AFFIRMATIONS

I AM!
I AM Ascended and Free!
I AM Together, standing in the Light ...
with all aspects of my world, my affairs and my finances.

Within me, I AM the *wondrous potential of perfection*,
...of my world ...of my affairs ...and of my finances.

As an Ascended and Free Being,
I open to the Celestial Radiance of this process.
I accept that as I *hold the Immaculate Concept* of my
life, all I require or desire in my service to the Light
now comes to pass in the right and perfect fashion ...
at the right and perfect time,
in the right and perfect place,
through the right and perfect people,
in the right and perfect circumstances ...
as long as I AM together, Standing in the Light!

And, SO IT IS, BELOVED I AM!

ASCENSION CONCEPTS

Let us contemplate the fuller meaning of “Together, standing in the Light.” We first acknowledge that central to our Spiritual Service in Ascended and Free is the Vision: “**I AM *all life standing free in the Light.***” Almost every religion foretells of one day standing in the Light. In Christian prophecy this is the rapture ...drawn together *and* drawn into the Light! In many other teachings there are similar prophecies or promises that, *when the spiritual service is done*, ‘we shall gather and be drawn into the Light.’ Part of our service is to understand this notion of ‘gathering.’ It has several dimensions.

First, we might think of Sacred Community, where we find such solace in gathering amongst like-minded souls on a spiritual quest similar to our own. Since we are no longer restricted by time or space, as we gather in consciousness it is as comforting as if we gather in the flesh. Next, we might see gathering in terms of its scientific meaning, as in forming a matrix with crucial nodal points, a Sacred Design that transmits Cosmic Energies, like crystals or other precious conductors do. *We realize the highest conduction of God’s Energies into Earth is through an Ascended and Free Consciousness ...and especially through a gathering or matrix of such Arisen Humanity.* Gathering also may mean that we gather our energies and raise them into their Divine Potential (our own Purification, Resurrection and Ascension) ...and as a global group, do so for Humanity and our sweet Earth.

Gathering also means we gather or unify with Elementals and Angels, so that we are *together, one Forcefield* in raising up Humanity into the I AM Race ...an Ascended and Free Civilization on Earth. This fulfills the Divine Edict of the Brotherhood of Angels, Elementals and Humanity necessary to proceed with Earth's Ascension. And lastly, gathering means *collective Holy Communion ...being stilled, together*. **“Peace! Be still and know that I AM God!”** is a decree we are all familiar with. Let us become still enough that the Light of the Great I AM freely expresses itself through our form, producing its Perfection (God's Will). Imagine the Power of this as we do so *gathered together, in Ascended and Free Consciousness*. Let us contemplate several of these concepts in the following discourses.

THE ENERGY, VIBRATION AND CONSCIOUSNESS OF BELOVED HILARION AND THE SPIRIT OF SCIENTIFIC UNDERSTANDING WITHIN ASCENDED AND FREE...

Beloved Students of Cosmic Truth, greetings! I send you Love from the Temple of the Fifth Ray of Science and the *accurate understanding* of the Sacred Activity of Light and the Healing nature of Sacred Fire.

The Light is an endless expansion of photons, each one an 'intelligence' awaiting its opportunity to unite with formed life and create something Divine. Contemplate this! Each cell of life on Earth is a tiny universe of activity, producing its own energy, having its own innate plan and the intelligence to carry out that plan. Each cell is intensely communal, awaiting communication from life around it, information as to how it may more perfectly add to the good of the whole. In fact, the outer edge of each of these little 'universes' (cells) is an almost etheric-like membrane that is composed of receptor sights. These receptors await an external messenger (or ligand¹) to bind (unite) with it, forming a 'complex.' This complex grants the cell the direction or intelligence to produce a physical experience which it could never have done on its own in isolation. As above, so below. Humans are but a collection of cells and our 'whole' was also designed to continually communicate with our Divine Environment (with Source) and thus constantly become something new and more perfect.

¹ Ligand is from the Latin verb *ligare*, meaning 'to bind'. Typical ligands that bind with receptor sites on cell membranes are hormones, neuropeptides and catecholamines, such as serotonin, dopamine and others.

God's Light is this communication with Source! Imagine that Divine Light (or any of the Sacred Fires) contain messenger 'ligands,' expressing as *photon* (light) and *phonon* (sound) *intelligence*, vibrating on a quantum level (in wave form), such that as they approach the cell and specifically one of its receptors, the ligand and receptor begin to vibrate in Harmony until they *unite as one*. Then suddenly there is an upward shift with the cell now operating in its 'next dimension' ...its Divine Potential. Our bodies contain trillions of cells, each with countless receptor sights. Yet when we 'stand in the Light' there are easily enough photons / phonons (Electronic Patterns of Perfection expressing as Light and Sound) to flood each cell with its full message of Love or Wisdom or Power to raise it (in vibration) to its Divine Potential. As Ascended and Free, let us see our embodied selves as a *flowing, liquid crystalline sea of cells*, now operating divinely in a *flowing, Electronic Sea of Light*. Each cell receives from the Light its right and perfect message, at the right and perfect time, that it may produce its right and perfect expression, in the right and perfect way! This is the perfection of *Standing in the Light*. And SO IT IS!

There are explanations of this activity on a scientific level.² But today, let us visualize this through our Spiritual Vision, for here we see our role in creating something Divine in ourselves and in life around us. We might begin as seeing ourselves as a living cell, a spherical, liquid crystalline universe. We accelerate our vibration so that we may unite with the Electronic Messengers within the Light (bundles of photon / phonon intelligence) *at their quantum level!* Our Glorious I AM Presence is continually sending this Light to us and is eternally hopeful that we will raise ourselves in vibration / frequency to *accept* this Electronic Intelligence from on High (a source of higher vibration). We are every single cell of our being, and we decree: **“As I AM raised up as one cell, so are all my cells raised up with me.”**

For example, let us invoke the Light and Flame of the **Violet Fire** to come to us and unite with us on a cellular level, as we raise ourselves into it. At our invocation, the Violet Fire approaches us and as it does, *we vibrate higher!* Then suddenly in this quantum field of Energy, the two become One (Violet Fire as the Celestial Intelligence and us as the receptor). This forms a complex which is a new creation or new definition of us that functions at or near our Divine Potential (physical, etheric, mental and emotional

² These include studies in physical chemistry, biochemistry or molecular genetics. For example, Crystal Field Theory and Ligand Field Theory help explain some of this phenomenon on a physical chemistry level.

perfection). This happens on an individual cell / molecular level. But as we know, our entire self is but a sea of these cells and molecules, *now being transformed en masse*. This transformation is not only possible for our bodies, but of *all substance, energy and matter in our lives* ...all of our world, affairs, relationships and finances.

In the Healing of the body, the Sacred Fire brings all the intelligence necessary to transmute any dis-order and return the cells to Divine Order and perfect function. Just as the cell has a very intelligent membrane that awaits its messenger molecule from outside itself, so too does the body have an ‘intelligent membrane’³ which also has its receptor sites for change (acupuncture points) that await the correct message that allows the body to function properly, *Divinely ...eventually to reveal the Light Body!* The Sacred Fire has endless sparks of intelligence that desire to burst their Light into these receptors and transform the body. So we can see why our Beloved Saint Germain has pleaded with us to *use and use the Violet Fire!*

TOGETHER ...DRAWN INTO THE LIGHT

In Christian Prophecy, the rapture is when all Christians are simultaneously transported into Heaven, forever to be in their immortal bodies with Jesus Christ. With our present understanding we might understand this concept as *that which we are currently involved in* ...all those at the vibration of Christ Consciousness (i.e. a basic frequency of goodness / Godness) Ascending simultaneously into their Light Body through the intercession of God’s Light and the Sacred Fire, to reveal their True Divine Potential as a God Being ...raising the Earth with them to her status as ‘Ascended and Free Earth in her Ascended and Free Heavens’ (Heaven on Earth). The rapture could therefore be conceived as “the Gathering of Ascended Humanity ...Together, standing in the Light!” Thus, the prophecy of the past age speaks of our service in the present Age of Spiritual

³ If the entire body were thought of as a single cell, then its intelligent membrane has been conceptualized as a Liquid Crystalline Continuum (LCC). The physical component of the LCC contains several known conductors of electronic information, including the most abundant protein in the body, collagen (found in fascia and connective tissue, part of the solid membrane that binds our body together) and water (which is why it is so important to remain well hydrated). Along the LCC are the meridians and their acupuncture points, which organize and move this innate intelligence of the body and utilizes the Light (of the Great I AM) pouring into the body. The Liquid Crystalline Continuum is activated by the Seven Planetary Chakras, through which the Etheric Body influences the physical form, especially its neuro-hormonal balance. Acupuncture, Rolfing, Reiki and other modalities of body Healing work through the LCC *but so too does the Sacred Fire*. For more scientific information on this subject, see the writings of Dr. Mae-Wan Ho.

Freedom, that there is to be a gathering of those who would be drawn into the Light.

The Immaculate Concept of our present service is that as the Gathering (or Matrix) of Ascended and Free gains momentum, more and more of those in its sphere of influence awaken to their Divine Potential. We accept that there are millions upon millions of Humanity in their right and perfect place prepared to do their right and perfect part of the overall Divine Plan, *once they are awakened*. And being awakened might mean an overtly spiritual experience *or* might be an epiphany along *any one of many potential avenues of God expression* ...science, arts, education, government, diplomacy, healing, etc. From our Ascended and Free State we can see the clear majority of people are right now at their tipping point, ready to fulfill their Divine Plan. And Heaven rejoices ...for the Gathering of Ascended Humanity is the signal to the Universe that Humanity is now prepared for full inclusion in the Great Cosmic Inbreath! And once this is fully underway, then watch the Light flood into Earth!

Let us visualize our present Gathering of Ascended Humanity as a great number of 'arisen' people serving as 'nodal points' in a free-flowing global matrix of unified, liquid crystalline energies. See Mighty Rays of Light connecting these points (persons) to each other. Now consider that within the Forcefield between any two points exist countless other persons, places, conditions and things awaiting their transformation within that Consciousness. As of yet these are the 'hidden points' of the matrix. Steadily, within the influence of the Ascended and Free Forcefield, each hidden point awakens, becoming an active nodal point, from which countless other Rays of Light then pour forth, unifying it with countless further points. And the 'matrix of Light' (Gathering of Ascended Humanity) grows rapidly larger and infinitely more multi-dimensional. And on and on the growth now goes, initiating more and more hidden points (between two active points or two poles) until they 'awaken,' when again more Light Rays pour forth from these newly awakened points in endless patterns of connection ...until eventually the matrix or Gathering includes *all Humanity drawn into the Light*.⁴

⁴ Unless they actively decline to join, as everyone always maintains their free will. But this is where they would be given opportunity to embody on a planet designed for slower spiritual development, as the Divine Edict is that the Earth is to 'move on' into her Ascended and Free State.

Let us further review the spiritual science of our own Purification / Resurrection / Ascension. When we say transmute the cause and core of some imbalance or dis-ease, we are speaking of purifying those karmic messages (complexes of lower vibrations) that arrive at the cell and, at the interface of etheric / physical reality, unite with that part of us that still vibrates at those levels, which then creates or sustains dis-ease and dis-stress. Else, these karmic complexes may only ‘bind’ with the cell and thus get it to behave in imbalanced, aging or dis-eased ways if we still have foci of these lower vibrations within us. So we desire to accomplish two things: *first to purify ourselves*, to vibrate only at that higher (Christ) level where our cells are only visible to higher vibrational messenger complexes; and *secondly, to surround ourselves* with those quantum Electronic Messengers of Divine Intelligence within the Light and the Sacred Fire. Both these activities are accomplished by ***Standing in the Light!*** This is the Ascension process! It is accelerated through Spiritual Ceremony (visualization, mantras, song, movement, affirmations, music, fragrance, etc.) as well as eating well (placing only higher vibration within our bodies⁵), sleeping well, plenty of rest and relaxation and positive thinking.

The Fifth Ray of Science is very close to revealing the Truth of many natural Celestial Realities whose time has come to be useful *here and now* in the world of form. This process is a new ‘Book of Revelations,’ expressing as scientific discovery. For example, Divine Consciousness is close to revealing its mysteries through physics and the study of sub-atomic particles and wave energy. The Ascended Masters have taught the electron is eight sided and, behold, science has found this. It is not the Electron per se, but one of the smaller particles within the atom, baryons and mesons that organize themselves into octets. This quantum phenomenon has been dubbed the ‘Eightfold Way’ in honor of the Buddha’s Noble Eightfold Path.⁶ In a related matter, physicists can now show that two sub-atomic particles that split form the same particle may instantaneously communicate with each other no matter the distance they are apart in space and time. This moves us beyond time and space, that they are no longer restrictions. This also replicates the splitting of the I AM Presences from the single White Fire Body and their eternal oneness (as Twin Rays) no matter where their individual Cosmic Journey’s take them. As well, consider that every cell of

⁵ If one cannot always access higher vibrational food, then placing whatever food one receives within the Violet Fire, *with a silent, clear invocation and sustained faith in its God Power*, will create the same Liquid Light Substance (Divine Food) that Beloved Saint Germain creates for his guests. What you think and feel you bring into form!

⁶ See the writings of Murray Gell-Mann, physicist and Noble Laureate.

your body ‘split’ from the original first cell (union of masculine / feminine). It will soon be proven that every cell may communicate instantly with every other cell, and thus that every part of the body keeps in continuous, instantaneous attunement with every other part of the body.⁷ Again, our bodies are a *liquid crystalline continuum*, radiating the photons (our Light Body) and phonons (the tones of our Divine Keynote) of Divine Intelligence across the body instantly!

Multi-dimensional Cosmic ‘ligands’ within the Sacred Violet Fire can bind with any aspect or level of our world, from the cell, atom and electron all the way through to every person, place, condition and thing ...and out to every aspect of race, religion and culture. Within the Violet Fire are ‘transmuting complexes’ full of Divine Intelligence and a Celestial Desire to heal, balance and restore. These Perfection Patterns are intended to be invoked and directed through the Consciousness of Humanity into *any problem on any level* that we could imagine. In fact, our invocation through our Three-fold Flame of Love, Wisdom and Power is what activates these Sacred Fires into action! This is our training as Priests / Priestesses of the **Order of Zadkiel**. These Forces wait in quiet anticipation as they may only come into action through our Free Will Invocation. And the higher the Consciousness giving the invocation in a specific realm, the more Powerful the action of the Violet Fire in that realm. Therefore, as we call forth the Violet Fire from within Ascended and Free Consciousness *on Earth*, this is the highest / most effective activation of God’s Light of Spiritual Freedom *on Earth*. And this is our Service!

We may see these healing / transmuting complexes within the Violet Fire as billions of blazing Maltese Crosses, each filled with a blessing for an individual cell or molecule in our body, mind or spirit. The Maltese Cross is the Electronic Pattern of Beloved Saint Germain. Visualize a Cross of blazing Violet Light visit each cell and, shining upon it, meld with it on a quantum level (wave of Cosmic Energy intermingling with the wave form of that cell or that situation), bringing to it all the Love, Wisdom and Power it requires to grow into the perfection of itself. See all physical, etheric, mental and emotional substance completely bathed in Violet Radiance from these billions of Maltese Crosses. We may also see these healing complexes in the pattern of our own Divinity (our own Electronic Pattern) or that of any other Cosmic Being (examples are the Lotus of Beloved Lord Gautama or the 5-pointed Star of Beloved Sanat Kumara).

⁷ See footnote 3. The LCC is the bio-electric Forcefield through which this instantaneous intelligence is passed and is probably why in acupuncture that if you put a needle in the big toe, the visual part of the cortex instantly lights up.

Transmute, transmute by Violet Fire
all Causes and Cores not of God's Desire,
I AM a Being of Cause alone
that Cause is Love the Sacred Tone.

I AM the Cause of Love expressing on all levels of my being
...through every cell, atom and electron
...through to my world, affairs and finances
...through to every person, place, condition and thing
in my life or, *in my awareness!*

And SO IT IS, BELOVED I AM!

For millennia the faithful have described this 'union with the Divine' in myriad ways. It often envisioned as being drawn up into a Celestial Force, or as a visitation from the Divine ...as in Visitation by Holy Spirit (at the Last Supper). Two familiar phrases for those on a spiritual quest in the Christian dispensation were 'married to Christ' and 'the bridegroom cometh.' We now understand this to mean the analogy that when two people marry and come together, a new life is born. Here *we* (and all aspects of our life and our world) are the bride and *Divinity* (Christ Consciousness, Sacred Fire, God's Light, Photons of Intelligence, etc.) is the groom. When we open to each other and meld our Energy, Vibration and Consciousness, *then new life is born* ...a new, higher, Divine Potential of that person, place, condition or thing is created! Suddenly we live *that Reality*, instead of the lower reality we had endured before.

Such Celestial events now await us as Ascended and Free on Earth. They were given through Grace to the Disciples of Jesus Christ and now we stand forth *in that same Light to be likewise 'risen up.'* Our knowledge now allows us to conceive this Celestial Process in terms of complexes of Divine Energy, photons of Divine Intelligence, phonons of Divine Tone and Sacred Fires of Divine Transformation, *which we invoke* into our cells and atoms ...into our worlds, affairs and finances ...into everything in our global awareness, so as to transform the world into its Spiritual Freedom ...Ascended and Free!

And SO IT IS, BELOVED I AM!

**THE ENERGY, VIBRATION AND CONSCIOUSNESS OF
THE SPIRIT OF PERFECTION WITHIN ASCENDED AND
FREE ...**

Beloved Celestial Patterns of Ascended and Free expressing on Earth, I love you! We have previously visited while contemplating the nature of ‘perfection’ and what it means to our daily service as we example the New Age of Spiritual Freedom. It is a great joy to have a united focus of our attention again, as this creates an avenue of communion between us, allowing us to be One in understanding the nature of Perfection.

In the Ascended and Free Realms, Perfection is seen as more of a *process*, a way of doing, seeing, living (a verb), rather than an ‘absolute’ (a noun). If we allow ourselves to think in terms of absolutes, many will say it is impossible to attain perfection. There are on Earth some absolutes in a limited dimension of measuring. If one wins the Olympic Gold medal, one is thought to be the standard of perfection in that discipline for that moment. It is considered attaining perfection if one achieves 100% on a test. You still may not know everything there is to know about that subject, *but in that moment*, you did the very best that was asked of you. Then, there is being very proud if one gets honors, attaining a grade of 80% or more ...or being happy if one simply passed the course by getting more than half of the correct answers. We might think of this embodiment as a ‘test’ in which we might strive for ‘perfection’ for any given moment ...or attain honors ...or simply be happy that we attained over 50%. For remember dear ones that the Ascension begins when ***50% of one’s energy is used purely, constructively, harmoniously, lovingly.***

The Ascension asks that we do the best we can, as often as we can in terms of using God’s Sacred Energy through our creative faculties of thought and feeling. And we might say that if we are attaining our Ascension then we are doing perfectly! Daily life on Earth is complex. There are many forces impinging on us beyond attempting to serve the Light and accomplish our Divine Plan. Most of these forces are karmic in nature, whether it is personal, national, racial or religious karma. This simply means that we are responsible for all previous energy sent forth ‘less than the vibration of Love’ that yet has our electronic stamp on it. And we would want to be responsible, because in resolving our karma, this too is ‘being perfect’ in the eyes of God ...even if it makes daily life appear less than some ‘absolute ideal of perfection.’

The great shift currently underway is that *we agreed to leave the age of karma*, no longer allowing this particular force to decide the outcome of any given situation. Being empty of self requires that we sustain our focus on Standing in the Light as we continue to live

our lives, resolving our karma as best we can through our thoughts, feelings, words and action ...including calling on the Sacred Violet Fire in setting our karma free. So, living a perfect life as a Light Server can accommodate the imbalance of karma as it is being resolved ...if our principal focus is on the Light and our service through it. To other eyes this might not appear as perfection and indeed appear quite messy. This is why we need to *see through illumined eyes* in evaluating our own lives and especially when we view the lives of others. This leads to compassion, mercy and unconditional Love, which is also living the Ascension.

In Christian teachings, Pentecost is *the dream of togetherness, of all things being made Sacred*. This is our dream too ...*Together, standing in the Light*. Pentecost is ‘the Way of Perfection’ ...being filled with Holy Spirit. It is taking everything true about the Resurrection of the Christ, individually and collectively, and making it real and continuous in daily life. When we stand in the Light, rather than stand in our ego, we automatically become a Disciple of Holy Spirit and a Candidate for the Ascension. If we remain in our Light, consecrated to its blessings continuously blazing into the world, we gradually realize we are filled with Holy Spirit and all the spiritual gifts this brings.

The Universe has its ‘Way’ as well. Its Path includes proceeding through its full Cosmic Inbreath, and *soon*. It has been agreed this will not happen for our Solar System until it *can absolutely include Earth and her Humanity*. But when this condition is satisfied, ***everything changes***, including how complex and seemingly difficult our daily lives appear to be. Humanity perceives itself as living in a ‘fog of Maya,’ with no seeming exit. The Great Cosmic Inbreath will shed Light upon this condition, dissolving it like the morning fog in the clear sunshine. This will occur when our sweet Earth has a preponderance of Ascended and Free energy ...over 50%. And assuring this condition is met is what we refer to as ***the Gathering of Ascended Humanity ...Together, standing in the Light***. Then, as soon as Earth and Humanity are swept up into the Great Inbreath, then all that we have dreamed of in Ascended Master Realms of Pure Light (what may seem like *absolute perfection*) will transpire on Earth and in our personal lives! This will be (and *is now* for those *choosing to live it now*) **Ascended Humanity, on her Ascended Earth, in her Ascended Heavens!**

For then we have approached the ultimate State, known as the Octaves of Perfection / Ascended Master Realms, where absence of error, imbalance, inharmony and flaw is, in fact, ‘the Way’ ...of that Ascended and Free State. It does not necessarily correlate into the

physical world of form *as we presently know it*, but this Truth is self evident for all who frequent Ascended and Free Consciousness.

THE WAY OF PERFECTION

I AM empty of self,
I AM One with the Way,
the Way is Ascended and Free!

The Way is ...
my way of revealing my perfection ...
my Divine Potential expressing ...
my reason for being, for the greater good.

The Way is *thinking, feeling and intending* ...
that I AM doing the right and perfect thing,
at the right and perfect time and place
in the right and perfect Way.

The Way is being centered in my Divine Faculties⁸
my functioning Solar Christ Self,
thus allowing my physical senses to radiate
my inner Flame, Light and Love,
rather than report the imbalance around me.

The Way is my attention focused ...
on my greatest good for the Whole,
on my own Whole rather than any part,
on the Wholeness of all others,
of the Earth and all her life force ...
and of the Wholeness of the Universe,
of which I AM one cell, one Sun of Light.

The Way is financial Freedom
without ever thinking about finances.
The Way is personal Liberty

⁸ Our Divine Faculties include our Heart Flame, where the Light of our Glorious I AM Presence anchors physically (our Central Sun); the Seven planetary Chakras, and their Sacred influence on all dimensions of our being (our Seven Suns); the Crown of the Elohim, permanently connecting us with Cosmic Consciousness; the Blue Diamond of God's Will at our throat, so that we only ever command life into creation in Love's Name; our hands, that we are eternally consecrated to blessing all life we engage; our feet, that we may eternally walk the Path of the Great I AM; our 12 Solar Meridians and 365 acupuncture points, that we may restore Universal balance and heal our embodied being; and, our 5 Elemental Vortices of Earth (at our feet), Water (at our lower abdomen), Fire (at our Heart), Air (at our throat) and Ether (above our head).

without ever thinking about self.
The Way is the Vision of the Seventh Ray,
without ever closing my eyes.
The Way is in living Divine Peace,
without ever leaving its Radiance.

The Way is resolving my outstanding karma
simply by *Standing in the Light with it*,
loving all other life unconditionally
and sustaining my attention on the Sacred Fire,
which I continuously invoke from Higher Dimensions.

I AM the Divine Potential

when ...

I AM empty of self,
I AM One with the Way ...
for the Way is filled with Virtue.

And SO IT IS, BELOVED I AM!
