And SO IT IS, BELOVED I AM!

ASCENSION CONCEPTS:

There is a Law that is equally true scientifically as it is spiritually …that **Light carries energy but also momentum**. The Radiant Light we anchor as the Divine Instrument of this Age of Spiritual Freedom is a **Cosmic Momentum of Divine Energy, Vibration and Consciousness**

…a quantum impetus specifically designed to reverse the 'ego momentum' over the past age. **Healing** (of mind, body or spirit …personally and globally) is reversing the impetus towards imbalance and discord and establishing a more powerful momentum of Balance and Harmony. In a similar vein, we understand the Ascension Activity as accelerating 'our presence' vibrationally, reversing the momentum of gravity and inertia while establishing the 'Ascension Momentum'. The science and spirituality of Sacred Fire is such a 'momentum shifter', revealing that the ***Cosmic Law of Life*** *supersedes ego laws of life* …reversing the 'age of ego' into the Age of the Mighty God Presence. Sacred Fire was created in the Heart of Father/Mother God to restore the Divine Potential of all things …everything revealed in the **Celestial Momentum** of its own **Spiritual Freedom**.

The Violet Fire is the Power aspect of Divine Love (blue and pink create violet). The Violet Fire has the Power to shift the frequency of any substance or creation towards its Divine Potential. It does so through its Transformation and Transmutation Qualities, an action of Sacred Fire that is projected directly into the atomic substance of imbalance …whether on a physical, etheric, mental and emotional frequency. The other Qualities of Violet Fire (Compassion, Synchronicity) then re-establish the Coherently Connected Divine Consciousness within every level of life, restoring its Divine Function. On every level of life discordant energies leave a 'sticky residue' that interferes with the free flow of Radiant Light, thus blocking the natural function of Coherently Connected Divine Consciousness. Now with Sacred Fire at the forefront, we may restore constant Divine function on all of these levels, instead of any longer accepting aging or disease.

Emotional imbalance is chief amongst the frequencies that interfere with the Divine Plan. From the beginning of time and space, at the fall of Humanity, negative feelings states have been used by the lower ego to disorganize Humanity …and it still is (see current events). Imbalanced emotional states disallow the brain from functioning coherently, thus disallowing the Solar Christ Self from guiding the outer personality. Such feeling states are like a sticky substance, lodged between the electrons, atoms or cells. The Light cannot effectively pass between and thus Coherently Connected Divine Consciousness between electrons, between atoms, molecules and cells cannot function …hence distress, disease, and aging.

The Violet Fire changes this momentum via rapid acceleration of the 'lower frequency substance' itself. For this substance is but primal life misqualified. It originates from the Energy, Matter and Intelligence of God. The ego and any of its forces of imbalance can only misuse or embezzle energy …but cannot create it. The ego tries to decelerate

energy into lower forms and patterns. The Forces of Divinity may not only create energy but also continually accelerate it …*Ascend it*! In fact, the Sacred Fire continually accelerates energy into the *Perfection Patterns life has always known within the Great I AM.*

The Violet Fire is central to the Divine Dispensation of Spiritual Freedom interpenetrating and reversing the ego's hold on Humanity through emotional imbalance. Again, its 'sticky residue' is lodged within our physical, etheric, mental and emotional bodies, as well as between all levels of life (electrons and cells through to families and nations). Let us conceptualize the Activity of Sacred Fire as the same action as when heat is applied to ice …the solid immovable block first becomes liquid (and thus at least flows) and eventually becomes steam (and completely disappears). And once the residue of ego imbalance is removed, the Coherently Connected Divine Consciousness between all levels of life is *restored* (see 'Angel of Restoration'), leaving the Divine Potential within everything to *easily express* …as was intended *in the beginning*.

The Violet Fire is transformational and Humanity understands 'transformational moments'.[1] The Violet Fire confers **resurrection**, taking us from one state into another …always leaving us transformed in the most positive fashion. We have known transformation from our inception. It was 'love at first sight' when we were 'first born' in the Great Central Sun, bonded forever with our glorious God Parents and their Universal I AM. The Violet Fire was there then and if invoked now, resurrects this *original transformational Love* as our *present* awe-inspiring sensation within mind and body *right here and now.*

Divine Rhythm is integral to the Seventh Ray / Violet Fire. As we rhythmically apply the Sacred Fire, each 'transformational event' (even if it goes unnoticed by the outer mind) further opens the flow of Healing and the Restoration of Harmony and Balance. Therefore, the nature of the Seventh Ray lies in *constant rhythmic application,* with each Transformational Event clearing the way for the next. Let us remember that the evidence of Transformation Events is never 'obvious' until the *very moment it appears*.[2] And when they do occur (within our personal or even national lives), there were always a number of preceding things that had to occur 'just so' in order for the obvious event to happen. And here we are serving, laying the foundation for just such a *planetary Transformational event*.

[1] This includes such well known events or experiences as 'love at first sight', religious conversion, eureka moments, profound paradigm shifts, etc.
[2] For example, the Berlin Wall seemed indestructible until *one day* it fell!

And in this vein, let us each remember our personal 'transformational event' that ***opened us to the Light*** and our authentic connection to our Solar Christ Self. Let us expand and project this ideal to Humanity, so that once the Violet Fire has interpenetrated their being and world sufficiently, they too will have their own Timeless and Eternal 'event' of return to Solar Christ Self.

ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED ANGEL OF RESTORATION…

Beloved Children of the Seventh Ray, I greet you along the Momentum of the Cohesive Power of Divine Love …the Divine Dispensation of Spiritual Freedom flowing in on the wings of the Great Cosmic Inbreath. Although I AM generally associated with the Fourth Ray, the nature of my Cosmic Service allows me to serve along any Ray. And thus, I may greet you along the Seventh Ray of Spiritual Freedom. And because you (the Gathering of Ascended Humanity) are so integral to the Great Cosmic Inbreath on Earth as well, then I may greet you *as one of you*! And such is my Joy!

From my Cosmic Perspective, I see you as your Sun of the Sun on Earth …the arisen Solar Christ Self. The Sun I see *as you,* is in Celestial Alignment with all Higher Sun Activity. I see a Cosmic Rod of Radiant Light entering into your Three-fold Flame from Mighty Suns above (Helios and Vesta, Alpha and Omega, and Eloha and Elohae), as well as from the Eternal Sun of Even Pressure below (in the center of the Earth). This Celestial Alignment of the Suns Activity constitutes the Hand of Cosmic Holy Spirit …which itself moves forward the Momentum of the Great Cosmic Inbreath.

I then see a Perfect Circle of Light expand limitlessly around your Sun Flame, creating a universe within it where the Divine Potential for all things therein is *perfectly fulfilled*. This includes your 'daily life' …but I introduce you now to the *daily life of your Solar Christ Self / Mighty I AM Presence*. Here the Great Divine Director of Celestial Life, the Solar Christ Self, creates reality and the ego is forever dissolved. All is in Divine Order! Welcome to my Celestial Vision of the Gathering of Ascended Humanity …one we are serving to restore for *all Humanity* …Together, standing in the Light!

And I stand here with you, in your collective Light, to speak to Humanity from our oneness. The Momentum I carry is called 'Restoration', a frequency or vibration which shifts the momentum of *anything* toward its Divine Potential fulfilled. I AM an aspect of the Divine Dispensation of Spiritual Freedom, summoned from deep within

Universal I AM to respond to a need on our sweet Earth. All of us aligned with this Cause were summoned from *somewhere* or *sometime,* for service on Earth *here and now*. And even if some of us have had many embodiments in this service, it is still but "a blink of the eye of God" in the great scheme of things.

Given the meaning of 'restoration', it is important to notice that we are here to restore an original State of Divine Being that Humanity lost as she turned to ego. This original Divine State is one with the Mighty I AM Presence through the Holy Christ Self operating in full awareness of the outer personality. Had this been allowed to accelerate normally in the Radiant Light of the Three-fold Flame, Humanity would already fulfill all the dreams of Father/Mother God for their I AM Race on Earth. And yet this is the final product of our Transformation Event …the original Divine State now evolved into its even more Enlightened State as if there had never been a 'fall from Grace'. Thus, we sometimes hear 'our goal of restoration' described as 'Great Ascended Masters (the I AM Race) walking the Earth, in constant communication with Angels and Elemental Beings' …as it always was to have been!

Yet the 'restoration process' itself *is new*, in the sense that such a profound shift in Energy, Vibration and Consciousness has never before been accomplished. The Earth is a unique opportunity in the entire Universe! Thus, we can easily understand that *many great Cosmic Beings are present and standing in the Light with us* …along all Rays …all summoned from beyond time and space …some in embodiment and some not (but either way standing in *the same Light*), to ensure our 'grand opportunity' is completely God Victorious!

RESTORATION THROUGH THE PERFECT CONFLUENCE OF SACRED MOMENTUMS

The **Great Cosmic Inbreath** has been awaited throughout the Universe. This is a Grand Cycle of Father/Mother God from the very center of Creation which restores the entire Universe to its *moment of ideal Balance*,[3] allowing it to accelerate quickly from that moment into its next level of anticipated Perfection.[4] And we approach the tipping point where the Momentum of 'the Divine' now restores the creative process *away from ego* and back to the Throne of God on Earth …the Three-fold Flame within the Solar Christ Self.

The **Hand of Cosmic Holy Spirit** is an Activity within the Great Cosmic Inbreath. This Activity aligns all life (within a particular

[3] This 'moment of ideal balance' is sometimes called 'zero point'.
[4] This has been portrayed biblically as the 'Rapture', and by the Mayan calendar as the end of a Cosmic Cycle …both predicted soon.

Universe) with the Sun of Father/Mother God at its Center. This is the 'Sacred Alignment of the Suns Activity' *that is now being initiated*. **Restoration** comes from all things in Coherently Connected Divine Consciousness ***with the Three-fold Flame at the center of all things***. This is the true meaning of being 'centered'.

For our purposes, this Activity is five aspects of the Sun (of Father/Mother God) and their individual 'universes' that must fully align. The Universe called 'Earth' must align with its Eternal Sun of Even Pressure in the Center of Earth. The Universe called 'Humanity' (and her daily life) must align with its Sun of the Sun …the Solar Christ Self restored to foreground. The universe of Helios and Vesta, Alpha and Omega and Eloha and Elohae (and all their Planets and Races) must align with each of these Suns. And the Hand of Cosmic Holy Spirit is thus formed *and put into action*! The only level of Sun Activity not yet entirely ready to create this Hand of Cosmic Holy Spirit (but is very close) is daily life aligned with the Solar Christ Self on Earth. And here we are serving to restore this!

The **Divine Dispensation of Spiritual Freedom** is a unique Forcefield that was created in the Great Central Sun to answer the dilemma of the 'endless karmic loop' life had fallen into on one isolated planet within the Solar System of Helios and Vesta (Earth!). This Divine Dispensation of Spiritual Freedom now may flow in through the Hand of Cosmic Holy Spirit and along the Great Cosmic Inbreath. It too must find anchorage within and *be directed by* the Sun of the Sun on Earth …the Gathering of Ascended Humanity. This Momentum of Sacred Fire is held in the Hearts of Beloved Saint Germain, his Beloved Lady Portia, as well as along the entire Seventh Ray. Beloved Saint Germain governs it 'Outbreath expression' into daily life, while Beloved Lady Portia governs its 'Inbreath expression', holding its Immaculate Concept within her Heart.

The **Cohesive Power of Divine Love uniting all life in her Ascended State** is central to all this **Confluence of Cosmic Momentums**. One could say they are all expressions of Divine Love …*Cosmic Inbreath, Divine Dispensation of Spiritual Freedom and the Hand of Cosmic Holy Spirit.* And as well, we are at the point of the emergence of the Seventh Ray in the Minor Cycles of the Seven Rays and their Dispensations. The ***Seventh Ray*** is the point where ***Divine Love completes itself*** ...the completion of the Ray of Holy Spirit (Rays Three through Seven). This '**completion of Love**' will flower in all aspects of daily life on Earth, over a 'period of time' known as the Age of Spiritual Freedom on Earth. At its close, we return full circle to the First Ray and await a new Grand Major Cycle, a new release of God's Will at its next Higher Frequency up the Eternal Spiral of Ascension.

All of these Divine Forcefields converge on Earth here and now, creating a tremendous **Cosmic Momentum of Restoration**! I AM privileged to oversee it, and you are its anchorage in daily life. What a marvelous time to serve Earth! This **Confluence of Divine Alchemy** is to bring to life all the predictions that Humanity fully returns to her Divine Roots as the I AM Race.

I AM the Restoration of all Perfection!
And SO IT IS, BELOVED I AM!

ENERGY, VIBRATION AND CONSCIOUSNESS OF COSMIC HOLY SPIRIT …

Beloved Ones, *Humanity must find Comfort* …in order to reverse the momentum of imbalanced feeling states at the core of ego's control of daily life. Well meaning people strive to resolve this by ensuring enough 'basics' (food, water and other basic physical resources) for all Humanity. And such efforts represent Holy Spirit …Love in Action. And once Humanity is free from hunger, thirst and oppression she is more resilient to Spiritual Restoration. And from a spiritual perspective, something needs to fill the vacuum once ego is removed, that is, once the Violet Fire has acted! And Cosmic Holy Spirit establishes that Reality of Comfort on the Soul level.

The Gathering of Ascended Humanity is composed of Disciples of Holy Spirit. We establish a Forcefield of Comfort within daily life which then magnetizes Humanity from imbalanced feelings states *into the Light of Love*. All life touched by its Momentum experiences Comfort. Only in this Forcefield may they more easily place ego in the background and their Divinity in the foreground. The action of Cosmic Holy Spirit is multi- faceted, from providing Humanity basic resources and freedom from want and oppression, through to establishing a Forcefield of Cosmic Comfort to feed Humanity spiritually. And here I AM 'gathered with' Ascended Humanity, who understand and serve at the Cosmic Levels of this work.

HEALING

Healing is an aspect of Cosmic Holy Spirit, one of the sub-Rays of the Third Ray of Divine Love (after Power and Wisdom), most commonly associated with the Fifth Ray. But all of it is Love in Action …Love made manifest! Being 'our brother's keeper' may mean giving him food but equally may mean holding a Forcefield of Divine Love for him until he can do so for himself.

Cosmic Holy Spirit is *Father/Mother God living their Universe into Perfection through all of us*. Contemplate this! Humanity cannot survive without 'spirit'; however, one defines that. It is Holy Spirit that drives us to *love and respect all life* …as it is within the Comfort of Holy Spirit that we know '*all life is one*' in the most profound way. Most of Humanity understands that we are not only born in body but also born in Spirit …*born of the Spirit*. It is by radiating Comfort that we become one with Nature, with Angels and with all of Humanity.

The mystical properties of the Flame of Holy Spirit are such that any 'who touch the hem of its aura' are infused with a desire to be all that the Flame is. Thus, they align with the River of Divine Love, along any of its infinite tributaries. Such change occurs on the level of the soul yet sometimes has an unsettling effect on daily life.[5] But we are at a period of transformation and Cosmic Holy Spirit will affect all levels of old patterns, in our bodies or in daily life, as they reconfigure and accelerate toward their Perfection Patterns. Such transformation within a soul is always noticed by the Lord Maha Chohan, guardian of the Third Ray of Holy Spirit, who then assigns a Guardian Presence of Love around such a being until they are manifesting their Victory.

This very activity occurred when the Disciples of our beloved Jesus Christ had the Tongues of Holy Spirit descend upon them at the 'Last Supper'. They were so taken up into Love that they could then dedicate their lives to the Christ teachings in his physical absence. Each had their assigned Guardian Presence of Love to ensure Victory. And this same activity now occurs with the *entire Gathering of Ascended Humanity* around the globe …serving the Ray of Holy Spirit until full Victory. As the Gathering of Ascended Humanity expands daily, so then does the activity of Cosmic Holy Spirit and the assigned Guardians of Love. Let us love and adore this Great Angel presence!

The Source of the Comfort we seek for all Humanity is within the Cosmic Temple of Comfort within the Great Central Sun. We may access these Cosmic Levels *ourselves* in our Coherently Connected Divine Consciousness with our own Mighty I AM Presence and White Fire Being, dispensing such Radiant Love to Humanity …as a magnificent Forcefield of Comfort *within Humanity*! And our Coherently Connected Causal Bodies within the Gathering of Ascended Humanity is a global Forcefield of Comfort, who's Radiant Love reaches the soul of *all life*. Together, Standing in the Light, we are a Mighty Momentum of Cosmic Holy Spirit impacting the world.

THE PATH OF LOVE AND COMFORT

[5] This is sometimes stated as "to taste the goal is to chase the goal".

Comfort comes from loving …and loving …and loving. When any intelligence within the Cosmos loves earnestly and faithfully, Comfort is always present. This is the nature and promise of Father/Mother God. It is said that 'Cosmic Holy Spirit is the feeling nature of Father/Mother God' and reflects their desire that those who Love in their name (I AM) may always be *blessed with and radiate Comfort*. What this means to our present service within the Gathering of Ascended Humanity, is that *our collective service is what creates global Comfort* …beyond a blessing we achieve for ourselves.

This is sometimes difficult to remember as our eyes are often on 'the goal' and not on the process. Our 'goal' might be envisioned by 'living Ascended and Free' …or 'Humanity living an Age of Spiritual Freedom' …or, more practical, 'family harmony, a loving relationship, good health or financial freedom'. We sometimes feel that if we could only achieve that goal, then we achieve Comfort. Yet the process of achieving these goals attracts as much Comfort as the goals themselves. Think on this! By refocusing on the *process* of service rather than the *content* of the goal we envision (however wonderful and perfect that is), we further our expansion of Comfort.

Because of the present Cosmic Moment, it is an honor of the Highest Order to be given embodiment at this time *with the necessary Momentum of Light to be an effective co-server within the Gathering of Ascended Humanity.* In Cosmic terms, this is a rare and privileged opportunity! This means that Father/Mother God has *loved us beyond comprehension* that we are even in embodiment with the enlightenment and vision we currently enjoy. If we can perceive our daily life in ***this spiritual paradigm***, we would then constantly enjoy the Comfort of Cosmic Holy Spirit, regardless of the 'ups and downs' of daily life (which is why the Saints always seemed happy no matter their circumstances). The restricted vision of ego (within time and space) is 'cured' by the *Celestial Vision beyond time and space,* serving *only within Cause*, as a Solar Christ Self, detached from the temporary effects of illusion.

VISUALIZATION OF COSMIC COMFORT

So let us re-discover our own profound Comfort offered us by Cosmic Holy Spirit. Empty of self, let us visualize the Forcefield of Heavenly Adoration continually pouring from Father/Mother God to all life. Within this Ocean of Love are endless possibilities of Love's expression. Such a Cosmic Momentum is only understood and appreciated on the level of the Solar Christ Self and remains a mystery to ego. This state is sometimes called Bliss or Nirvana, a sensation of

being unbelievably loved and adored …and completely one with all Love everywhere. Here we float on a Pink Lotus Blossom within Infinite Radiant Light …free of form …pure Energy, Vibration and Consciousness …dazzling Sacred Fire within and around us …pure Love, pure Celestial Adoration, pure Cosmic Comfort! (…pause)

Then because we do have a body on Earth, it is our privilege and honor to return to that body consciousness and radiate this Forcefield of Comfort into Humanity. Then we are truly the Hand of Cosmic Holy Spirit in action, establishing a Divine Dispensation of Spiritual Freedom, even while enjoying the Highest Radiance of Love Divine.

The Hand of Cosmic Holy Spirit works through us in infinite ways, on endless levels of life on Earth. "**I AM Causing Momentum to shift**" on all these levels, in all these ways, because of our oneness with Humanity, the Angels and the Elementals. This Grand Triangle of Three Fire Signs is itself a Forcefield within Cosmic Holy Spirit. We affirm this Forcefield daily within our Victory Statement: "I AM the Gathering of Ascended Humanity, in union with the Royal Kingdom of Angels and Elementals". And this Forcefield maintains us within our Mighty God Presence …through to *full Cosmic Victory*!

We see ourselves as **Suns of the Sun** collectively radiating a global Momentum of Comfort …a Pink Sun of Divine Comfort enfolding all life on Earth! "**I AM God in Action on Earth**". Our Sun of the Sun becomes the 'Cohesive Power of Divine Love uniting all life in her Ascended State'! And the Healing of the Coherently Connected Divine Consciousness within all life *is complete*. "**I AM the release of Sacred Fire into all aspects of daily life**. **I AM the Healing of Earth and Humanity**!" Even as the Tongues of Flame of Holy Spirit visited the Disciples at the Last Supper, so now do our Solar Flares of Sacred Comfort visit every person, place, condition and thing …every cell, atom and electron of life on Earth.

In this visualization, whatever our attention is upon, there our Sacred Fire flows. As we think and feel the Perfection within Sacred Fire, there it is within our lives and within any part of life we meditate upon. "**I AM the Divine Creative Process of an Age of Cosmic Holy Spirit …of Divine Comfort for all life**." We *expect this* and *accept this* and *nothing less*! For **I AM God in Action** through our Solar Christ Self and its Coherently Connected Divine Consciousness with all other Solar Christ Selves within Humanity …in a great Cosmic Forcefield of Comfort now radiating from *within* Humanity!

I AM a Global Sun of Divine Love!
And SO IT IS, BELOVED I AM!

VEDANTIC PRAYER

Often given to a beautiful rendition of Barber's
Adagio for Strings (or other uplifting music).

Oh, thou Infinite Holy Presence of God, the Divine Source of all life, Hallowed be Thy Sacred Name! We bow before Thee in Gratitude, Praise and Thanksgiving for Thy Supreme Presence in the Universe. Because Thou Art, **I AM**!

We return to Thee Almighty One, all the Power and Dominion we have ever vested in any imperfect manifestation, visible or invisible. For Thou art the all Power of the Universe and there is no other Power that can act! Let Thy Will be done in and through us now! Let Thy Kingdom of God Consciousness be manifest across the face of this Earth through the Heart Flames of all who are so blessed as to live upon it now.

Oh, Supreme Beloved One, as we lift our hearts, our vision, our Consciousness toward Thee, release the Substance of Thyself (Sacred Fire) to us, each according to our requirements, that as we move forward in Thy Name and upon Thy Service, we shall not be found wanting.

We ask Forgiveness for all the transgressions of Thy Law of Love and Harmony, both for ourselves and all Humanity, the Forces of Nature and the Elemental Kingdom. Endow us now with Thy Power and Desire to so forgive others who have caused us distress back unto the very beginning of time.

Because we are One with Thee, we fear no imbalance, for there is no power apart from Thee. Thou art the Strength and Power by which we move ever in the Path of Love and now, Oh Father/Mother God, show us the *full Glory* we had with you in the beginning, before even this world was.

SO BE IT!

(…music peaks …then continued meditation to absorb this Activity!)
