BREATHING STATEMENT

I AM Inbreathing and Absorbing the Feminine Ray of Loving Wisdom and her Sacred Consciousness of Oneness and Inclusion.

I AM Expanding and Projecting the Feminine Ray of Loving Wisdom and her Sacred Consciousness of Oneness and Inclusion.

AFFIRMATIONS

I AM!
I AM that I AM!
I AM living Ascended and Free!
I AM living on Earth, yet in a dimension beyond self, beyond the restrictions of time and of space.
I AM in the (old) world *but not of it* … already choosing to live in a New Age of Spiritual Freedom.

My world, affairs and finances,
my thoughts, feelings, words and deeds,
my physical, etheric, mental and emotional bodies,
all exist within my Ascended and Free Consciousness.
My Divine Potential is a *Revelation* arising through them.

The Great Cosmic Inbreath draws me into this Divine existence, just as it draws Humanity into her Ascended and Free existence. I consciously think, feel, know and *vividly experience* the Power of Cosmic Forcefields I AM honored to invoke, absorb, focus, direct, expand and project into Earth and her entire life force.

As I learn to live Ascended and Free, I experience an *Eternal Spring of ever blossoming Higher Dimensional Realities*.
I AM the miracle working Presence, functioning through my physical, etheric, mental and emotional bodies, my entire world, affairs and finances …all that I do, think, say or feel!

I AM Ascended and Free …Together, standing in the Light within Coherently Connected Divine Consciousness!

And SO IT IS, BELOVED I AM!

ASCENSION CONCEPTS:

The complementary color of Violet is Gold. Spiritual Freedom radiates a soft golden Wisdom. Thus, we speak of the Violet Fire with its Golden Radiance, the ideal Harmony of Love and Power … the Feminine Ray perfectly balancing the Masculine Ray. It is in this context (of the Divine Dispensation of Spiritual Freedom), that the Feminine Ray now takes the stage prepared by the Builders of Divine Consciousness. She radiates her core Energy, Vibration and Consciousness of ***Loving Wisdom*** …generating Spiritual Freedom on all levels of daily life. Rather than the 'separation and exclusion' that were foundations of the previous age, the cornerstones of a New Age of Spiritual Freedom become ***Oneness and Inclusion*** …***as I AM raised up so is all life raised up with me***!

Whenever the Masculine Ray lacks the balance of Loving Wisdom from the Feminine Ray, ego is allowed to thrive. ***This now changes forever*** …and has been through the recent decades. It begins with ***Cause***, born within the spiritual levels of Energy, Vibration and Consciousness. Then, through the Creative Faculties of Humanity (what I think and feel I bring into form!) it progressively transforms all other levels of existence throughout daily life. We see many examples of this in our local experience and around the globe. And as '*we see'*, it spurs us on to greater service in our 'specialty' of *Service from the Realm of Cause*, invoking and directing Sacred Fire and its Radiant Light …expanding and projecting ***Forcefields of Divine Domain***.

Our service to Divine Cause has now been *expanded without limit* given the recent *physical and spiritual anchorage* of necessary Forcefields to this end. The greater part of our collective service occurs in the privacy of our homes and sanctuaries but becomes global in its effects *when given within the global Forcefield of Coherently Connected Divine Consciousness* …the working nature of Oneness and Inclusion of the Feminine Ray.

Yet at times a *physical gathering* ("when two or more are gathered in My Name") seals all of these spiritual efforts delivered from the Realm of Cause, anchoring them within daily life (the realm of effects). It is all the more powerful when greater numbers gather physically, as recently occurred (in Brazil). Whereas we all understand South America as the Feminine Ray Pole of Earth, now this Forcefield is anchored equally through *every Solar Christ Self* within Humanity, meaning each one is now a Focus of the Meru Gods …global and all encompassing in its Sphere of Influence. We continue to 'clear the way' for this Transmission into daily life through our service from the Realm

of Cause …*invoking and directing, guiding and guarding, expanding and projecting* the Sacred Fire and its many concentrated Forcefields.

Ours is a service of '*expectation through invocation*'. As we invoke, absorb, focus, direct, expand and project Forcefields of Sacred Fire we clear the way for Divine Potential *through our continuous expectation of such*. We have in our Causal Body clear memories of the Glory and Perfection of Father/Mother God and thus we may *accurately expect* the outcome *all we aspire to*, *all we desire for*, all Humanity. There are many 'potential outcomes' for Earth and Humanity, so we steadfastly hold the Immaculate Concept for the *absolute Divine Potential fulfilled for all life concerned*!

And SO IT IS!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ***LADY SOPHIA***, ***Goddess of Love's Wisdom*** and ***Guardian of the Feminine Ray*** …

I AM the Spirit of Illumined Wisdom and Understanding within the Indivisible Flowing Wholeness of Divine Love. I come from the Solar System just above (in frequency) this Solar System of Helios and Vesta. In our System of Worlds, we have developed the expression *every facet of Divine Love.* Each one of the Seven Ascended Planets (and Races upon those planets) have specialized in some nature of Divine Love, developing one or more of 'the Children of Love'. This Divine Domain of Love is the 'Heaven' that all spiritual paths aspire to, the Divine Potential the Earth is destined to evolve into. And soon *this Transformation is to be finalized*. Thus, I come now to sustain within our dear embodied co-servers the Illumined Wisdom of our present Cosmic Moment and the nature of our collective service to life.

Beloved Children of the Seventh Ray, I greet you from the Sun Temple governing the Orbit and Frequency of the Love Star, Venus the Orbit our Beloved Earth now Ascends into. Thus, I speak with you from your 'future' which we transmit together into Humanity's Eternal Moment of Now, in ever greater intensity. Venus herself ascends from this Orbit for her own new Home in even Higher Frequencies, to expand her own 'borders of Perfection'. The Solar System of our Ascended Planets has created Divine Civilizations based on attributes of Divine Love. Yet the Earth and her Humanity will bring to this orbit *her own unique expression of Divine Potential*. But know that it will flourish in a Forcefield of Divine Love, further expanding the Divine Potential of Love *for all life everywhere*. Just as the Earth's 'great fall' affected the entire Universe with unimaginable imbalance, so shall her 'Ascension

into Divine Love' affect the entire Universe with unimaginable blessings!

To make this Ascension into Divine Love in complete Harmony and Balance, our collective service is to 'clear the way' by *anchoring and establishing Divine Love* in all aspects of daily life. Our expectation is to bring ***Revelation*** of all 'the Children of Love' …the qualities of Mercy, Compassion, Forgiveness, Adoration and the Consciousness of Oneness, Synchronicity, Inclusion and Indivisible Flowing Wholeness …into daily life. Out of this *Revelation of Divine Qualities* (or Holy Spirit) *from within Humanity* now comes *Revelation to Humanity* …of Angels and Elementals, Cosmic Beings and the Glory of 6th and 7th Root Race Children. These Beings will not necessarily 'stand out' in odd or strange ways but rather introduce Higher Order concepts, ideas, technology, policy, laws, science, discoveries and philosophies that lead Humanity ever onward into her Ascension in Divine Love.

You already know some of these embodied beings from their larger Sphere of Influence …but they may also 'live next door'. Whether their Sphere of Influence is large or small, they are transforming daily life *in an endless variety of ways*. Any difficulties along the way are simply the resistance of ego in 'letting go and letting God'! And into all such imbalance we ***blaze and blaze the Violet Fire***, clearing the way through our Sacred Fire and its Radiant Ascended and Free Light!

We have all heard the common plea that 'if only Humanity could make contact with Beings from other planets / stars then she would awaken out of her perpetual spiritual sleep'. Yet these Beings are all around and within Humanity already! The Angels and Ascended Masters have always been in their Octaves of Light just beyond daily life. And until she raises her Consciousness enough to *see them for herself*, it would not help to 'force this upon her in a dramatic visitation' …otherwise she would simply startle and then return to sleep …as if having had a dream. Rather, we serve for her *permanent awakening* into Sacred Fire through our Victory Statement …and its *rapid evolution of Consciousness* towards the Ascension.

Regarding this 'awakening', the Feminine Ray of Oneness and Inclusion allows for the *'downloading' of Divine Consciousness into all Humanity simultaneously*. Contemplate this! Our Coherently Connected Divine Consciousness clears the way for this ***Divine Grace*** to occur *beyond the interference from the outer mind*. This is the essence of *Oneness*, the *Inclusion of all Humanity* within the Octaves of Light! Contemplate that each one within Humanity is receiving the Energy, Vibration and Consciousness of Spiritual Freedom and the Divine Feminine Ray …known or unknown to their outer mind. As this

Sacred Fire enters their consciousness and nervous system it will have a wide diversity of effects, both on *personal growth and development of consciousness* …as well as of their sense of *purpose* within this embodiment. It is unique to each one. We may see this vividly played out on the screen of life around us or it may be barely perceptible. Either way, *we pray we recognize it when we see it*!

Again, I bring to our collective service this month my Forcefield of Illumined Wisdom and Understanding within Divine Love. It is our intent that *all* Humanity has an enlightened perception of her present Cosmic Moment and the nature of their unique service to life …no matter their present state of development, nor whether their Sphere of Influence appears to be large or small. Again, as we ascend into the Orbit of Divine Love, the *diversity of expression of this New Reality becomes infinite*!

Consider the Breathing Statement we give daily from the Sacred Template of our monthly service (see page two of the Journal). We give this *on behalf of* as well as *from within* all Humanity! The Ascension Concepts we anchor, we do so for all Humanity. We tangibly apply the Great law of 'As I AM raised up, so is all life raised up with me'. This includes all Humanity, all Angels and Elementals and any outstanding karma related to Humanity's journey through self, time and space. For *we now leave this journey* and return to the main path of *Eternal Spiritual Freedom* beyond self, time and space…into the Higher Dimensions of Divine Light where Spiritual Freedom *is* the Eternal Moment of Now!

Let us again contemplate the world we desire in living Ascended and Free. Imagine, existing on an Earth *beyond time*. This frees us from concepts of *what used to be*, *what is now* and *what may be in the future* given the wide spectrum of potentials available. We relax into our Eternal Moment of Now …that all the Light that I desire or have ever known *is now, always has been and always shall be*!

Then imagine existing on an Earth *beyond space*, where there is no 'here and there'… only 'ever present'! Beyond space we experience that *I AM here, there and everywhere present*! This is the nature of Ascended Master Consciousness. In our daily life, we practice that 'I AM every aspect of my life' …the 'I' and the 'other', the giver and the receiver, the center and the periphery, the foreground and the background, the masculine and the feminine, the 'we' and the 'them', I AM all of it! …until I live in a *tangible reality* of Indivisible Flowing Wholeness. Within that Oneness, *I AM a pulsating Focus of Divine Love*.

And then imagine abiding on an Earth beyond the karmic effects of ego-self. Below the surface of 'ego imbalance' lies the Truth of the original Immaculate Concept of Father/Mother God …the Divine Perfection Patterns within the 'electronic DNA' of our personal Light Bodies. Then imagine the Immaculate Concept of our collective institutions …our families, our world, affairs and finances and of our Races, Religions and Cultures. As we use and use the Violet Fire to transmute ego imbalance, we actively fill the vacuum established by transmutation through instantly anchoring the Perfection Patterns of the Mighty I AM Presence (for ourselves) and of Father/Mother God (for Earth and Humanity). All of this Limitless Perfection is within the Forcefields of Divine Love we anchor …all accomplished through living Ascended and Free, beyond self, time and space.

Let us affirm: I dwell in a ***physical body of Radiant Light*** beyond the reach of ego, time and space. This Light Vehicle is of perfect health and wellness and indestructible in the face of imbalance …like an Ascended Master or Cosmic Being! I exist in an ***etheric vehicle of Celestial Radiance*** where my seven planetary chakras reach their Divine Potential and radiate Divine Light like the Seven Suns around the Great Central Sun! Such is the perfection of the planetary Holy Christ Self, which once established *automatically* becomes the Twelve-fold Solar Christ Self, the perfect replica of the Mighty I AM Presence!

I exist within a ***mental body of Divine Light*** beyond the restrictions of the physical brain and its outer mind limited by 'time and space'. My Higher Dimensional Mind has at its front the Seven-fold Flame of the Elohim (seen at the forehead) and around it the Twelve-fold Crown of the Elohim, my eternal link with Cosmic Consciousness. I focus on these Creative Faculties until I AM *constantly* fulfilling Divine Potential. Then I imagine my ***emotional vehicle of Divine Love*** that exists beyond self, time and space. This is my Soft Pink Rose, my Sun of the Sun and the seat of my Heart chakra, the home of my Three-fold Flame. Without the restrictions of ego, time or space, this emotional vehicle becomes my continuous experience of Holy Spirit. I experience the Divine Qualities held by the Angels all around me, which Father/Mother God intended for me from 'the beginning'. Angels come and go from my emotional forcefield of Holy Spirit, and I love and adore their Presence in my life.

I AM a mental body of Light …of Electronic Perfection Patterns!
I AM an etheric body of Light …of Electronic Perfection Patterns!
I AM a physical body of Light …of Electronic Perfection Patterns!
I AM an emotional body of Light …of Electronic Perfection Patterns!

Once my four vehicles are under the governance of my Solar Christ Self, then *I experience my entire life* outside the restrictions of self, time and space. I then experience my daily world, affairs and finances existing beyond what 'ego has determined' and accept only that which *Father/Mother God intended in the beginning*! I accept the Perfection Patterns of my Mighty I AM Presence *as flowing through and manifesting as* my thoughts, feelings, words and deeds …creating continuous Mercy, Compassion and Spiritual Freedom in all life around me. All my outstanding karma on any level is now constantly transmuted by this Radiant Light. I know: ***I AM Forgiving, I AM Forgiven, I AM Forgiveness …the Flame of Forgiveness in Action everywhere present!***

Once my entire life is lived Ascended and Free, beyond the restrictions of self, time and space, I may then powerfully anchor the Cosmic Forcefield necessary to transform the entire Earth into her Orbit of Divine Love. I tangibly feel *the Celestial Power* within the Great Cosmic Inbreath, the Hand of Cosmic Holy Spirit, the Divine Dispensation of Spiritual Freedom, the Cosmic Feminine Ray …all ***flowing through me and expressing as me***! I live, move, breathe and have my being within these Cosmic Forcefields. And all that I AM part of …my nation, my race, religion and culture, all ascend with me into the Light.

We are so very close to the *Revelation of Ascension* into the Orbit of Divine Love. What has appeared as 'an impenetrable wall of ego imbalance' is now seen to be illusion. Love dissolves fear and 'the wall falls'! Dear Ones embodied on Earth …be *ever expectant* of the Final Mighty Inbreath into the Orbit of Divine Love …and yet remember as well, Love is *eternally patient* and serves forever in its own Joy!

And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ARCHANGEL RAPHAEL …on ***Consecration*** to our present embodied Cosmic Service …

Beloved Children of the Sun, *Sun of the Sun each one*, I greet you with Legions of Seraphim, Cherubim and Angelic Hosts in *preparation for* and the *immediate expression of* ***our collective Revelation …collectively 'God in Action' in the Transformation of Earth!*** Divine Consciousness is and always has been the Agent of Spiritual Transformation for Humanity's Ascension into the Light!

We were all First Born into Coherently Connected Divine Consciousness, the Indivisible Flowing Wholeness within Universal I

AM. This is State in which the *Oneness experienced* is beyond the comprehension of the outer mind restricted by time and space. Now through Consecration to her Original Truth comes *Humanity's Second Birth*, into her Ascended and Free Reality and full use of its Creation Consciousness. Let us explore this current transformation from within the Flame of Consecration, which I sustain within the Central Sun Temple of Divine Truth. Welcome into my Cosmic Flame!

ON THE NATURE OF DIVINE REVELATION

Ascended Master Teaching has been very clear that a New Age of Spiritual Freedom will occur *through Humanity* rather than *to Humanity*. And further, that this New Age will occur *inclusive of all Humanity,* reflecting the Cohesive Power of Divine Love that directs this process. So, let us contemplate what Humanity 'has in common' …so that the New Age Spiritual Freedom both comes from within all Humanity *and* includes all Humanity!

On a physical level we have in common the Elemental Platform allowing us embodiment, in our bodies and in our environment. We share the same air, water, sun (heat / fire) and earth elemental substance as all other life on Earth. This makes us 'one elemental life'. The air I breathe will fill the lungs of another around the globe within a short time. The water within me may have passed through a tree in another land only recently. The sunshine I enjoy blesses all life equally and initiates food for body, mind and soul. All life on Earth thrives on the Sun's energy.

Given our Elemental Oneness, the experience of transition into New Age will come through the very fabric of our beings and of events that affect all life on Earth. There may be 'Elemental events', effects of the Axis of Earth being re-aligned with Universal I AM. But more importantly, there will be new and heightened experiences of ***being Elemental*** …feeling and 'being water'; feeling and 'being air' and the sacredness of breath; the exhilaration of 'being Sacred Fire' beyond the comfort of physical fire; and of 'being earth' and being physical …now more etheric and less 'heavy or dense'.

Besides sharing in common the Elemental platform that will ultimately produce Limitless Physical Perfection in form, we share a common spiritual environment, ***the Angelic Kingdom***. These Sacred Spirits *sustain* and *allow access to* a '*common spiritual atmosphere*' of potential Celestial Perfection. This gives Humanity choice in her spiritual environment, rather than 'locked into' the atmosphere of psychic and astral imbalance which governed most of the past age. We

need only still the outer self, remain in our Harmony and Balance and invoke their Sacred Presence. ***Peace be still and know that I AM God***!

On another level we have in common our *consciousness*! We know we have consciousness else there would not be life animating our bodies. Consciousness comes from our Mighty I AM Presence when it chose to express a Ray of its own Cosmic Light into the world of form. All Humanity has a current of Electronic Divine Light from the Mighty I AM Presence, along the Silver Cord, that beats our hearts and animates our consciousness …continually presenting the choice of Divine Potential to every cell, atom and electron of our existence. Every heartbeat repeats the Sacred Mantra: I AM, I AM, I AM! We share in common the ***Permanent Atom*** in our Heart …a spark from the Three-fold Flame of Father/Mother God. Since every Permanent Atom in every heart is from the *same one Flame of Father/Mother God*, then we are all created of the same Celestial Substance. Each one has this Inner God Self *ready now* to reveal itself as the Solar Christ Self governing daily life!

So, the 'common platform' for Divine Revelation of our New Age is *remembering our True Identity* and our *oneness with* Angels, Elementals and *all* Divine Consciousness. We remain Consecrated to this '*Divine common denominator'* above all else. Once we understand our common platform through which Revelation now occurs, then we see that only *Divine* Reality is revealed in this New Age, and *nothing less comes forth*. The Restoration of Divine Life now occurs through our common Divine Origins within the Plan of Creation[1]. Let us Consecrate ourselves to this process, rather than any other …continually *focused on* and *serving from* Coherently Connected Divine Consciousness.

I AM here to consecrate each of us as the *Revelation of God in Action on Earth*! Imagine the Revelation when all of us are personally filling this common platform of Energy, Vibration and Consciousness with the Glory of our own Causal Body! Each of us now becomes a Revelation of our Solar Christ Self within our unified Spiritual Forcefield of Ascended and Free Humanity. Together, we are (I AM!) global Divine Consciousness …the Revelation of Heaven on Earth.

We are faced with many options or 'potentials' of how this New Age is revealed. Yet our common Wisdom and Understanding of the Violet Fire and its Transmutation of all karmic patterns into Perfection

[1] Ascended and Free Lightservice has now published a booklet on our True Identity and the Divine Plan of Creation. For a copy of this booklet "Foundations for Ascended and Free Lightservice", obtained through a Love Gift, email the appropriate language website located at the back of each Journal.

Patterns, allows our True Identity to 'come forth' *as it was before there was karma*. This too is *living and serving* Ascended and Free, beyond time and space! This is no 'half measure'…*knowing of* and *consecrated to* a Truth that predates karma … as if no time and space had ever occurred and there had been no 'great fall' from the original Divine Plan. In our understanding of our present Cosmic Moment, there needs be *no other 'mystery' involved* in the Consecrated use of our Sacred Energies.

So …our Revelation comes from Transmutation of karmic patterns and the Restoration of the Light. The Key is the Violet Fire, the most powerful aspect of Divine Love. We serve this Keynote globally through our Victory Statement, as we rhythmically invoke the Cohesive Power of Divine Love uniting all life in her Ascended State! And on a personal level, we constantly stand in our pillar of Violet Fire. Upon our invocation, its Divine Action transmutes all karma patterns, allowing our Three-fold Flame to expand through our Consciousness and govern daily life. See the Three-fold Flame expanding out through our physical, etheric, mental and emotional vehicles, eventually reaching the periphery of our aura. There it touches our Mantle of Perfection (or Tube of Light) from the Mighty I AM Presence. And when these two Forcefields meet, we then ***stand forth transfigured in the Light …on Earth!***

I and my Legions come to consecrate your one-pointed functioning as Coherently Connected Divine Consciousness. For this is *the engine that drives this planetary Ascension.* And once our Revelation is established, Humanity will see this is occurring within all life around her and unite with this Cause without resistance. It is vital that she see this Transformation as coming *from within* (themselves and Humanity) rather than from without. Let us visualize this together.

VISUALIZATION

Within the Oneness of Coherently Connected Divine Consciousness we synchronize our breath within Indivisible Flowing Wholeness. We think and feel in Unison at the level of the Solar Christ Self. We remain consecrated to the correct platform of Revelation, by becoming empty of self, time and space (empty of all Earthly causes) and filled with Cosmic Causes of Holy Spirit. We enjoy life because we love life. This is living 'in the world but not of it'! Consecrated to 'empty of time' means there is *nothing to wait for* because it is *here and now* and *I AM living it now*!

Consecrated to 'empty of space' means rather than pondering 'a future I desire' that *I AM living it now*, here right within my Elemental substance and the spiritual environment of Angels all around me!

Consecrated to 'empty of self' means that my New Age of Spiritual Freedom is within the Light pouring in from my Mighty I AM Presence, *right here and now*. I AM Consecrated to *this* Universe of Limitless Physical Perfection, of Cosmic Holy Spirit and nothing less!

I AM then filled with the Great, Great Silence. I live, move, breath and have my being within this Great Solar Quiet. The ego based outer world no longer presents 'noise' or chaos to me. Now I only see the Three-fold Flame and its Radiant Light …and hear its serene Cosmic Tones. I AM Consecrated to my Divine Creative Faculties, so that the Great, Great Silence may be a Revelation through my thoughts, feelings, words and deeds …knowing the Great Law: 'what I think and feel I bring into form'.

I AM Consecrated to my Divine Creative Faculties. I feel the Hand of Archangel Raphael anointing (as He and Mother Mary did before this embodiment) my ***Seven-fold Flame of the Elohim*** upon my forehead; my ***Twelve-fold Crown of the Elohim*** around my head area, my Aura of soft golden God Enlightenment and *permanent connection* with Cosmic Consciousness; my ***Three-fold Flame*** and its Seven Planetary Chakras (which, when each one is giving at least 51% of its Divine Potential of Light and Perfection, automatically becomes the Twelve Solar Chakras of the Solar Christ Self). Then I become the Mighty I AM Presence walking Earth. Its Electronic Light blazes through my Twelve Solar Meridians and into every cell, atom and electron of my daily life.

In my Consecration to Divine Revelation, Mighty Polaris and Magnus reveals the *Power of Harmony and Balance.* Here the Earth's Axis is aligned with the Cosmic Spine of Universal I AM with the least physical disruption and the greatest Revelation of Divine Grace. This is the Celestial Love in which the Elemental and Angelic Kingdoms now reveal their Divine Potential to Humanity!

I AM Consecrated only to the Immaculate Concept of every person, place, condition and thing …to the highest Divine Potential in all life everywhere. I hold my Consecration to the Divine Light given to Humanity to sustain life on Earth …that it be allowed to Reveal its original Plan and Purpose of Limitless Physical Perfection for Ascended and Free Humanity on an Ascended and Free Earth, in her Ascended and Free Orbit. This is the only 'potential outcome' I focus my ***Powers of Consecration*** towards! And this is my Revelation to Humanity and my service to the Light!

And SO IT IS, BLEOVED I AM!
