Mutual Respect and Unity with all Life* we now Ascend into.

Through the cohesive power of Divine Love, uniting all life in her Ascended State
This is the much larger Pink Sun, the Activity of Holy Spirit.

As Builders of Divine Consciousness, you have sufficiently 'made Sacred' our sweet Earth and her Humanity (more than 51%) so that this Planetary Transit is now possible. You carry on an ancient tradition …for Shamballa itself means to '*make sacred.'* So, it is within this Transit Forcefield, that we complete the process of 'making sacred' Humanity for her Transit into Divine Love Consciousness. Representatives of Shamballa, including the Gathering of Ascended Humanity, *make sacred* all Energy, Vibration and Consciousness around them. Collectively in this Ceremony we *make sacred a planet*, offering our now Sacred Earth up to Father/Mother God, in the full Restoration of her Divine Plan.

The Holy Triumvirate is so very grateful that Ascended and Free Humanity *gathers consciously with us* in this Sacred Service, for *when the call and spiritual effort comes from the realm needing the assistance*, then Victory is assured! And the Victory of Divine Love *is* the Frequency of Venus!

And SO IT IS, BELOVED I AM!

*****

ENERGY, VIBRATION AND CONSCIOUSNESS OF OUR *MIGHTY POLARIS AND MAGNUS*…
On holding Divine Balance and Alignment for the Transit of our sweet Earth into the Orbit of Love.

I AM the ***Maintainer of Balance and Alignment*** on the level of Planets, Solar Systems and Galaxies. I see each of the Gathering of Ascended Humanity as Glorious Beings of Light working with me …***Agents of Balance and Alignment*** within the Spiritual Axis of Earth. Here your Energy, Vibration and Consciousness is already at the Frequency of Venus's axis …and thus you are an already

prepared ***Bridge of Light and Flame*** …for the *goal for all Humanity* and *our sweet Earth* transiting into that Divine Frequency.

I see each of you as a ***personal Forcefield*** …and the Gathering of Ascended Humanity as a ***planetary Forcefield*** …of ***Cosmic Balance and Alignment***. I see this as a scientist observes the forces within physics. I AM witnessing your personal and collective Forcefield as the *natural powers of magnetism and polarity being utilized toward the Ascension* of our sweet Earth! Contemplate this. The ***Gathering of Ascended Humanity***, on all its multiple Spiritual Dimensions, in Union with the Royal Kingdoms of the Spiritual Hierarchy, Angels and Elementals …***now steps forth as Divine Directors of a Great Planetary Transit***.

I AM also grateful that your Coherently Connected Divine Consciousness has collectively maintained an embodied Celestial Harmony necessary for a physical, etheric, mental and emotional alignment of Humanity's Axis. For not only does the physical axis of the planet require straightening and alignment, so too does the Spiritual Axis of the Race …to align with that of other Ascended and Free Races throughout this Solar System …particularly that of the Love Race on Venus. This allows the Planet and her Race to find their perfect alignment necessary in order to now become the more *etheric planet*, with a more *etheric Race*, during her Ascension into Higher Orbit. This transformation will be incremental over the Seventh Ray Major Cycle, whose beginning *will now be obvious in manifest works* with this present Transit.

Higher Orbit brings a *Higher Order of everything already 'good and perfect' about the Earth*, leaving behind everything less than 'good and perfect.' Earth remains a planet in spiritual orbit around Father/Mother God Helios and Vesta …but drawn closer in Frequency to their Central Flame. This occurs outside the time and space continuum so that is will not be measured as much in physical terms, but rather in the ***transformation of spiritual development***.

As Agents of Spiritual Balance and Alignment, you are the *magnetic force* that *aligns all energy, vibration and consciousness* around you into its own Divine Potential fulfilled. This in turn will have whatever physical, etheric, mental and emotional effects it does, all according to free will. But rather than placing attention on the *effects*, our focus is on ***the Cause*** …*the action of Sacred Fire and its Radiant Light* during this Transit. This is the ***Sacred Science of Alchemy,*** a fundamental aspect of the Seventh Ray now expressing. And ***its moment of revelation is now***!

Let us see and feel ourselves merging, together standing within the Light of my interplanetary Forcefield. You know this Celestial Light as the Aurora of Northern / Southern Lights in the upper planetary atmosphere. Imagine yourself from the vantage point of Polaris above the planet …and at the vantage point of Magnus below the Earth. Then imagine yourself as the entire Electro-magnetic Forcefield of Cosmic Protection around the planet (anchored at these two points). Feel yourself as a moving, pulsating Forcefield in the Higher Spheres, as multi-colored Light 'dancing' around the northern and southern hemispheres of Earth.

All of this is but a small fragment of my Greater Cosmic Forcefield ensuring Balance and Alignment throughout many dimensions of Solar Systems. (Pause and contemplate the *celestial immensity* of this scene). Serenely established within this visualization, affirm with me: ***I AM accelerating the frequency*** of all aspects of daily life …into their Divine Alignment with Earth and Humanity's ***Divine Axis*** …alignment with the Celestial Axis of the ***Great Cosmic Inbreath*** …and alignment with the ***Plan of a Perfect Transit*** of Earth (held by the Spiritual Hierarchy) into *the Cohesive Power of Divine Love uniting all life in her Ascended State*. And SO IT IS!

In this visualization / affirmation we include our Body Elemental and thus our physical, etheric, mental and emotional vehicles. Let us ensure they too are aligned in Harmony and Balance, so *every aspect of us* makes the transit *perfectly*. Therefore, let us take every cell, atom and electron …then all persons, places, conditions and things …then our world, affairs and finances on a global scale …ensuring *all are aligned* with the *Axis of Divine Love* that is required for a Perfect Transit within the Great Cosmic Inbreath.

POLARITY AND MAGNETISM

Let us meditate on polarity and magnetism as the *science* of ensuring our perfect Transit. In this meditation we seek a *deeper meaning of Harmony and Balance*. In ***Polarity*** we see opposite characteristics at opposing points, both in physical and spiritual dimensions …especially with respect to their electric charge and magnetic properties. This might be represented spiritually as Yin and Yang. We already understand that Yin is at the center of Yang and Yang at the center of Yin …with each at the right and perfect distance from each other …*holding everything in between in perfect alignment and equilibrium*. This not only refers to physical objects, but all thoughts, feelings, words and deeds …our *Creative Faculties perfectly aligned and balanced*. Within this Polarity we hold all aspects of daily life in abeyance under Cosmic Law.

Then with ***Magnetism*** we see the phenomenon of physical and spiritual attraction …induced by a *moving electric charge* in the physical realm …or an *upward rushing Spiritual Current of Sacred Fire* in the case of Ascending an entire planet. This is what magnetically draws Earth into the Higher Orbit of Venus. This is the force exerted by a magnetic field that has undergone meticulous creation to an exacting science. In appreciating Polarity and Magnetism, we see they are One …yet one is a force of divergence and the other a force of convergence. In the end, perfect Harmony and Balance is the result! And SO IT IS! (Pause and contemplate).

This is exactly the God Illumination within Lord Maitreya's many discourses on Divine Love …Love's Perfect Balance made manifest. On a grand scale, we see that this same Forcefield perfectly balances the exact orbit of each planet …*not one iota too far or too close to the Central Flame of Father/Mother God*. In our Service on many Cosmic Levels, we ensure the science of this Balance and Alignment is perfectly applied to Planets, Stars and Galaxies …and now perfectly for our sweet Earth, and in fact, perfectly for *each of her cherished Humanity*! This is to ensure each one now makes a safe transit to Higher Orbit of Love Frequency and that every aspect of their lives makes the same Ascension with them.

Dear Ones, allow a personal note …to remind you how prepared you are for this Transit …by giving you a Cosmic perspective of your own Being. For indeed, you are an ***Infinite Circle of Light***. So, one within my Cosmic Forcefield let us meditate on the following:

I AM an Infinite Circle of Light: I began this Circle as a ***White Fire Being*** born of Father/Mother God's Central Flame of ***the Great I AM***! For eons I enjoyed the full Radiance of Perfection within the Causal Body of Father/Mother God. My Circle widened when I then projected forth Twin Rays from the White Fire Being, ***Mighty I AM Presences***, serving Father/Mother God in many diverse universes across multiple dimensions of creation. As the Circle continued, I then chose to become part of an embodied Race to experience the physical manifestation of Perfection. I projected forth the Holy Christ Self onto Earth, from which came forth the physical, etheric, mental and emotional 'elemental bodies,' instruments through which I served to expand the Borders of Perfection while unfolding my Divine Plan across many embodiments.

And even given all that has happened since, my Infinite Circle of Light once again continues, and I begin the return journey …the Ascension! I AM becoming again the Solar Christ Self, living the

Spiritual Reality beyond the limitations of only recognizing the four vehicles of embodiment. Through becoming my Solar Christ Self, I begin to fully live the Mighty I AM Presence. And, at the appointed hour, I AM to rejoin my Divine Twin as the White Fire Being! And then my Infinite Circle of Light is complete. And for me this constitutes but ***One Cosmic Day*** in my eternal journey within Father/Mother God!

Within this endless journey, I can think and perceive as an individual …the 'droplet of water' within the ocean, fulfilling my own unique Divine Plan …*and* I can think and perceive *as the ocean* itself. And the ocean does not need to go any where or do anything, as the ocean *already is everywhere* and *already is doing everything,* full of life *thriving in all its dimensions*! And I ***AM all of that*** …all of ***Universal I AM …everywhere present, knowing all,*** with the ***power and resources to accomplish*** (the Light contains all the Energy, Matter and Intelligence necessary for the entire Divine Plan) …in short, ***omnipresent, omniscient and omnipotent***! And, *empty of ego*, this is ***God in Action*** …***here, there and everywhere present!*** This is what ***I AM*** …and ***I AM that I AM!*** And SO IT IS!

Dear Ones, ***VICTORY IS OURS*** at this Cosmic Moment …as we stand together in this Light!

And, SO IT IS, BELOVED I AM!
