ASCENSION CONCEPTS

Beloved Lightservers within Ascended and Free Consciousness, the final chapter of 2012 was a Cosmic Event in the Realm of Cause, even if not readily evident on the screen of life. For since then, we have now taken our *'first True Breath of a truly New Age'* ...as if our first breath of fresh air in centuries. As we still the outer self and achieve *'empty of self, time and space,'* we feel a *New Energy, Vibration and Consciousness* within Earth's Sphere of Influence. ...Peace, Be Still! ...Peace *Being* Still ...and, SO IT IS!

Scientifically, everything is always moving, always vibrating ...and, *within the Divine Plan, always Ascending!* Thus, our service to the Ascension process (and particularly our *Vision of all Ascending Together*, standing in the Light) ***lies in our service to the Divine Plan.*** We have been trained in Ascended Master Temples to always think and feel, see and affirm, *the Highest Divine Potential* for all life. Such Loving Service, by definition, comes with *no outer recognition* ...as *we serve from Cause* ...wearing our Cloak of Invisibility in the realm of effects.

And Love's Service *is eternal* ...and continues on. And with the Cosmic Initiations of 2012, *we can now Love from a Higher Dimension of our own Being!* This is living the Mighty I AM Presence through the Solar Christ Self ...allowing the full Cosmic Momentum of our Causal Body to *now direct* the course of Earth and Humanity. So here we are, taking our First Breath after a significant step forward *in an eternal journey.* There are always 'jumping off points' where 'everything changes' ...but, ***we often do not recognize those changes until further along the journey.*** Often an experience at one point of the journey brings wondrous, sometimes unexpected results *later in that same journey.*

One aspect of ***our Theme and Thoughtform for 2013*** is the Golden White Sun of Illumined Ascension (representing the Golden Flame within the Three-fold Flame). This signifies that as we proceed along the Ascension Path, *we gain Illumination* ...as we certainly have from our 'Dec. 21, 2012' event. Kindly contemplate that there is a certain Divine Illumination intended for *'preceding and preparing for the Ascension'* ...certain elevated God Illumination *'during the Ascension'* ...and then an even Higher Cosmic Illumination for *'after the full Ascension.'* And here we are proceeding along that Eternal Journey.

For us in Ascended and Free Lightservice, we see 2012 as *bringing Humanity to her Threshold of the Ascension ...thereafter now entering her journey across her Bridge to Spiritual Freedom in all areas of daily life*. This last phrase gets sometimes missed; that the Ascension *reveals itself in all areas of human development ...often through individuals or organizations that appear other than 'spiritual' on the outer*. We pay homage and give Reverence for all Seven Rays and the diverse manifestation of the Divine Plan.

For us in dedicated Lightservice along the *overtly Spiritual Path* (one of the Seven Rays), the advancement springing from 2012 is to *enter a New Phase of the Mystic Life within Holy Spirit*. Each affirmation of our Victory Statement *expands this gift*. Let us review this Higher Truth within our *Victory Statement*:

***I AM an Infinite Circle of Light ...
inclusive of all life living free in the Light!***

Our Infinite Circle of Light is our White Fire Being, now allowing its Celestial Sphere of Influence to enter into daily life, ensuring that *all life is included* in our Ascension in the Light. This is what allows for our *Mystic Oneness* in our *Golden Age of Spiritual Freedom!* Feel the *Mystic Nature* of our White Fire Being, our Highest Aspect of God Self, a Divine Union of Twin Rays!

I AM Ascended and Free! ...Together, standing in the Light!

Feel the *Mystic Oneness* of *Living the Mighty I AM Presence as the Solar Christ Self ...and then further, the Mystic Union* of every Solar Christ Self in our Ascended and Free Nexus of *Coherently Connected Divine Consciousness* enfolding the Earth.

In Union with the Royal Kingdoms of Angels and Elementals

Here we affirm the *Mystic Relatedness* of the Brotherhood of Angels, Elementals and Ascended and Free Humanity. This brings a *heightened experience of spiritual confidence* in our 'moment to moment' *Mystic Awareness* of the God Power, Authority and Victory continuously surrounding us. These Mighty Angelic and Elemental Co-servers respond to our Eternal Flame and its Infinite Light. The more we *become* our Solar Christ Self emerging from our Three-fold Flame, the closer we are in *Mystic Union* with these Royal Kingdoms. Here ***I AM the Flame of Reverence for all Life***. Here ***I AM the Resurrection and the Life of True Unity of the Three Kingdoms on Earth ...the Grand Triangle of Three Fire Signs*** clearing the Way for Divine Potential *in all life!*

***Through the Cohesive Power of Divine Love
uniting all life in her Ascended State!***

Here our collective service knows the ***Mystic Reality*** of Thoughtforms and Forcefields, as Divine Directors of Celestial Light! In this Sacred Year of 2013, Cosmic Holy Spirit now manifests through these Forcefields: the Great Cosmic Inbreath, the Divine Dispensation of Spiritual Freedom and the Divine Feminine Ray. These collectively represent the ***Synergy of Divine Love*** in its principal Forcefields working together in this Cosmic Moment. Our ***Mystic Reality*** is ‘*Together, standing in the Light of this stupendous Celestial Power!*’ This allows us to experience the ***Mystic Office of Divine Director*** as the ***embodied Spiritual Hierarchy*** of our sweet Earth ...specifically representing the Holy Triumvirate of Shamballa as Initiated by our Beloved Lord Maitreya. ***This is our Victory of 2012*** ...ever expanding in this present year of service (2013)!

In this Mystic State we more fully comprehend the Hand of Cosmic Holy Spirit with its Sacred Fire flowing through all Activities of 2013. The Holy Breath breathed out from the Heart Flame activates Divine Activity (the Hand). This Activity is that of the Five Suns (five fingers) and their Sphere of Influence now guiding daily life on Earth. It includes the three levels of Father/Mother God (***Sun, Central Sun and Great Central Sun***); the ***Eternal Sun of Even Pressure in the Center of the Earth***; and ***the Sun of the Sun on Earth*** ...the Solar Christ Self, individually emerging from the Three-fold Flame *and* collectively emerging as the Gathering of Ascended Humanity from within Humanity.

Our Coherently Connected Divine Consciousness now becomes the ***Keeper of Alignment with the Divine Plan*** in the Consciousness of daily life ...in every cell, atom and electron ...in all world affairs ...in all persons, places, conditions and things. This in itself is a ***Mystical Reality that Ascended Masters know and love***. As has been said (see June 2012): “With the coming of Holy Spirit comes ***the imbue ment of Humanity with Holiness*** ...the Sacred Knowing that there is an experience of life ***much more profound, much more multi-dimensional***, than ego-based daily life. This experience forever transforms the context of daily life. This Holiness will take many forms, be captured in many diverse thoughts and be enjoyed in many different, positive feeling states. It will bring out the very best of every person, place, condition and thing, within every Race, Culture, Religion and Creed. It now ***Unites Humanity in Oneness***

Consciousness at the level of Profound Holiness and sublime Spiritual Happiness! Continuously *Mindful of Holiness*, this *very quickly* supersedes the challenges of ego, *transforming daily life!*”

And adding to this Victory we now have our sister I AM Race on Venus directly coming to our aid with all the God Power of Divine Love they have generated for eons of *living a daily life fully based in Love*. So we affirm, standing *one* with all Humanity:

Seeds of the White Fire Being, the I AM Race on Venus,
Children of our Beloved Sanat Kumara:

Draw us into Love's Perfection! (X3)

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF OUR BELOVED DIRECTORS OF THE FOUR ELEMENTS:

HOLY SPIRIT GOVERNS THE ELEMENTAL KINGDOM.

Beloved Ones, now that we are on a heightened level of Energy, Vibration and Consciousness in this Sacred Year of Holy Spirit, allow us to further illumine our service as Directors of the Elemental Kingdom. Collectively, we are central to the Seven-fold Matrix of Creation on Earth ...*and*, the Twelve-fold Zodiacal Matrix, the Cosmic Womb of all Creation in the Sun and Central Sun. Within Ascended Master training is the discovery of these same Celestial Powers of Creation within Humanity. They express as *the Foci of the Elohim* within all Divine Intelligences ...as the Seven-fold Flame of the Elohim and the Twelve-fold Crown of the Elohim. Let us review the Mystic Nature of these Divine Powers that we each may wield within our Sacred Presence on Earth ...the Gathering of Ascended Humanity *within daily life*.

The Third Ray of the Three-fold Flame *governs manifestation*, as *Love made manifest*. Holy Spirit acts through its five sub-Rays (Rays Three through Seven) to reveal the Divine Potential in all areas of life. But like all Rays within the creation process, it needs to be *anchored and directed* in the realm in which the creation takes place. The Directors of the Four Elementals now see Ascended and Free Humanity, *the Solar Christ Self of all*, as this opportunity of Divine Expression. This is Holy Spirit in action ...Holy Spirit *through Humanity* governs the Elemental Kingdom! Welcome to our Realm of directing the Mighty Forces of Creation within the Elemental Kingdom ...as we feel welcomed into your daily life through our *oneness of co-service* ...thus allowing us to speak as *one of you*.

Please allow a short review. When Beloved Helios and Vesta agreed to set into motion a planet of physical dimensions into their Solar System, they called forth Mighty Beings from the Cosmos to supplement the Service of the Seven Elohim. These Beings are known as the **Directors of the Four Elements**. They have been known historically by many names but presently as Beloved **Pelleur and Virgo** (Mother Earth / Gaia) directing the Earth Element (Gnomes as the Spirit within Earth); Beloved **Neptune and Lunara** directing the Water Element (Undines as the Spirit within water); Beloved **Thor and Aries** for the Air Elemental (Sylphs as the Spirit within air) and Beloved **Helios and Vesta** for the *supreme Element* of Fire (Salamanders as the Spirit within fire). Mighty Zarathustra and the Elohim Lady Astrea also assist Father/Mother God in the Divine Direction of the Sacred Fire Element *at this time of Planetary Baptism through Sacred Fire*.

These Mighty Beings also help direct the development of the Holy Christ Self in all Humanity, through the **accelerated frequency** of our *mind* (Air / Sylphs), of our *emotions* (Water / Undines); of our *body / physical presence* (Earth / Gnomes) and or *our Spirit Nature* (Sacred Fire / Salamanders). This year has been dedicated to the Mystic Reality of attaining Holy Spirit ...and *only through Divine Union with the Four Elementals can this be achieved*. The 'miracles' of walking on water, of levitation in air, of precipitation of substance ...these are symbolic of overcoming all restrictions of the physical realm through **Graceful Reverence for, Loving Union with** and **Divine Governance of** the Beloved Elemental Kingdom.

In order to accomplish this we first assume our Divine Instrument of the Solar Christ Self ...God in Action on Earth. Let us visualize our Seven Chakras, in their perfect symmetry of geometric function, governed by the Holy Christ Self. At this point of the Ascension, with more than 50% of all Energy passing through these Chakras *ascending*, this accelerates our Kundalini Fire spiraling upward along the Solar Spine and further accelerates the **Seven-fold Flame of the Elohim** at the forehead. This brings an elevated Enlightenment and a further *Reverence for* and *Oneness with* all Life ...a True Disciple of Holy Spirit.

Let us visualize the Three-fold Flame and its planetary spine of Seven Chakras. Experience each Chakra Ascending, both in meditation *and* through our actions in daily life. As each Chakra increases frequency, our Kundalini blazes upward, spiraling into the Seven-fold Flame of the Elohim. Visualize and feel this process. Affirm: *All my Ascending Energies now gather at my Seven-fold Flame of the Elohim at my forehead. I AM governing creation from*

this Flame! As I do, this now allows my Crown of the Elohim to enfold everything that I AM! Here the Crown Forcefield acts as the original Womb of Creative Powers, synchronizing the Sacred Influence of the Twelve Zodiacal Temples of the Sun through all that I do, think, say or feel. I AM God in Action!

As our Chakras Ascend, they instantly align with the Mighty Directors of the Four Elements ...as well as Beloved Astrea and Lord Zarathustra specifically for the Sacred Fire. Our seven-fold planetary spine then merges with the Twelve-fold Solar Spine of the Mighty I AM Presence. This *Solar Spine* is also aligned with Mighty Polaris and Magnus and the *Divine Axis of New Earth!* This allows that all of our Elemental structures, on all physical dimensions, are in Divine Alignment with the Solar Christ Self on all its Higher Dimensions of Solar Being ...thus *living the Mighty I AM Presence!* ***I AM the Divine Axis of Ascended and Free Earth, through living the Mighty I AM Presence!***

The ***Twelve-fold Crown Forcefield*** plays an important part of Ascension and the creation of a Golden Age. This Forcefield acts *personally and globally* in its Divine Service. It creates the aura of a Divine Mind (halo effect), then merges with the aura of the Twelve-fold Solar Christ Self as it expands out and around the person. At this point of the Ascension, each of the Twelve Sun Temples secures a Focus within the aura of embodied beings. Imagine this ...a *true Divine Instrument* of the Mighty I AM Presence! And, if expanded to *global dimensions*, this Crown Forcefield helps create and sustain *Earth's rebirth in Higher Orbit.*

Further in the Ascension Process, each Twelve-fold Crown Forcefield within the Gathering of Ascended Humanity aligns in Divine Synchronicity ...in Coherently Connected Divine Consciousness ...as a *planetary Twelve-fold Forcefield* of Solar Harmony, Balance, Order and Alignment. This too is part of Lord Maitreya's *collective Initiation of Ascended and Free Humanity!* This Initiation now allows the Divine Light from the Mighty I AM Presence to enter our Three-fold Flame, be dispersed perfectly through our Seven Chakras and then return on the inbreath, rising and coalescing into the Seven-fold Flame of the Elohim on the forehead! This then directs the Mighty Forcefield of the Twelve-fold Crown of the Elohim to perform its perfect service in this planetary Transit, *ever expanding its global impact.* ***I AM One with the Mighty Elohim and Cosmic Devas creating the New Earth, in her Higher Orbit, with her Arisen Humanity!*** And SO IT IS!

Using these Creative Faculties of the Mighty Elohim allows a Cosmic Vista of our planetary transit. Visualize Elemental Sentinels ...from the Mighty Elohim, Silent Watchers, Deva Rajas and Devas ...through to every Sylph, Undine, Gnome and Salamander ...respond to the call of the Solar Christ Self in Action on Earth. Guided by the Seven-fold Flame of the Elohim, our Twelve-fold Crown of the Elohim is a Forcefield of tremendous Strength and Power in the Divine Harmony and Balance of our planet. The Earth was first formed in this bosom of this Twelve-fold Forcefield ...the absolute ***perfect Divine Alchemy of Cosmic Forces***. Now we put our Twelve-fold Crown of the Elohim into action as Ascended and Free Humanity on Earth!

Let us visualize our Twelve-fold Crown of the Elohim expanding to enfold the Earth ...both horizontally and vertically. Such a Forcefield radiates dazzling streams of multi-colored Electronic Light. This Activity becomes one with the ***Ring Pass Not of Cosmic Christ Lightning*** around the planet, an Activity where the Angels and Elementals *are already prepared and in place!* They only require the Presence of the Gathering of Ascended Humanity to make the Activity complete. Through this Ring Pass Not Activity, originally created by the Elohim for Earth's protection, much imbalance *has been already averted* in Earth's Transit into her Divine Love frequency. For those that understand, this is proof that the *New Age is Love Based* rather than allowing for the lesser potential of catastrophic changes.

Affirm: "My Twelve-fold Crown of the Elohim now expands to embrace my entire being ...every cell, atom and electron of my physical, etheric, mental and emotional bodies ...then my family, my city, my nation and eventually my entire planet ...all persons, places, conditions and things. I hold the Earth and Humanity in my Three-fold Flame of Harmony, Balance and Alignment. My Seven-fold Flame at the forehead guides this entire Activity with the *Purpose and Enlightenment of the Elohim.*"

My Twelve-fold Crown of the Elohim becomes one with the ***Golden White Sun of Illumined Ascension*** (in the Thoughtform of 2013). It contains the ***Cosmic Power of Perfection of my Mighty I AM Presence***. In this way *I embody* the Thoughtform of 2013, transiting Humanity into her own Three-fold Flame *from whence we originally came forth as Light Beings*. We first expressed as the Infinite Circle of Light of the White Fire Being ...then as the Twin Rays of Mighty I AM Presences, all the while building an ever-expanding Causal Body with which to *bless any and every part of creation* ...and

finally as the Solar Christ Self to *specifically bless* Earth and her Humanity. ***And here I AM!***”

The original Divine Plan calls for us to be Spirit Beings embodied in Elemental Vehicles to expand the borders of Perfection into the denseness of form. We are eternally patient with this ‘journey of blessings.’ *I AM the patience of Love ...and, I AM as patient as Love ...in unfolding my Blessings upon Earth and Humanity. For I AM Love in action, the planetary Baptism of Holy Spirit!*

One with Holy Spirit, we are (I AM!) ***Builders of Divine Consciousness ...and Builders of Divine Form!*** Think on this. Affirm: *I AM re-creating Earth in the Image and Likeness of the Original Divine Plan. I AM One with Beloved Principa (Divine Order); Mighty Polaris and Magnus (Divine Alignment); the Elohim (Divine Creation); the Spiritual Hierarchy (Divine Authority); and all of Ascended and Free Humanity (Divine Anchorage)! And in this Oneness, I AM now governing the orbit, frequency, consciousness and spin of our sweet Earth!*

I AM the ‘Divine Succession’ for Baptism by Sacred Fire on Earth ...from the Celestial Spiritual Hierarchy to the Gathering of Ascended Humanity *in daily life*. As we learn to live life *as the Solar Christ Self directs*, we will always be at *the right and perfect place, doing the right and perfect thing, at the right and perfect time!* Imagine the Cosmic Power of our Coherently Connected *Causal Bodies* as a planetary Forcefield of Transit ...flowing through each of us, creating a global Nexus of Holy Spirit.

Our Victory is in our Harmony and Balance ...sustaining the expectation of *our Physical Perfection coming with the very next breath ...and, the patience to maintain that expectation over an entire embodiment*. We have already claimed our Ascension, knowing that our atoms and electrons are filled with Light and Sacred Fire at sub-atomic levels. In living the Solar Christ Self, the greater the Power of Perfection coming through from the Mighty I AM Presence decides when and where we will appear and function in our Light Bodies.

Affirm now as an Elemental Director: ***I AM directing my Elemental substance to manifest its Cosmic Power of Perfection through me here and now!*** In living the Theme and Thoughtform of 2013: ***I AM entering the Three-fold Flame of my own Being ...but as well, the Three-fold Flame of my family, my city, my nation and my planet. I AM living the Three-fold Flame ...on every level of its expression ...on every level of my Being!***

Let us visualize our *collective* Power of Perfection as the ***I AM Race***. Governing this *Twelve-fold Crown of the Elohim Forcefield*, we now may direct it to enfold any part of our daily life ...from a particular function within our body that is temporarily out of balance ...through to our world, affairs and finances ...through to our cities, nations, our planet and even our Solar System! Here we may ***create our own healing***, working with our Beloved Body Elemental (a powerful Deva) ...or, we may work with the Mighty Elohim at the level of Suns and their Solar Systems. All of this is part of *our personal Transit into Divine Love* ...a part of the Great Cosmic Inbreath we continue within.

I begin to understand my ***Eternity Being*** ...an Eternal Flame and its Radiant Light *expressing as all levels of my Being* ...from the Infinite Circle of Light of the White Fire Being, through to the cells, atoms and electrons of my physical body. This allows for me 'Being in Heaven' in every moment, every breath of my daily life, living the Mighty I AM Presence as the Solar Christ Self ...expressing the Power of Perfection in all things. ***Through the Grace of Holy Spirit, I AM Ascended and Free!***

And SO IT IS BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED SAINT GERMAIN:

Let us sojourn together dear ones *on the return to mysticism!* This has been a continuous theme of my Presence *and* of the Seventh Ray I serve. For many embodiments I was a mystic and long for you to deeply experience such Holiness.

Mysticism allows us to take the Power of our personal Spiritual Domain *and* our Faith in Cosmic Cycles, creating a *purposeful, peaceful and stable daily life of service*. Contemplate this! We serve as Divine Directors of Forcefields and Thoughtforms, directing Sacred Fire and the Power of its Radiant Light. This is our training *and our Power in the World!* This is the makings of our 'phoenix, our Firebird from which Humanity shall now raise from the ashes of ego consciousness and Ascend on the fiery wings of Love Divine. And through our ***Coherently Connected Divine Consciousness, our Nexus of Holy Spirit***, we draw *all Humanity* into this *transformative experience of self!* It is a Mystic Reality that *enters awareness globally* ...just as our Solar Christ Self is a Mystic Reality that enters our awareness personally.

Since the Firebird of Holy Spirit herself is a Quantum Thoughtform of Divine Love, we too serve on a quantum level, *moving Humanity's Ascension forward into manifestation*, radiating and establishing both the 'waves and particles' of this Divine Creation ...this *New Age re-creation* of our sweet Earth. In the Theme and Thoughtform of 2013, we are delivering the world and each one of Humanity into their individual Three-fold Flame ...the Cosmic Flame of Peace ...so all conflict is transmuted by the open Heart of Love and no longer 'acted out' upon the screen of life. For Mother Earth, we deliver her into the Three-fold Flame within the Eternal Sun of Even Pressure ...and for every individual we escort them across the Bridge to Spiritual Freedom into their own Eternal Three-fold Flame and its Radiant Light. Here all life finds Holy Spirit and enters into *Divine Love!*

In the return to mysticism let us contemplate Holy Spirit and its representative, the *Cosmic Dove*. This symbol of Holy Spirit has also been seen as the Firebird or Phoenix¹. The Phoenix rises from the 'ashes' of the previous ego age and sets into motion a New Domain or Original Being. There are Cycles of Holy Spirit just as there are Cycles of the Great Cosmic Inbreath ...and the two are often synchronized. Humanity has been aware of this Cycle of Holy Spirit through her history and incorporated this into religion,

¹(partially taken from Wikipedia) In Greek mythology, a **phoenix** (Ancient Greek φοίνιξ *phóinīx*) is an eternal bird that is cyclically regenerated or reborn. It is interesting that the Symbol of Holy Spirit is a bird ...*and* that in Ascended Master Teachings, bird life was the only aspect of the animal kingdom manifesting in the 'Eternal Spring' of *the original Divine Plan*. Associated with the sun, a phoenix obtains new life by arising from the ashes of its predecessor. Scholars have observed analogues to the phoenix in a variety of cultures. This includes the Arabic Anka; the Hindu Garuda and Siva; the Russian Firebird; the Persian Simorgh; the Turkish Kerkes; the Tibetan Me byi karmo; the Chinese Fenghuang; and the Japanese Ho-oh; In contemplating a few of these analogues, the *Vedas* provide the earliest reference where this mighty bird (as the vehicle) is said to have brought spiritual nectar to earth from heaven. The Chinese firebird's (Fenghuang) feather colors were said to represent the five virtues of **Confucious** (symbolic of the five fingers of the Hand of Holy Spirit): *Ren* is the virtue of benevolence, charity, and humanity; *Yi*: Honesty and uprightness, doing one's best, conscientiousness, and loyalty; *Shi*: the virtue of reciprocity, altruism, consideration for others; *Zhi*: Knowledge, wisdom; *Xin*: Faithfulness and integrity; *Li*: Correct behavior, propriety, good manners, politeness, ceremony, worship. In today's Ascended Master Teachings these would parallel the *Code of Conduct of a Disciple of Holy Spirit ...living the Mighty I AM Presence as the Solar Christ Self ...living an Ascended Master life*. This is the phoenix that *here and now* arises from the ashes of ego ...*this is the Age of Holy Spirit!*

spirituality and mythology. In Humanity's present *return to the Mystic*, let us powerfully reflect on the return of the Cosmic Dove of Holy Spirit *in her Quantum States* ...as seen in our Theme and Thoughtform for 2013.

In the Keynote visualization of 2013, the *body* of the *Cosmic Dove* is formed from a scintillating *Sacred Fire Love Ray* from Father/Mother God descending into Earth, with her 'all-seeing eyes' discerning *all that requires transformation*. The *wings* of the Cosmic Dove are formed by *radiating arcs of streaming Celestial Flames* from this Love Ray, in *curving dynamic waves of Quantum Energies*. The entire Dove is a multi-dimensional Forcefield constituting all aspects of Divine Love specifically required for *magnetizing all life*, on every level of consciousness, into this current Transit of Earth into Higher Orbit.

Our Coherently Connected Divine Consciousness is a mystical Unity of Solar Christ Selves *forming a pulsating network of Sacred Fire* that continually Baptizes the World. As we *live our Three-fold Flame*, it expresses through our lives. We are said to live the 'Trinitarian Life' ...living the Holy Triumvirate of the Three-fold Flame. Our keynote visualization of this Solar Year represents entering our Three-fold Flame and living this Holy Life *as it is lived in a Temple of Light*. It is an aspect of the Mystic Nature of Divine Alchemy. Father/Mother God's Sacred Word is breathed into creation through the Celestial Breath of Holy Spirit. It must come through an active Disciple of Holy Spirit, which now is *every Solar Christ Self*!

As we affirm: '*Come, Holy Spirit, come*', we are equally invoking the Solar Christ Self *in all* to be the Divine Director of this Sacred Fire in the world. This is why the Christ (as portrayed by our Beloved Ascended Master Jesus) has always been seen as 'the Father's Love coming into the World.' This is *Love made manifest* ...and can be so in *any of Humanity* ...*with every breath, of every embodiment, of every Solar Christ Self*! This is the Mystic Nature of Holy Breath and its effect of Harmony and Balance in our lives ...Love made manifest in the World.

It is said in mystical Buddhism: "My father is the intrinsic awareness. My mother is the ultimate sphere of reality. I belong to the caste of non-duality in the sphere of awareness. My name is the Glorious Lotus-Born. I AM from the unborn sphere of all phenomena. I act in the way of the Buddhas of the three times."

Such Wisdom was uttered by an emanation of Amita Buddha², one that was *born from a flaming Lotus ...or, in our present terms, the Solar Christ Self emerging from the Three-fold Flame*, living empty of self, time and space! We now enter our Three-fold Flame so that we may be born into the Harmony of our True Being ...even as we currently assist in the transit of all Humanity into their Three-fold Flame, so that *each one may be 'lotus born', emerging from their Three-fold Flame as the magnificent Christ!*

Beloved Ones, *we have lofty goals ...or, said differently, we seek only the Highest Divine Potential for all life on Earth.* We remember this goal *as it was on our lips, locked in our hearts*, as we left Mother Mary's Temple of Birth and entered our embodiment in the world. We knew that we would eventually find our Spiritual Family and form the Coherently Connected Divine Consciousness that would *change the world ...a Nexus of Holy Spirit for Baptizing the World!*

As this glorious month of March ends with the *Festival of Easter*, a mystic event in the life of Humanity, let us affirm with ***our First True Breath of a New Age of Spiritual Freedom:***

I AM the Resurrection and the Life
of my Divine Mystic Nature within Holy Spirit!
I AM the Resurrection and the Life
of my Divine Mystic Nature within the Seventh Ray!
I AM the Resurrection and the Life
of my Divine Mystic Nature within my present daily life!

And SO IT IS, dear friends ...SO IT IS!
