

INFINITE CIRCLE OF LIGHT

I AM an Infinite Circle of Light.

I AM Ascended and Free.

I AM inclusive of all life,

living free in the Light.

I AM THAT I AM

From within this Infinite Circle of Light:

The Gathering of Ascended Humanity,

In union with the Royal Kingdoms of Angels and Elementals,

Through the cohesive Power of Divine Love

uniting all Life in its Ascended State,

Now emerges into Humanity as the

Theme and Thoughtform of the Month:

AN EMBODIMENT OF SUPREME OPPORTUNITY!

Ourselves as 'Candidate for the Ascension'.

All of Humanity as 'Candidate for the Ascension'.

The entire Planet Earth as 'Candidate for the Ascension'.

## SACRED TEMPLATE

### BREATHING STATEMENT

I AM Inbreathing and Absorbing the Flame of Supreme Opportunity, living as a 'Candidate for the Ascension'.

I AM Expanding and Projecting the Flame of Supreme Opportunity, living as a 'Candidate for the Ascension'.

### AFFIRMATIONS

I AM Living the Mighty I AM Presence.  
I AM the Cosmic Power of Perfection.  
I AM the Light of the World!  
I AM expanding my Electronic Pattern,  
flooding the world with my Cosmic Light!

I AM expanding my awareness of Divine Opportunity.  
I entered this embodiment as a 'Candidate for the Ascension.  
Humanity is likewise a 'Candidate for the Ascension'.  
Our sweet Earth is *finally* a 'Candidate for the Ascension'!

I AM reaching the capstone of my own  
Crystalline White Ascension Pyramid, representing many  
embodiments of raising myself and Humanity into the Light.  
I AM establishing my Electronic Light Pattern within  
the fabric of Earth's and Humanity's Ascension.

My Electronic Pattern is my Cosmic signature, my Celestial  
autograph ...as unique as the singularity of snowflakes.  
My Electronic Pattern is the 'stamp' of my Great God Presence.  
It flows into the world through all I do, think, say or feel!

Where my attention goes, my Electronic Pattern flows!  
It is thus within persons, places, conditions and things, and  
within all form and substance connected to me on Earth, and  
throughout my physical, etheric, mental and emotional spheres.

Within the domains of Energy, Vibration and Consciousness,  
as I AM raised up, so is all life raised up with me!  
So too are my vehicles raised up into their Electronic Pattern.  
So is every aspect of my life raised up into its Electronic Pattern.

My unique Electronic Light Pattern is now charged by Lord  
Maitreya ...with Love's Perfect Balance made manifest.  
This expanded Electronic Pattern is here, there and everywhere  
present, for in our collective service, I AM the Light of the World!

I AM transiting into the Orbit of Venus!  
I AM Earth transiting into the Orbit of Venus.  
I AM Humanity transiting into the Orbit of Venus!  
I AM Ascended and Free Humanity, on Ascended and Free Earth,  
in her Ascended and Free Orbit, expressing her Electronic Pattern!

And, SO IT IS, BELOVED I AM!

### ASCENSION CONCEPTS

It was our Beloved El Morya who years ago spoke of our long journey towards the Ascension finally coming to fruition. He reminded us that after years of struggle, of trials and errors, of hopes and dashed dreams, of karma always needing to be accounted for and of all of our stupendous efforts towards the supreme goal of the Ascension ...that finally comes an embodiment where 'all the stars align' and for that person, finally it may pass where the journey ends in ultimate Victory! In that embodiment, the Soul is accepted as a 'Candidate for the Ascension'!

Such a candidate is closely watched over by the Spiritual Hierarchy and given extra assistance. Imagine then that we are at a supremely special point where not only there are many souls simultaneously at this point, 'Candidate for the Ascension' in this embodiment ...but all of Humanity now has this title written across their etheric aura ...'Candidate for the Ascension'. Such is the present Cosmic Moment ...such is the present Cosmic Assistance ...such is the present State of Grace!

The opportunities that come in such an embodiment are rigorous yet aimed at a quick resolution of all karmic debt and of developing Ascended Master Qualities within daily life. The great incoming Light amplifies both the Divine within and the karmic liabilities needing redemption ...hence each one experiences their own 'Armageddon' ...of Light and shadow, strength and weakness, aspiration and abandonment. Mindfulness of this process heightens both the joy and the struggle. Such is the state just before the Ascension ...where we decide to completely 'let go and let God'.

Regarding the Ascension, the Mighty I AM Presence of each one has a unique Electronic Pattern that differentiates that Cosmic Being from all else ...a unique individuality of beauty and form. This Sacred Template is then found in all endeavors of that Being, leaving their Cosmic Signature or Celestial Autograph throughout creation. For example, the Electronic Light Patterns of our Father/Mother God is within everything manifesting in their Solar system. It is likewise with all Ascended Masters, Cosmic Beings and all things in the Universe ...as it is with our Mighty I AM

Presence! This includes what we, as a functioning Light Ray on Earth from our Divine Presence, do with every electron of Divine Energy pouring into our life along the Silver Cord from our Mighty God Presence.

A few well known Electronic Light Patterns include the Maltese Cross of Beloved Saint Germain, the Star of Love of Beloved Sanat Kumara and the open Lotus of our Beloved Lord Gautama. This is the pattern of how their electrons 'line up' as their Light is expressed. Their Electronic Light Patterns flourish through all Lightservers and all Lightservice given in their name or under their sponsorship ...beyond their own 'service to life'. The Electronic Pattern of our Mighty I AM Presence also flourishes through us and is thus within all of our Lightservice and endeavors to forward the planet towards her Ascension.

Let us meditate upon our own personal, unique Electronic Pattern and its possible form, symmetry, geometry, color, fragrance and sound. Let us invoke our Mighty I AM Presence to reveal it to us in meditation or by a 'sign' visible in outer life. Our Electronic Light Patterns will be ever more important as we proceed through our transit into the Orbit of Divine Love Consciousness.

Ascended and Free Humanity (or 'the I AM Race') has her own Electronic Light Patterns. Imagine the Divine Tapestry of countless Lightservers globally blending their unique Electronic Light Patterns into one Cosmic Weave. Our Coherently Connected Divine Consciousness is this Divine Tapestry and operates on a physical, etheric, mental and emotional level, raising all these domains into the Light. Our Coherently Connected Divine Consciousness operates at the Union of our Heart Flames, the Oneness of our Divine Mind, the Unity of our seven planetary Chakras and the common ancestry of our physical Temples of Beauty and Wellness. Contemplate this.

Our Electronic Light Pattern even manifests in our physical DNA. It has been called our Divine DNA, our Solar DNA or our Twelve-fold DNA. It is there to flourish as the Cosmic Power of Perfection manifesting Limitless Physical Perfection within and through the cells and molecules on the physical plane. It is intended to reproduce the Eternal Youth, Beauty and intense Wellness of our Mighty I AM Presence. Then imagine the combined Electronic Light Patterns of all embodied Lightservers plus those of our Ascended Master Co-servers and all Cosmic Beings aligned with the Dawn of Spiritual Freedom on Earth ...all flowing in and through Ascended and Free Humanity. What Glory this brings!

This is our Immaculate Concept as we proceed to the completion of 2012 and our synergistic efforts of Love's Perfect Balance now made manifest! And, SO IT IS, BELOVED I AM!

**ENERGY, VIBRATION AND CONSCIOUSNESS OF  
BELOVED HELIOS AND VESTA, OUR FATHER/MOTHER  
GOD...**

Dearest Children of the Sun in embodiment at this Cosmic Moment on Earth, how I love you ...as only an eternal Mother and Father could. During spiritual development on Earth over the ages, our mothers and fathers, brothers and sisters, husbands, wives and children change each embodiment. And although ever lasting bonds of deep affection form, nothing is quite like our Eternal Family of Cosmic Origins. As Father/Mother God, we have guarded and guided the development of a Spirit Spark (from our Eternal Flame) into the Great Beings of Light you have become. And at this auspicious Cosmic Moment we now enter, like any parent we draw close to ensure you have the greatest support we may offer. Thus, here I AM, in every breath you breathe, in the substance of your bodies and minds and certainly in the Sacred Fire that beats your heart. Know always that in all things now unfolding: I AM in thee; thou art in me; I AM, I AM Earth's Victory!

**THE ORIGINAL DIVINE PLAN**

Let us review the Original Divine Plan as we enter this moment of transit into Higher Consciousness, a return to the Divine Plan, for all Humanity. When we thoroughly understand the original intent, we know better what we are restoring. The Divine Plan called for the decent of perfection into form on a deeper level than ever before experienced. Most of the Universe is not 'in form' but rather manifests in what you might call 'spirit'. It was not so much an experiment but rather a deep desire of Father/Mother God for every aspect of life, in all the Kingdoms, to know the Cosmic Power of Perfection in every experience of daily life!

In this Cosmic Moment, as we enter a New Age on Earth beyond the limitations of time, space and ego-self, Humanity may now affirm the Cosmic Power of Perfection in all form and function within and around her. We (Father/Mother God) have awaited this Cosmic Moment when Humanity would step forth and fulfill her original edict for the embodiment of the Power of Perfection on Earth ...in even the densest form and its physical function.

Now as it turned out, the 'great fall' into ego, time and space amplified this desire. The original denseness of form we expected to manifest perfection within would now be seen as 'ethereal', in comparison to the present heaviness of physical, etheric, mental and emotional experience. Let us remember the nature of the Ascension is to overcome heaviness or gravity, under the control of the Divine Intelligence within. So when gravity is welcome (as in sustaining us on the planet and not being thrown off during Earth's orbital spin) then that's what the Divine Intelligence then aligns with. If however we enter into a situation of emotional heaviness that requires 'lifting up' then the Divine Intelligence uses the Ascension Flame to do so ...overcoming the gravity of ego forces that 'kept it down' in lower frequency. Once the mental and emotional bodies are governed by the Ascension Flame, then physical control of gravity by Divine Intelligence is achievable ...levitation, precipitation and ethereal manifestation. These are the 'Gifts of Holy Spirit' once the thinking and feeling centers are under the control of the Great God Self within ...which the much greater portion of the Ascension is.

#### REVERENCE FOR ALL LIFE

The Original Divine Plan was a multi-dimensional, complex array of Perfection Patterns for all the activities of daily life ...how everything relates to everything else. However, with the onset of ego patterns, daily life became a series of low frequency behaviors throughout the Elemental and Human Kingdoms. With the transit into the Consciousness of Divine Love, these lower frequency patterns will cease to control Elementals and Humanity ...with the result of 'human-ego nature' ceasing and Divine Nature returning. Hence in biblical terms, "the lion will lay down with the lamb" (Isaiah 11:6), or the prophecy "and the former things will not be called to mind, neither will they come into the heart." (Isaiah 65:17). These Bible verses are an analogy of all we describe here ...old patterns dissolving in the intense Light of Peace Divine, and new Patterns of Divine Relationship unfolding everywhere.

The inevitability of Divine Nature now returns to its full dominion in all relationships. This includes how sub-atomic particles relate to each other (electrons, protons, quarks, bosons, etc.) ...how the elemental kingdom relates within herself (the nature or behavior of animals, birds, insects, minerals and the four basic elements of earth, water, air and fire ...the basic relationship between nature, animal, mineral and human kingdoms and how each supports the other in Divine Brotherhood ...the relatedness of humans for one another at all levels of systems within daily life (from individual relationships, through to family, community and nations) ...and any other relationships one could conceive of. The Orbit of Divine Love

contains the Perfection Patterns for each of these relationships to manifest divinely in an Age of Spiritual Freedom.

So wherever and whenever we see ego patterns of imbalance and distress, in either the Elemental or Human Kingdoms, we now affirm the Cosmic Power of Perfection to set the Tone for the Higher Frequency Patterns of the Divine Plan. The basis of all relationships is within the domain of Energy, Vibration and Consciousness! Once this platform is transformed through the Power of Sacred Fire (which Ascended and Free Humanity is expert at), then the cause of imbalance is gone and Peace reigns supreme ...as was and is always intended. Reverence for all life remains a primary foundation for Peace Divine and thus a Golden Age of Spiritual Progress.

Let us contemplate some examples of how this transformation will now affect daily life. If one is truly 'empty of time' then we are also 'empty of aging' and thus the originally intended Perfection Patterns of Youth, Beauty and intense Wellness are ours for eternity. If 'empty of separation', then there is only eternal oneness with all resources ...bringing limitless supply and ongoing abundance. When 'empty of self' then there is only fullness of non-self or Oneness with Universal I AM ...the endless Illumination of Spiritual Development in living the Mighty I AM Presence through the Solar Christ Self ...instead of ignorance and the fear that springs from ego lack of awareness / mindfulness.

And it will be these Divine Tools taught in schools as well as the New Knowledge revealed within Science and the New Revelations within Art and Entertainment. These are examples of the New Reality for New Earth which is right here and now anchoring through this Cosmic Moment of consciousness transformation.

Beloved Lord Maitreya invoked us through Beloved Jesus when he said: "Love thee one another, even as I have loved you" (John 15:12). Within the Theme and Thoughtform of 2012, this Sacred Command of Lord Maitreya is many times amplified. For such is the nature of Reverence for all Life within the Orbit of Venus / Frequency of Divine Love the Earth now transits into. And know our reverence for each of you is endless through this current Transit. And SO IT IS, BELOVED I AM!

**ENERGY, VIBRATION AND CONSCIOUSNESS OF OUR DEAR LORD MICHAEL ...the Angel of Deliverance ...initially delivering the first Root Race onto the newly prepared Earth ...and**

now delivering all of Humanity onto her prepared New Earth in her New Orbit...

Cosmic Friends that have come from many Planets and Star Systems to set free an entire Race and her Planet ...I come to you with a Cosmic Gift of my Blue Ray that will maintain you through this Group Endeavor to stabilize the planet in preparation for its transit into its Higher Orbit of Divine Love Consciousness. Here we are at the height of our Cause being Victorious! And I AM here to ensure your greatest protection, support and guidance.

My gift to each of our conscious Lightservers is my Armor of Electric Blue Light ...to protect you individually and all of the Gathering of Ascended Humanity collectively, as we proceed now into the final stages of transit / transformation. This Electronic Garment would feel etheric, bearing no weight but radiating an intense positive feeling into the flesh that I enjoy in all my Cosmic Endeavors. It is a Mantle of Protection ...but also a dazzling Robe of God's Promise to authorize the Power of Perfection in all things! This is the definition of Higher Order Faith ...with Faith being the Cause and the Power of Perfection being the result. The Circle and Sword of Cosmic Blue Flame Activity is all powerful through this Electronic Garment and pervades deep within every cell, atom, and electron ...every person, place and thing in your world, affairs and finances. It maintains the Cosmic Authority of Divine Love in all things ...furthering the Divine Stability that we seek for all life at this Cosmic Moment.

This Electronic Light Garment is my personal Electronic Pattern. It opens the Creative Faculties of anyone wearing it to the New Vistas of Truth and Reality. It establishes New Vision ...seeing as Ascended Masters see! Using its Powers granted through Father/Mother God, let us visualize the following. Firstly let us see and feel this Electronic Light Garment on us ...radiating Cosmic Blue Lightning within and around us. This is an intense Light yet with no glare and very soft on the eyes ...in fact clarifying all things in our 'vision'.

When one fully accepts this Cosmic Garment, one looks out into the World and senses Sitting on the Throne of Eternity! Before us the Veil of Eternity is parted, and we see with Crystal Vision a New World ... and a Vision of many Worlds. We each experience this Vision uniquely and perfectly, with a startling clarity never before known to us. Synthesizing these into a Great Cosmic Tapestry establishes a multi-dimensional New Reality as the New Home for all Humanity. For we are seeing the Eternity of our collective New Home ...the outpicturing of the Divine Environment of our

Coherently Connected Divine Consciousness ...filled with Angels of all Orders! In this New World we consciously abide within our Three-fold Flame and discover a newfound Power, a heightened Illumination and a new, infinitely expanded Love!

With the Gathering of Ascended Humanity now wearing this Electronic Light Garment you may now join me and my Legions in being the 'Angel of Deliverance'. Even as I guided and protected the original Holy Innocents of the First Root Race onto Earth from Inner Realms ...now do you join me in guiding and delivering the Solar Christ Selves of all Humanity onto Ascended and Free Earth! These are the New Holy Innocents being delivered onto Earth from the ego realms. Think on this!

This scene opens up before us and we immerse ourselves in it ...for what we strongly see, think and pour our feelings into ...so we create! And through the Power of Cosmic Grace now lifting this planet and her Race out of the endless yoke of karma and into an Age of God ...so we collectively, with every Solar Christ Self within Humanity, create this Perfection right here and now! Legions of Blue Flame Angels now accompany us in this Ceremony. And God Power now again is the hands and hearts of Ascended and Free Humanity ...the I AM Race always promised in prophecy.

Seeing you each now in your Electronic Blue Garment of Light, know that I AM within and all around you in all that is now to unfold. And, SO IT IS, BELOVED I AM!

## VISUALIZATION

Visualize the Earth as a radiant, Golden Sun revolving harmoniously on Her axis. The Source of this Golden Radiance is the Sun of Even Pressure within Earth's core. Its brightness is now amplified by the "Golden man/woman"—the Innate, Golden Perfection within every Human Heart now manifesting its Solar Identity. This Golden Radiance has been building and building for eons as Humanity made the long journey back to Alignment with the Divine Plan. Earth is ready now for the Great Cosmic Inbreath.

At the center of the Golden Sun see the Planetary Threefold Flame. This is Earth's very Heart Center. Hear the Heart Beat...a Harmonious, Rhythmic tone—Earth's Ascension Song—as She spirals ever Lightward. Let us align our Heart Flame with this melody.

See and feel now brilliant, multicolor Light Waves expand out from Earth's Heart Flame, and from the Heart Flame of Ascended Humanity. These Light Waves now form a Double Rainbow around the Golden Sun.

Thus, Earth is Secure in a Rainbow Ring-Pass Not of Stability, Balance, Harmony and the Serenity of Knowing that all is in Divine Order for the "Cosmic Advancement of the Planets."

And So It Is, Beloved Great Universal I AM!
